Proper citation gives credit to the authors, avoids plagiarism, and enables other readers to find the original material. Given the textbook's popularity in psychology courses, many students seek clarity on how to cite it correctly in various citation styles such as APA, MLA, or Chicago.

Why Citation Accuracy Matters

When writing essays, research papers, or articles, accuracy in citation plays a pivotal role in maintaining credibility. Incorrect or incomplete citations can mislead readers or reflect poorly on the writer's attention to detail. Since Ciccarelli and White's textbook is frequently updated across editions, specifying the edition and publication year is vital to distinguish between versions and ensure the referenced information matches the cited material.

How to Cite Psychology 6th Edition by Ciccarelli and White

The citation format varies depending on the style guide you are following. Below are the most common citation examples for the 6th edition of this textbook.

APA Citation Format

Ciccarelli, S. K., & White, J. N. (Year). *Psychology* (6th ed.). Publisher.

For example:

Ciccarelli, S. K., & White, J. N. (2019). **Psychology** (6th ed.). Pearson.

Including the edition number in parentheses is essential because it shows that the information is from the sixth edition, which may differ from previous or later editions.

MLA Citation Format

In MLA style, common in humanities, the citation appears slightly different. Here's an example:

Ciccarelli, Saundra K., and J. Noland White. **Psychology**. 6th ed., Pearson, 2019.

This format emphasizes the authors, title, edition, publisher, and publication year, which helps readers trace the source easily.
