From the Pulitzer Prize-winning author of March, the journey of a rare illuminated manuscript through centuries of exile and war In 1996, Hanna Heath, an Australian rare-book expert, is offered the job of a lifetime: analysis and conservation of the famed Sarajevo Haggadah, which has been rescued from Serb shelling during the Bosnian war. Priceless and beautiful, the book is one of the earliest Jewish volumes ever to be illuminated with images. When Hanna, a caustic loner with a passion for her work, discovers a series of tiny artifacts in its ancient binding—an insect wing fragment, wine stains, salt crystals, a white hair—she begins to unlock the book's mysteries. The reader is ushered into an exquisitely detailed and atmospheric past, tracing the book's journey from its salvation back to its creation. In Bosnia during World War II, a Muslim risks his life to protect it from the Nazis. In the hedonistic salons of fin-de-siècle Vienna, the book becomes a pawn in the struggle against the city's rising anti-Semitism. In inquisition-era Venice, a Catholic priest saves it from burning. And in Seville in 1480, the reason for the Haggadah's extraordinary illuminations is finally disclosed. Hanna's investigation unexpectedly plunges her into the intrigues of fine art forgers and ultra-nationalist fanatics. Her experiences will test her belief in herself and the man she has come to love. Inspired by a true story, *People of the Book* is at once a novel of sweeping historical grandeur and intimate emotional intensity, an ambitious, electrifying work by an acclaimed and beloved author.

people of the by geraldine brooks: *Memorial Days* Geraldine Brooks, 2025-02-04 A New York Times Bestseller "Brooks tracks the geography of grief with patience and grace as she comes to terms with the ongoing nature of outliving the ones you love most. ... Her memoir is certainly a

testament to her own unique loss, but it's moreover a lifeline to others who will find themselves in this familiar, shattered landscape of grief." —Los Angeles Times "A rich account of marriage and mourning." —Washington Post A heartrending and beautiful memoir of sudden loss and a journey towards peace, from the bestselling, Pulitzer Prize-winning author of *Horse People*. Many cultural and religious traditions expect those who are grieving to step away from the world. In contemporary life, we are more often met with red tape and to-do lists. This is exactly what happened to Geraldine Brooks when her partner of more than three decades, Tony Horwitz – just sixty years old and, to her knowledge, vigorous and healthy – collapsed and died on a Washington, D. C. sidewalk. After spending their early years together in conflict zones as foreign correspondents, Geraldine and Tony settled down to raise two boys on Martha's Vineyard. The life they built was one of meaningful work, good humor, and tenderness, as they spent their days writing and their evenings cooking family dinners or watching the sun set with friends at the beach. But all of this ended abruptly when, on Memorial Day 2019, Geraldine received the phone call we all dread. The demands were immediate and many. Without space to grieve, the sudden loss became a yawning gulf. Three years later, she booked a flight to a remote island off the coast of Australia with the intention of finally giving herself the time to mourn. In a shack on a pristine, rugged coast she often went days without seeing another person. There, she pondered the various ways in which cultures grieve and what rituals of her own might help to rebuild a life around the void of Tony's death. A spare and profoundly moving memoir that joins the classics of the genre, *Memorial Days* is a portrait of a larger-than-life man and a timeless love between souls that exquisitely captures the joy, agony, and mystery of life.

people of the by geraldine brooks: Environmental Justice and the Rights of Indigenous Peoples Laura Westra, 2012 More than 300 million people in over 70 countries make up the worlds

indigenous populations. Yet despite ever-growing pressures on their lands, environment and way of life through outside factors such as climate change and globalization, their rights in these and other respects are still not fully recognized in international law. In this incisive book, Laura Westra deftly reveals the lethal effects that damage to ecological integrity can have on communities. Using examples in national and international case law, she demonstrates how their lack of sufficient legal rights leaves indigenous peoples defenceless, time and again, in the face of governments and businesses who have little effective incentive to consult with them (let alone gain their consent) in going ahead with relocations, mining plans and more. The historical background and current legal instruments are discussed and, through examples from the Americas, Africa, Oceania and the special case of the Arctic, a picture emerges of how things must change if indigenous communities are to survive. It is a warning to us all from the example of those who live most closely in tune with nature and are the first to feel the impact when environmental damage goes unchecked.

She takes us from the opulent court of Louis XIV to the labor camps in modern-day Chinese-occupied Xinjiang. We see how textiles were once dyed with lichen, shells, bark, saffron, and beetles, displaying distinctive regional weaves and knits, and how the modern Western garment industry has refashioned our attire into the homogenous and disposable uniforms popularized by fast-fashion brands. Thanhauser makes clear how the clothing industry has become one of the planet’s worst polluters and how it relies on chronically underpaid and exploited laborers. But she also shows us how micro-communities, textile companies, and clothing makers in every corner of the world are rediscovering ancestral and ethical methods for making what we wear. Drawn from years of intensive research and reporting from around the world, and brimming with fascinating stories, *Worn* reveals to us that our clothing comes not just from the countries listed on the tags or ready-made from our factories. It comes, as well, from deep in our histories.

people of the by geraldine brooks: *From Daughters to Disciples* Lynn Japinga, 2021-02-09 For too long the women of the Bible have been depicted in one-dimensional terms. However, the women of the Bible are complex, multidimensional individuals whose lives are inspiring, funny, and tragic in ways too many of us never hear. In this second of two volumes, Lynn Japinga acquaints readers with the women of the New Testament. From faithful forerunners like Anna and Elizabeth to female disciples like the sisters Mary, Martha, and Mary Magdalene to first-generation followers like Lydia and Dorcas, readers will encounter a wealth of foremothers in the faith in all their messy, yet redeemable, humanity.
