angus and julia stone interview: David Bowie and the Art of Music Video Lisa Perrott, 2023-07-27 The first in-depth study of David Bowie's music videos across a sustained period takes on interweaving storyworlds of an iconic career. Remarkable for their capacity to conjure elaborate imagery, Bowie's videos provide fascinating exemplars of the artistry and remediation of music video. When their construction is examined across several years, they appear as time-travelling vessels, transporting kooky characters and strange story-world components across time and space. By charting Bowie's creative and collaborative process across five distinct phases, *David Bowie and the Art of Music Video* shows how he played a vital role in establishing music video as an artform. By examining Bowie's collaborative process, his use of surrealist strategies and his integration of avant-garde art with popular music and media, the book provides a history of music video in relation to the broader fields of audiovisual media, visual music and art.

angus and julia stone interview: Being John Lennon Ray Connolly, 2018-11-27 What was it

like to be John Lennon? What was it like to be the castoff child, the clown at school, and the middle-class suburban boy who pretended to be a working-class hero? How did it feel to have one of the most recognizable singing voices in the world, but to dislike it so much he always wanted to disguise it? Being John Lennon is not about the whitewashed Prince of Peace of Imagine legend—because that was only a small part of him. The John Lennon depicted in these pages is a much more kaleidoscopic figure, sometimes almost a collision of different characters. He was, of course, funny, often very funny. But above everything, he had attitude—his impudent style somehow personifying the aspirations of his generation to question authority. He could, and would, say the unsayable. Though there were more glamorous rock stars in rock history, even within the Beatles, it was John Lennon's attitude which caught, and then defined, his era in the most memorable way.

angus and julia stone interview: Howardena Pindell Sarah Louise Cowan, 2022-01-01
Exploring the art and life of this important American artist whose work bridged the gaps between abstraction, feminism, and Blackness Howardena Pindell: Reclaiming Abstraction is a fascinating examination of the multifaceted career of artist, activist, curator, and writer Howardena Pindell (b. 1943). It offers a fresh perspective on her abstract practice from the late 1960s through the early 1980s--a period in which debates about Black Power, feminism, and modernist abstraction intersected in uniquely contentious yet generative ways. Sarah Louise Cowan not only asserts Pindell's rightful place within the canon but also recenters dominant historical narratives to reveal the profound and overlooked roles that Black women artists have played in shaping modernist abstraction. Pindell's career acts as a springboard for a broader study of how artists have responded during periods of heightened social activism and used abstraction to convey political urgency. With works that drew on Ghanaian textiles, administrative labor, cosmetics, and postminimalism, Pindell deployed abstraction in deeply personal ways that resonated with collective African diasporic and

women's practices. In her groundbreaking analysis, Cowan argues that such work advanced Black feminist modernisms, diverse creative practices that unsettle racist and sexist logics.

angus and julia stone interview: [Nostalgic Rebels: Politics, Aesthetics, and Selfhood in Postcolonial Morocco](#) Khalid Lyamlahy, 2025-05-23 Mohammed Khaïr-Eddine (1941-1995), Abdelkébir Khatibi (1938-2009), and Abdellatif Laâbi (1942-) are three of the most important francophone Moroccan writers to have emerged in the 1960s. Belonging to the Souffles generation, named after the journal of culture and politics founded in 1966, they played a major role in cultural decolonization and the development of Moroccan literature. This book examines their works and legacy through the dual lenses of revolt and nostalgia. By weaving together comparative close readings of their writings with an analysis of the broader historical and political context in Morocco, the book demonstrates that these writers have used revolt and nostalgia to address state-sponsored violence, grapple with uncertainties about the writing process, and advance or revitalize their political and aesthetic projects. In doing so, this study traces a literary genealogy of political resistance, aesthetic subversion, and nostalgic reconstruction in postcolonial Morocco, while offering a nuanced historical perspective that is closely attuned to the specificities of Moroccan postcoloniality and sensitive to individual trajectories and experiences. The book covers a wide range of literary genres, including poetry, theater, prose fiction, and autobiography, all analyzed through a distinctively Moroccan historical and cultural lens, providing new insights into Moroccan literature and the theories of revolt and nostalgia.
