because of winn dixie guided reading level: Readers Front & Center Dorothy J. Barnhouse, 2014 Every teacher wants and expects his or her students to be reading increasingly complex texts, yet sometimes the gap between our expectations and our students' abilities seems wide and deep. How can we make sure they're making complex meaning independently and proficiently, as the Common Core State Standards require? *Readers Front & Center* answers these questions by framing instruction that starts with the student. You'll learn how to do the following: Research and listen to your students so your teaching can be more targeted Notice and name your students' thinking so they can see what complex thinking looks and sounds like Set your students up to be problem solvers Prepare your students to do increasingly complex thinking in increasingly complex texts Filled with examples of one-on-one conferences, small groups, and whole-class scenarios, this essential book provides an accessible and inspiring model of how--and why--we need to put students at the front and center of our teaching.
