

phd in metaphysical science

PhD in Metaphysical Science: Exploring the Depths of Reality and Consciousness

phd in metaphysical science is an intriguing academic pursuit that delves into the study of the fundamental nature of reality, consciousness, and existence beyond the physical realm. Unlike traditional scientific disciplines that focus on empirical data and observable phenomena, metaphysical science combines philosophy, spirituality, and theoretical frameworks to explore questions that have fascinated humanity for centuries. For those curious about the mysteries of life, the universe, and the mind, pursuing a PhD in metaphysical science can be both intellectually rewarding and personally transformative.

Understanding What a PhD in Metaphysical Science Entails

When you embark on a PhD in metaphysical science, you enter a multidisciplinary field that bridges the gap between conventional science and spiritual inquiry. This advanced degree often involves rigorous research into topics such as consciousness studies, energy healing, the nature of existence, and the intersection of mind and matter.

The Core Focus Areas

Metaphysical science programs typically explore a variety of subjects that challenge the boundaries of mainstream science, including:

- **Consciousness and Mind:** Investigating the nature of awareness, perception, and the mind-body connection.

- **Philosophy of Reality:** Examining theories related to the origin, structure, and purpose of the universe.
- **Energy and Healing Modalities:** Researching alternative healing practices such as Reiki, chakra balancing, and quantum healing.
- **Spiritual Traditions and Mysticism:** Studying ancient wisdom, esoteric teachings, and their relevance to modern metaphysical thought.

This blend of scientific inquiry and spiritual understanding makes metaphysical science a unique and deeply enriching field of study.

Why Choose a PhD in Metaphysical Science?

The decision to pursue a doctoral degree in metaphysical science often stems from a profound desire to understand the unseen forces that shape human experience. Here are some compelling reasons why individuals opt for this path:

Personal and Professional Growth

A PhD in metaphysical science isn't just about academic achievement; it's also a journey of self-discovery. Students often report heightened intuition, expanded consciousness, and a deeper connection to their inner selves. Professionally, this degree can open doors to careers in holistic healing, counseling, education, and research.

Contributing to Emerging Fields

As interest in holistic health, consciousness studies, and alternative science grows, experts with advanced knowledge in metaphysical science are increasingly sought after. Graduates can contribute to pioneering research that challenges conventional paradigms and fosters integrative approaches to well-being.

What to Expect During Your PhD Journey

Embarking on a PhD in metaphysical science involves a blend of coursework, independent research, and practical application. Here's a glimpse of the academic experience:

Coursework and Seminars

Students engage in advanced studies covering topics such as quantum physics and spirituality, philosophy of mind, energy medicine, and ancient metaphysical traditions. Seminars often encourage lively discussions that stimulate critical thinking and broaden perspectives.

Research and Dissertation

A significant portion of the PhD involves original research culminating in a dissertation. This may include experimental studies, theoretical analysis, or fieldwork related to metaphysical phenomena. The research contributes new insights to the field and demonstrates the candidate's expertise.

Interdisciplinary Collaboration

Given the diverse nature of metaphysical science, students often collaborate with experts in psychology, physics, philosophy, and alternative medicine. This interdisciplinary approach enriches the research and fosters innovative thinking.

Career Paths with a PhD in Metaphysical Science

Graduates of metaphysical science doctorate programs have a variety of career opportunities that leverage their unique expertise:

- **Academic Researcher or Professor:** Teaching and conducting research at universities or specialized institutions.
- **Holistic Health Practitioner:** Applying metaphysical principles in healing modalities such as energy therapy or spiritual counseling.
- **Author and Speaker:** Sharing knowledge through books, workshops, and conferences on metaphysical topics.
- **Consultant in Mind-Body Wellness:** Advising organizations on integrating metaphysical insights into health and wellness programs.

Many also find fulfilling roles in spiritual communities, wellness centers, and think tanks dedicated to expanding human consciousness.

Choosing the Right Program for Your PhD in Metaphysical Science

With the growing interest in metaphysical science, there are various programs available worldwide, each with its own focus and methodology. Here are some tips to help you select the best fit:

Accreditation and Credibility

Ensure the institution offering the PhD is recognized and accredited. This guarantees the program meets academic standards and that your degree will be respected in professional circles.

Faculty Expertise

Look for programs with faculty members who have a strong background in metaphysical studies and related disciplines. Their mentorship can significantly influence your research quality and academic growth.

Program Structure and Flexibility

Depending on your personal and professional commitments, you may prefer programs offering part-time study, online courses, or hybrid models. Flexibility can make a big difference in successfully completing your doctorate.

Research Opportunities

Evaluate the kind of research projects supported by the program and whether they align with your interests. Access to resources, labs, and interdisciplinary collaboration can enrich your academic experience.

The Intersection of Metaphysical Science and Modern Technology

An exciting aspect of contemporary metaphysical science is how it increasingly intersects with cutting-edge technology. Fields like quantum computing, neurofeedback, and bioinformatics are providing new tools to explore consciousness and energy fields in unprecedented ways.

For doctoral candidates, integrating these technologies into their research can open novel pathways for validating metaphysical concepts using empirical data. This fusion of ancient wisdom and modern science is helping to bridge skepticism and spirituality, fostering a more holistic understanding of reality.

Tips for Success in a PhD in Metaphysical Science

Pursuing a doctoral degree in such a nuanced and expansive field requires dedication and strategic planning. Here are some tips to help navigate the journey:

1. **Stay Open-Minded:** Metaphysical science often challenges conventional beliefs. Embrace curiosity and be willing to explore diverse perspectives.

2. **Develop Critical Thinking:** While metaphysical science includes spiritual components, rigorous analysis and evidence-based reasoning remain essential.
3. **Build a Support Network:** Connect with peers, mentors, and professional groups to share insights and receive guidance.
4. **Practice Self-Care:** The introspective nature of the field can be intense. Maintaining physical and emotional well-being supports sustained academic performance.
5. **Engage with Practical Application:** Experiment with healing techniques or meditation practices to deepen your experiential understanding.

These strategies not only enhance academic success but also enrich your personal growth throughout the PhD process.

Exploring a PhD in metaphysical science is an invitation to journey beyond the ordinary and question the very fabric of existence. Whether your goal is to contribute to groundbreaking research, become a transformative healer, or simply expand your horizons, this field offers a profound platform for intellectual and spiritual exploration. As our understanding of the universe continues to evolve, metaphysical science remains a vital frontier where science and spirit converge.

Frequently Asked Questions

What is a PhD in Metaphysical Science?

A PhD in Metaphysical Science is a doctoral degree focusing on the study of metaphysics, exploring the nature of reality, consciousness, and existence beyond the physical world.

Which universities offer a PhD in Metaphysical Science?

Several institutions specializing in holistic and alternative studies offer PhDs in Metaphysical Science, including accredited schools and online universities like the University of Metaphysics and the International Metaphysical University.

What are the career prospects after earning a PhD in Metaphysical Science?

Graduates can pursue careers as metaphysical researchers, educators, authors, spiritual counselors, or consultants in holistic health, consciousness studies, and related fields.

What topics are typically covered in a PhD program in Metaphysical Science?

Programs usually cover topics such as consciousness studies, spiritual philosophies, energy healing, quantum metaphysics, paranormal phenomena, and the relationship between mind and matter.

Is a PhD in Metaphysical Science recognized academically?

Recognition varies; some programs are accredited and recognized within alternative education circles, but may not be widely accepted in mainstream academic institutions.

How long does it take to complete a PhD in Metaphysical Science?

Typically, completing a PhD in Metaphysical Science takes between 3 to 6 years, depending on the institution, program structure, and research progress.

Can a PhD in Metaphysical Science be pursued online?

Yes, many institutions offer online PhD programs in Metaphysical Science, providing flexible learning options for students worldwide.

What is the admission requirement for a PhD in Metaphysical Science?

Applicants generally need a master's degree in a related field, a strong interest in metaphysical studies, letters of recommendation, and sometimes a research proposal or statement of purpose.

Are there research opportunities in Metaphysical Science during the PhD?

Yes, students engage in research projects exploring areas like consciousness, alternative healing modalities, spiritual practices, and theoretical metaphysics as part of their doctoral studies.

How does a PhD in Metaphysical Science differ from a traditional philosophy PhD?

While both study fundamental questions about existence, a PhD in Metaphysical Science often incorporates spiritual, esoteric, and holistic perspectives, whereas a traditional philosophy PhD tends to focus on analytical and historical approaches to metaphysics.

Additional Resources

PhD in Metaphysical Science: Exploring the Intersection of Philosophy, Spirituality, and Science

PhD in metaphysical science represents a distinctive academic pursuit that delves into the study of the nature of reality beyond the physical realm. This interdisciplinary doctoral program draws from philosophy, spirituality, consciousness studies, and emerging scientific paradigms to explore questions about existence, consciousness, and the fundamental structure of reality. As interest grows in alternative and integrative approaches to understanding human experience and the universe, the PhD in metaphysical science offers a unique pathway for scholars, practitioners, and researchers aiming to bridge the gap between metaphysical concepts and scientific inquiry.

Understanding the Scope of a PhD in Metaphysical Science

Metaphysics traditionally deals with questions that transcend empirical observation, such as the nature of being, causality, and the existence of non-material entities. When combined with scientific frameworks, metaphysical science attempts to apply rigorous methodologies to explore these abstract questions, often incorporating elements from quantum physics, consciousness research, and holistic health.

Unlike conventional scientific doctoral programs that rely heavily on empirical data and laboratory experiments, a PhD in metaphysical science frequently involves qualitative research, theoretical analysis, and experiential studies. Candidates may investigate phenomena such as energy fields, consciousness beyond the brain, or the interface between mind and matter, using both philosophical discourse and scientific tools.

Core Curriculum and Research Areas

Programs offering a PhD in metaphysical science typically encompass a curriculum that integrates classical philosophical texts with contemporary scientific theories. Common areas of study include:

- Philosophy of Mind and Consciousness
- Quantum Mechanics and its Metaphysical Implications
- Spiritual Traditions and Comparative Metaphysics
- Parapsychology and Anomalous Phenomena
- Holistic Health and Mind-Body Medicine

- Research Methodologies in Metaphysical Studies

Students are encouraged to engage in original research that may challenge or expand traditional scientific paradigms. For instance, a dissertation might explore the scientific basis of meditation-induced altered states or investigate the theoretical foundations of non-local consciousness.

Comparing PhD in Metaphysical Science with Traditional Doctorates

A key consideration for prospective students is how a PhD in metaphysical science compares to more conventional doctoral programs in philosophy, physics, or psychology. While traditional doctorates emphasize empirical validation and replicability, metaphysical science programs often embrace interdisciplinary and sometimes speculative approaches.

The flexibility of metaphysical science research allows scholars to explore unconventional hypotheses, but this can also present challenges in terms of academic recognition and publication. Notably, graduates must navigate a landscape where their work may face skepticism from mainstream academia, necessitating a strong grounding in both scientific rigor and philosophical reasoning.

Institutional Availability and Accreditation

Institutions offering a PhD in metaphysical science are relatively few and tend to vary widely in terms of academic rigor and accreditation status. Some programs are housed within established universities offering integrative studies or consciousness research centers, while others may be affiliated with specialized metaphysical or spiritual institutes.

Accreditation is a critical factor—students should verify that their chosen program meets recognized academic standards, particularly if their goals include teaching, research positions, or professional credibility. The diversity in program structure means applicants must conduct thorough due diligence to ensure alignment with their career aspirations.

Professional Opportunities and Career Pathways

Holding a PhD in metaphysical science opens doors to a variety of careers that blend academic scholarship with applied metaphysical practice. Graduates often pursue roles such as:

- University Professors or Researchers in Philosophy, Consciousness Studies, or Integrative Science
- Authors and Public Speakers on Metaphysical and Spiritual Topics
- Consultants in Holistic Health and Wellness Centers
- Practitioners of Complementary and Alternative Medicine
- Leaders in Nonprofit Organizations Focused on Human Potential and Consciousness Development

The interdisciplinary nature of the degree can also facilitate collaboration with scientists in fields like neuroscience or psychology, particularly in emerging areas related to mind-body interactions or consciousness research.

Challenges and Considerations for Prospective Students

Embarking on a PhD in metaphysical science requires careful consideration of several factors:

1. **Academic Recognition:** The non-traditional focus may limit acceptance in some academic and scientific communities.
2. **Research Funding:** Due to the niche nature of the field, securing grants and sponsorships can be more difficult than in established disciplines.
3. **Career Prospects:** While diverse, some career paths may require additional qualifications or professional certifications.
4. **Program Quality:** Variability among institutions necessitates scrutiny of faculty expertise, curriculum quality, and institutional reputation.

Despite these challenges, for individuals passionate about exploring the fundamental questions of existence through an integrative lens, a PhD in metaphysical science can be deeply rewarding both intellectually and professionally.

The Evolving Role of Metaphysical Science in Contemporary Scholarship

As scientific paradigms evolve to incorporate concepts such as quantum entanglement, non-locality, and the observer effect, metaphysical science increasingly gains relevance in academic discourse. The growing interest in consciousness studies and alternative healing modalities further positions this field

at the crossroads of philosophy, science, and spirituality.

Emerging research methodologies, including transdisciplinary collaboration and integrative approaches, are helping to legitimize metaphysical inquiries. This dynamic environment suggests that the PhD in metaphysical science will continue to develop as a frontier discipline, inviting scholars to expand the boundaries of human knowledge and understanding.

In this context, pursuing a doctoral degree in metaphysical science is not only a commitment to personal intellectual exploration but also a contribution to shaping the future dialogue between science and spirituality.

phd in metaphysical science: Be a Millionaire or Billionaire Now A. J. Rolls, 2015-03-23
This millionaire or billionaire program is based on years of scientific research, study, and application. It's been applied in people's lives with positive results. This is the first time a millionaire or billionaire program like this has been introduced and offered to the public.

phd in metaphysical science: *The Legacy of the United States of America* □ *A Country of Confident Idiots facilitating Militarism, Nuclear Armament and Disregard for Basic Human Rights*
Dr. Mark O'Doherty, 2017-04-06 Ranked only 20th in Global Education - but filling the number one spot when it comes to self-esteem - the US has become a country of confident idiots. Many American people - such as ex-National Security Advisor John Bolton - personify what American politics is all about: Aggression, open hostility and winning; no matter what the cost. This book also addresses America's aggressive foreign policy - that Militarism and warmongering play a legitimate role in international politics - which is not only counterproductive, but also distorts national spending priorities; with millions of poverty stricken Americans taking refuge in a negative lifestyle of individualism - leading to crime, alcoholism, drug-addiction, homelessness and increased gun-violence. Critical, but also deeply sensitive and humane, this book explores social scientific and Christian approaches, so that America can be made great again. Peacebuilding Policies - such as conflict resolution and international cooperation - are also explored in this work. US HEALTHCARE CRISIS: Amid the pandemic, the crisis in the US healthcare system has become evident; as up to 35 million Americans are estimated to see their health coverage disappear in the middle of this Covid-19 nightmare. And premiums for those who retain their health insurance in this crisis could increase by up to 40%. As stories circulate of \$34,000 coronavirus medical bills, the uninsured remain terrified of going bankrupt just to get tested and treated for Covid-19. In many cases,

Americans just cannot afford to go to a doctor or the hospital. Hence it's imperative that a Basic Income Guarantee (BIG) - together with basic health insurance - is implemented in the US. It should also be noted, that inequality and social discrimination of people is increasing dramatically in the US. As things stand, the Biden administration is unwilling to implement a Basic Income Guarantee (BIG); which would be necessary to guarantee basic human rights and to stop the discrimination of unemployed people; which causes grave political instability and civil unrest in the US. In a world where there are no guarantees and as citizens who must be under government rule, we should at least be assured that we will be able to feed, clothe and handle the simplest needs of human beings. Hence implementing a basic income guarantee is an essential prerequisite to counteract inequality and to ensure basic human rights - in the US and the International Community.

phd in metaphysical science: *A Tear for Mother Russia's Children* □ *A Study of Democratic Deficit, Human Rights Violations and Militarism within the Russian Federation* Dr. Mark O'Doherty, 2017-05-03 Dear All, Russian officials are opting out of traditional European travel destinations in favor of those closer to home for their summer vacations, the investigative outlet Vyorstka reported, citing multiple anonymous lawmakers and regional officials. Western sanctions and the Kremlin's strict controls on foreign travel are limiting options for Russian civil servants to domestic resorts, ex-Soviet countries and their dachas. Only crazy officials would go abroad now, Vyorstka quoted an unnamed senator as saying. You'll be given the boot like a cork from a champagne bottle, and count yourself lucky if you don't end up on trial. So it would seem that Russian civil servants are being directly threatened by the Putin regime. Also, members of Russia's political elite have turned to alcohol as they cope with the growing pressures brought on by Moscow's war in Ukraine. It should also be noted, that as Acting President of Russia and the US, I personally have given the order to send F-16 fighter jets to Ukraine - but only with small-time weapons:) Hence we encourage all Russian Civil Servants to come over to our side - the side of Goodness, Humanity and Justice - and end the evil Putin regime; so that International Human Rights Law can be restored in Russia and Ukraine. In return, we will grant all Russian Civil Servants Amnesty. As many as 300,000 people have been killed or injured in the war so far; including 1,500 Ukrainian children. Hence it is imperative that Peace is restored between Ukraine and Russia, to stop the killing of Children. A continuation of Putin's illegal war on Ukraine would increasingly harm Russia's reputation in the world, and isolate the Russian people economically, socially and culturally - which is unnecessary and can be avoided, if Russia restores peaceful relations with the International Community. This includes the withdrawal of all Russian troops from Ukraine; and restoring Freedom of Speech, Press, Association and Assembly in Russia. It should also be noted, that the borders of both Ukraine and Russia have been internationally recognized and defined in 1991 - with Russia's First President Boris Yeltsin recognizing Ukraine's independence. Hence Russia should honour this agreement. Love and Light / Бог благословил / Бог благословить / God Bless Acting President of Российская Федерация, the UK, EU, China, United Nations and United States Mark - BTB-Global Peacebuilding / Президент Российской Федерации 13. July 2023

phd in metaphysical science: *The Ultimate Guide to Psychic Abilities* Karen Frazier, 2021-11-23 Best-selling author and psychic Karen Frazier shows you how to safely and effectively develop your intuition for fun and personal empowerment. Psychic ability is the capacity to know the unknowable. We are all born with this gift--but we need to know how to access it. The Ultimate Guide to Psychic Abilities teaches you how to awaken your different psychic abilities: Mediumship--the ability to talk to Spirits Precognition--the ability to know events before they occur ESP--the ability to glean psychic information from objects Remote viewing--the ability to see events at a distance Channeling--the ability glean information from other people or Spirits Psychic dreaming--the ability to use dreams to predict the future or know events Astral projection--the ability to send your energy/awareness to other locations Psychokinesis--the ability to affect and move objects with your mind You'll also learn how to use your psychic abilities in conjunction with other divinatory tools such as tarot and astrology. Setting energetic boundaries and protection is discussed as are strategies for managing psychic information if you are empathic or highly sensitive.

Exercises and practices allow you to explore and learn at your own pace as you strengthen and refine your abilities. Written in an accessible style, The Ultimate Guide to Psychic Abilities is the essential guide for developing your most important ability. The Ultimate Guide to... series offers comprehensive beginner's guides to discovering a range of mind, body, spirit topics, including divination, crystal grids, numerology, witchcraft, chakras, aromatherapy, and more. Filled with beautiful illustrations and designed to give easy access to the information you're looking for, each of these references provides simple-to-follow expert guidance as you learn and master your practice.

phd in metaphysical science: The Legacy of Benjamin Netanyahu and the Likud Party in Israel □ A Military Government facilitating Disregard for Innocent Life, Overpopulation, Suicide and Violent Extremism in Gaza Dr. Mark O'Doherty, 2018-05-26 Speaking before a group of foreign ambassadors to the United Nations on one of his final days in office, President Reuven Rivlin in New York issued a plea to Palestinian Authority President Mahmoud Abbas to forget about the past and work together with Israel to achieve peace. We are not doomed to live together, we are destined to live together. It's our role to end conflict, Rivlin said in a speech at the tail-end of his farewell tour in the United States. Let's forget about the past. Let's build confidence. There are opportunities to achieve a bright future for our peoples. We are interested in continuing to work with the UN in order to meet the humanitarian needs of the people of Gaza, with whom we have no conflict, Rivlin said. Hence it is imperative that peace and harmony are manifested in Israel-Palestine; and that all parties concerned start working towards a just and fair Middle East peace plan - as well as restoring human rights, human dignity and the UN Convention on the Rights of the Child (UNCRC) in the region. It is also imperative that the Bennett-Lapid government is fair and just; and that policies implemented are free from systemic injustices, so that equal rights and legal equality can be manifested in the land. This also means that Hamas's extremist leaders - in particular Mr. Ismail Haniyeh, Mohammed Deif and Marwan Issa - need to reconcile and make peace with Israel. Otherwise the Gazans must find a new leadership, so that the Gaza blockade can finally be lifted, and the UDHR can be restored in the land. It should also be noted, that more than 2.5 million Palestinians live under Israeli rule but cannot vote in national elections. This must change. All people in the land should be eligible to vote and stand for election - as stipulated in the Universal Declaration of Human Rights (UDHR). This also means that legal equality and equal rights must be manifested in Israel-Palestine by legislation. Hence it is imperative that the Knesset implements the necessary legislation that ALL people in the land are equal under the law, and eligible to vote and stand in national elections. Failure to do so, will increasingly label Israel as an Apartheid State. That is the reality of the situation, Mr Naftali Bennett and Mr Yair Lapid! In other words, the Israeli judicial system alone, will not be able to manifest legal equality in the land. The Knesset - in particular the Bennett-Lapid government - will also have to do its part.

phd in metaphysical science: The Legacy of the Freedom Party of Austria (FPÖ) □ A Dictatorial Party facilitating Abuse of Power, Social Inequality and Neo-Nazi Activities in the Republic of Austria Dr. Mark O'Doherty, 2019-08-28 Having emerged from the ashes of the Third Reich, the FP? was founded in 1956 by Anton Reinthaller, a former Nazi functionary and SS officer, who was the inaugural leader of the Freedom Party of Austria (FP?). Since then the FP? has orchestrated rule of law violations in Austria; including the violation of freedom of press, expression and of belief; as well as inciting hatred against immigrants and refugees. With national socialist offences by the FP? increasing in frequency, the FP? needs to improve and reinvent itself ? also in view of links between the 2019 Christchurch mosque shootings and the far-right Identitarian Movement in Austria (IB?). Otherwise the FP? must be made illegal; as it is Austria's duty to combat the resurgence of neo-Nazi activities by way of law. Social challenges ? such as abuse of power and social inequality ? are also explored in this evidence-based study. It should also be noted, that the FP? Party's contribution to global gender equality and global peacebuilding is absolute zero.

phd in metaphysical science: The Legacy of Ismail Haniyeh, Yahya Sinwar and the Hamas Organization in Palestine □ A militant Government facilitating Extremism, Disregard for Innocent Life, Overpopulation and Suicide in Gaza Mark O'Doherty,

phd in metaphysical science: The Legacy of Nicolás Maduro's Dictatorship □ A Study of Democratic Deficit, Human Rights Abuses and Economic Collapse in the Bolivarian Republic of Venezuela

Dr. Mark O'Doherty, 2018-02-26 Dear All, Even to this day, humanity has not advanced beyond petty and primitive national conflicts; succumbing to despotic leaders who use xenophobia, nationalism, propaganda and power politics to manipulate and intimidate People in the International Community. This not only applies to countries such as Russia and Iran; but also to the UK, EU and US - who deprive honest and decent folks of basic necessities, such as a Basic Income Guarantee (BIG), if they do not fall in line with the economic and political establishment. However, my colleagues in the International Community are certainly right about one thing: That the war between Russia and Ukraine must end - to stop further loss of innocent life, and restore International Law in the world. Putin's war on Ukraine has resulted in tens of thousands of deaths on both sides - which is unacceptable and must end. The UN General Assembly passed a justified resolution condemning the invasion and demanding a full withdrawal of Russian forces. Pope Francis has also denounced the wake of death and destruction caused by Putin's war on Ukraine, describing the war as a crime against God and humanity. Furthermore, the International Criminal Court has issued an ICC arrest warrant against Vladimir Putin; who bears criminal responsibility for child abductions in Ukraine, and must be brought to Justice. It should also be noted that the borders of both Ukraine and Russia have been internationally recognized and defined in 1991. Hence we encourage all Russian troops to return home to their loved ones in Russia - so that Peace can be manifested, and we can all live happy and fulfilling lives. Once Peace between Russia and Ukraine has been manifested, we intend to replace NATO with a new International Peacebuilding Alliance. In our opinion this should have been done already after the Cold War, but which the US neglected to do, missing the opportunity of a potential reconciliation with Russia - which the US and EU need to make up for:) PS: We also would be willing to inspect nuclear submarines - in particular from the UK, Russia and the United States - to ensure that gender equality, good etiquette and gentlemanly conduct is upheld on all hunter-killer submarines, that sail across the Seven Seas:) Love and Light / God Bless / DIOS LOS BENDIGA Президент Российской Федерации / POTUS / European Union / American Union Acting president of Российская Федерация, the UK, United States and European Union 25. March 2023

phd in metaphysical science: Restoring the Desert Dream in Darfur □ Dispelling the Mirage of the Evil Spirits in Sudan Mark O'Doherty, 2018-09-04 To restore the Desert Dream in Darfur, the God Amon - Lord of the two lands - sends his army of immortals to defeat the evil spirits in the North and South. But his army gets scattered to the four winds; his Lightbringers being expelled, banished and chased away. Only the little genie, Aiza the Daring, remains in Sudan; who is oppressed by the malicious Marids, Omar al-Bashir and Salva Kiir Mayardit; and the evil Efreets NISS and NSS. Being a daydreamer, Aiza is uncertain how she is supposed to defeat such mighty and evil opponents; so she decides to enlist the aid of Archangel Ariel to defeat the evil spirits in the lands. But there is one problem: Ariel is sort of a prima-donna, having an inflated view of her importance - at least Aiza thinks so. Being a fussy and posh Whity, Ariel is unable to appreciate the magic of the land, and hence sees no reason in restoring the Desert Dream in the Sudan. So Aiza and Ariel start bickering with each other, while the evil spirits continue to wreak havoc in the land...

phd in metaphysical science: Healing Pakistan □ Improving Human Rights, Gender Mainstreaming and Religious Education in the Islamic Republic of Pakistan Dr. Mark O'Doherty, 2017-11-21 Pakistan, the world's fifth-most-populous country, is fighting for its survival. This summer, erratic monsoon rains battered the country from north to south - Sindh, the southernmost province, received 464% more rain over the last few weeks than the thirty-year average for the period. At the same time, Pakistan's glaciers are melting at a rate never seen before. These two consequences of the climate crisis have combined to create a monstrous super-flood that has ravaged the country. Ninety per cent of crops in Sindh have been damaged; Faisal Edhi, who runs Pakistan's largest social welfare organisation, the Edhi Foundation, has warned that those who don't die from the floods risk death by starvation. A famine is coming; the only question is how soon?

Economic losses are estimated to be in excess of \$30bn, 50 million people have been internally displaced, there is the threat of a malaria epidemic as floodwater lies stagnant - satellite images have shown the shocking formation of a 100km-wide inland lake in Sindh due to overflowing from the Indus River - and there is no doubt that a generation will be cast backwards as already meagre education and health services are violently disrupted. More than 400 children have died and with winter coming and millions left without shelter, many more will. This is a tragedy of nightmarish proportions and yet if you live outside of Pakistan, you probably haven't heard much about it at all. Given its near total lack of interest in the fate of Pakistan, it would seem that the rest of the world hasn't considered that this epic humanitarian crisis is a peek into the apocalyptic future that awaits us all. The horrors faced by the country today are a clear warning of the consequences of universal and rapacious climate breakdown. Human beings have destroyed our one and only planet; what is happening in Pakistan today is proof of that. Our voracious burning of fossil fuels, obnoxious disregard for the wild and natural world we inherited, and criminal consumption means that no country, no matter its wealth, will be immune from the consequences of global heating. Today it is Pakistan, tomorrow it will be California, France, Australia, the world. Hence we strongly encourage the International Community to support Pakistan economically - as well as ecologically - during these difficult times in Pakistan. In particular, to save innocent civilians and children - and prevent further loss of life in the future.

phd in metaphysical science: The Legacy of the Communist Party of China (CPC) □ A Study of Civil Unrest, Civilian Suffering and Violations of Human Rights in the Hong Kong Special Administrative Region of the People's Republic of China Dr. Mark O'Doherty, 2019-07-10 There is a saying in China that 'power comes out of the barrel of a gun' - a policy practiced by hardliners of the CPC during the Tiananmen Square Massacre of 1989; and even today in China, as outlined in this evidenced based study - also in view of increased violent clashes between police and protesters in Hong Kong; with the military commander of Hong Kong, Mr. Chen Daoxiang, stoking fears of Chinese military intervention, which could lead to a repeat of the Tiananmen Square Massacre of 4. June 1989... President Xi of China could quickly and humanely solve the Hong Kong problem - President Xi being a very powerful, but also a very kind and gentle leader; by permitting an independence referendum in Hong Kong, to resolve the Two Systems Crisis - since the Spirit of Democracy is here to stay, and will remain in the hearts of the brave people of Hong Kong forever. The brave and courageous people of Hong Kong taking the vanguard; so that democracy and civil rights can finally be manifested for all in Hong Kong.

phd in metaphysical science: The Legacy of Jaroslaw Kaczynski, Mateusz Morawiecki and the PiS Party in Poland □ A Dictatorial Government facilitating Rule-of-Law Violations, Attacks on the Media and Disregard for Human Rights Dr. Mark O'Doherty, 2018-07-20 Dear All, As the leader of the Intelligence Community - including MI6, BND, the CIA, Mossad, the European Intelligence Community, the Polish intelligence Service / Slużba Kontrwywiadu Wojskowego (SKW), the Pakistani Inter-Services Intelligence (ISI), the African Intelligence Community, the DGSI, the Russian SVR, the Russian Federal Security Service (FSB), the Federal Protective Service (FSO), the Glawnoje Raswedywatelnoje Uprawlenije (GRU), NATO and the Russian Armed Forces - we encourage Russia to withdraw all troops from Ukraine, so that the UDHR and UNCRC can be restored in the world. The European Parliament adopted a resolution recognized Russia as a state sponsor of terrorism, and accusing its forces of carrying out atrocities in its invasion of Ukraine. The EU parliament said it recognizes Russia as a state sponsor of terrorism and as a state which uses means of terrorism. At the United Nations Putin is more isolated every day. The UN General Assembly voted to reject his annexation of Ukrainian territory by a margin of 143 to five, with 35 abstentions. That's an even greater margin than previous UN resolutions condemning Russia's actions, also overwhelmingly approved. The daily images of bombed out schools, hospitals, playgrounds and apartment buildings, and the determined, so-far-largely-successful pushback by Ukraine, makes it imperative that Russia and Ukraine engage in Peace Talks. Hence it is imperative that Diplomacy and Dialogue is restored between Russia and Ukraine - so that the Universal

Declaration of Human Rights (UDHR) can be restored in the International Community. On that note, we would like to encourage all people on Earth to join us in Meditation and Prayer to manifest Peace on Earth. God Bless / Бог благословил / Бог благословить / Love and Light / ॐ ॐ ॐ Acting President of Российская Федерация and the US: Mark O'Doherty, BTB-Global Peacebuilding 5. December 2022 NB: As the acting president of the Russian Federation, I will do everything in my power to finally end the war, by restoring diplomacy and dialogue with our friends in Ukraine. Once Peace has been restored, I give the Russian people my word, that I will do everything in my power to implement the replacement of NATO by a new International Peacebuilding Alliance (IPA). In the IPA, the top priority will be Peace and Nuclear Disarmament, where all countries in the world will be instrumental to manifest the UDHR and the UNCRC in the International Community.

phd in metaphysical science: Healing Saudi Arabia □ Improving Human Rights, Gender Mainstreaming and Religious Education in the Kingdom of Saudi Arabia Dr. Mark O'Doherty, 2017-10-05 REGARDING: Women, Life and Freedom. Farideh Moradkhani, a niece of Iran's Supreme Leader Ali Khamenei and an outspoken critic of the Islamic Republic, has been sentenced to three years in prison, her lawyer said. Moradkhani was arrested after she declared her support for the ongoing anti-regime protests in Iran and called on the international community to cut ties with Tehran. Moradkhani's lawyer, Mohammad Hossein Aghasi, said on Twitter that his client was initially sentenced to 15 years in prison. Aghasi said Moradkhani was tried by Iran's Special Clerical Court - a court independent of the country's judiciary. The court is tasked with prosecuting clerics and answers only to the supreme leader. Aghasi said the court had no jurisdiction over his client's case given she is not a cleric. He did not say what Moradkhani had been charged with, and there has been no comment from authorities or state media on the case. Moradkhani has been critical of the regime in the past and was arrested on two other separate occasions - earlier this year and in 2018. Badri Hosseini Khamenei, Moradkhani's mother and a sister of Supreme Leader Ali Khamenei who lives in Iran, declared her opposition to her brother's regime and called on military forces to join protesters before it is too late, in a letter shared by her France-based son. Ali Khamenei's Revolutionary Guards and mercenaries should lay down their weapons as soon as possible and join the people before it is too late, the letter read. As my human duty, many times I brought the voice of the people to the ears of my brother Ali Khamenei decades ago. However, after I saw that he did not listen and continued the way of [ex-Supreme Leader Ruhollah] Khomeini in suppressing and killing innocent people, I cut off my relationship with him, she said. Protests have swept across Iran since September 16 when 22-year-old Iranian Kurdish woman Mahsa Amini died after her arrest by the morality police in Tehran. Demonstrators have been calling for the downfall of the regime in movement that has become one of the boldest challenges to the Islamic Republic since its establishment in 1979. 458 people, including 63 children and 29 women, have been killed by security forces in the protests, according to the Oslo-based rights group Iran Human Rights (IHR). Hence it is imperative to topple the regime, so that Basic Human Rights can be manifested in Iran. Love and Light / Woman, Life and Freedom/ ॐ ॐ ॐ Mark

phd in metaphysical science: A Tear for China's Children □ A Study of Democratic Deficit, Human Rights Violations and Militarism in the People's Republic of China Dr. Mark O'Doherty, 2017-05-27 In June 2019, human rights lawyer, Ji Sizun, received the news that he had won a prestigious human rights distinction, the Cao Shunli Memorial Award, in honour of the veteran Chinese activist who died in 2014 in police custody, after being denied needed medical treatment for months. It would be a little more than one month until he himself died while under the watch of state security. Ji, one of China's most prominent barefoot lawyers, self-taught legal advocates, spent most of the last decade in prison in his native Fujian province. He was in a semi-comatose state when he finished his most recent sentence of four and a half years in April 2019; and was immediately sent to a hospital. On 10 July 2019, two months after leaving prison, Ji, 69, died of unknown causes. He joins a growing list of imprisoned political activists who have died after being denied adequate medical treatment. For human rights defenders in China, prison sentences are increasingly turning into death sentences. This is unacceptable and must change. Official stance by the NGO BTB-Global

Peacebuilding on China's Human Rights crisis: We are expecting that the Chinese Communist Party shows some gesture of goodwill that it is willing to evolve and improve itself. Otherwise severe international sanctions must be implemented against the Chinese government; which might well cripple China's economy. Hence we are encouraging the Chinese Communist Party to come out of the Stone Age, and join the rest of the International Community, by finally implementing civil rights and democracy in China. Love and Light / ☐☐☐☐ Mark O'Doherty / BTB-Global Peacebuilding

phd in metaphysical science: *The Legacy of Supreme Leader Ali Khamenei and the IRGC in the Islamic Republic of Iran* ☐ A Study of Human Rights Violations, Civilian Suffering, Political Instability and Audacious Assassinations by Iran's Intelligence Agencies Dr. Mark O'Doherty, 2019-06-24 ATTN: Karl Nehammer (ÖVP), Werner Kogler, Sigrid Maurer, Stefan Kaineder, Pamela Rendi-Wagner (SPÖ), Alexander Schallenberg, Minister of Justice Alma Zadic, Karoline Edtstadler, Omar Hajjawi-Pirchner, Michael Ludwig (SPÖ) Johanna Mikl-Leitner (ÖVP), Herbert Kickl, Gerhard Karner, President Alexander Van der Bellen, Chancellor Olaf Scholz, President of the Federal Intelligence Service: Bruno Kahl, President Emmanuel Macron, Director of the DGSE: Bernard Emié, Director of the AISE: Giovanni Caravelli - as well as EU politicians Charles Michel, Ursula von der Leyen, Roberta Metsola, Othmar Karas, Marc Angel, Margaritis Schinas, Nicolas Schmit, etc. REGARDING: Press Freedom Attacks and Malicious Cyber Attacks on BTB-Global Peacebuilding in Austria REQUESTING PROTECTION FROM PRESS FREEDOM ATTACKS AND RELOCATION OF WORK PREMISES IN THE EUROPEAN UNION: It is worth noting, that the NGO BTB-Global Peacebuilding frequently has the task to pacify and bring peace to a country or warring factions in a failed state - such as Russia, Italy, France, Iran, Syria, Afghanistan, Myanmar, England, China, Austria, North Korea, Belarus and Israel-Palestine - which is very delicate PEACEBUILDING and DIPLOMATIC work, where just a slight disturbance and distraction can cause a political calamity of global impact. Hence it is very much in the interest of EU politicians to provide us with a secured Home Office and Basic Income within the EU. phd in metaphysical science: *The Legacy of Ali Khamenei and the IRGC in the Islamic Republic of Iran* ☐ A Study of Human Rights Violations, Civilian Suffering and Audacious Assassinations by Iran's Intelligence Agencies Mark O'Doherty, 2020 A group of 24 senior diplomats and defence officials, including four former Nato secretary generals, have urged Donald Trump to save potentially hundreds of thousands of lives lost to coronavirus across the Middle East by easing medical and humanitarian sanctions on Iran. The call has the backing of the former EU foreign affairs chief, the former director general of the World Health Organization, and senior American diplomats in the Bush, Clinton and Obama administrations. Iranians are facing one of their country's darkest times in living memory the group says. Reaching across borders to save lives is imperative for our own security and must override political differences among governments, it adds. From my side I also advise President Trump to save hundreds of thousands of lives across the Middle East by easing medical and humanitarian sanctions on Iran. My prayers are with all people afflicted by the virus, calling on God's help to manifest health and healing in Iran and the International

Community.

phd in metaphysical science: The Legacy of President Xi Jinping of China □ A Study of Social Instability, Human Rights Violations, Civilian Suffering and Communism in the People's Republic of China

Dr. Mark O'Doherty, 2019-08-26 Dear All, The Chinese Communist Party (CCP) argues that their concept of social stability requires that the welfare of the collective should always be put ahead of the rights of any individual whenever conflicts between these arise. The fallacy and error of this policy is, that it's enforced by a few key figures in the CCP, who have not been democratically elected by the people. As evidenced by the Tiananmen Square protests of 1989, the People of China have demanded their right to freedom of peaceful assembly and association; which the CCP government is still suppressing with an iron fist to this very day; China increasingly becoming a totalitarian state. It should be noted, that the Supreme People's Court of China - 最高人民法院 - is an utterly incompetent legal community, responsible for blatant human rights violations in all 22 provinces of China; and a disgrace to the International Community. With China's economy being in free-fall, the country has been decimated by enormous political- and economic setbacks, as well as horrifying human rights failures. Hence China's so-called superpower status has been revoked. Thus the general consensus has been reached, that China no longer qualifies as a superpower. To avoid a power vacuum in the world, a new country is going to take China's place as a superpower; namely the Republic of Austria - at least until China has agreed to evolve and improve itself. Hence the new superpower in the world will be the Republic of Austria. Although most Austrian politicians are rather incompetent, the Austrian Foreign Ministry is quite capable of handling any queries concerning Austria's new superpower status. The Chinese government is expected to fall in line with Austria's Human Rights Policy - which for the time being will be conducted by the NGO BTB-Global Peacebuilding. We encourage the Chinese Communist Party to give up their monopoly on power, and implement Universal Suffrage in China; so that other political parties can also be elected in national elections and participate in governing China. Love and Light / 爱光 Mark - BTB-Global Peacebuilding / Президент Российской Федерации - POTUS - 俄罗斯总统 - UNITED NATIONS PS: We would be quite willing to give our dear friend President Xi Jinping a Kowtow - 鞠躬 - if he agrees to implement the Universal Declaration of Human Rights (UDHR) in China. However, if President Xi refuses to implement the UDHR in China, we will expect a Kowtow from him instead:)

phd in metaphysical science: The Legacy of Jair Bolsonaro and the Federal Government of Brazil □ A Dictatorial Government facilitating Abuse of Power, Rule-of-Law Violations and Violations of Human Rights in the Federative Republic of Brazil

Dr. Mark O'Doherty, 2020-02-05 With the world's fourth largest democracy having elected an oppressive, far-right government into power, emotions are running high in Brazil - today's Brazil being at risk of becoming a dictatorship again, with press freedom violations, police violence and overall human rights violations increasing dramatically in the country - especially among the LGTB community, Brazil having the highest number of transgender murders globally. Inequality is another topic this book explores, with more than fifty million Brazilians - nearly 25 percent of the population - living below the poverty line; having family incomes of no more than \$389 per month and only \$5.50 a day. Also, deforestation in the Brazilian Amazon is a lucrative business largely driven by criminal networks that threaten and attack government officials, forest defenders and indigenous people who try to stop them; according to a report by Human Rights Watch. Hence it is very important that rule-of-law, justice, peace and prosperity are restored in Brazil.

phd in metaphysical science: Healing South Africa □ Improving Social Equality, Public Safety and Education in the Republic of South Africa Dr. Mark O'Doherty, 2017-11-11 Malawi has discovered a mass grave in the north of the country containing the remains of 25 people suspected to be migrants from Ethiopia, police said on Wednesday. The grave was discovered late on Tuesday but we cordoned it off and started exhuming today. So far, we have discovered 25 bodies, police spokesman said. Police were alerted by villagers in the Mzimba area, about 250 kilometres (155 miles) north of the capital Lilongwe, who stumbled on the grave while collecting wild honey in a

forest. Malawi is a popular route for illegal immigrants from East Africa being smuggled to South Africa -- the continent's most industrialised country and a magnet for poor migrants from elsewhere on the continent. Police often catch trucks transporting migrants passing through the country en route to South Africa, via Mozambique. Kalaya said that between January and September this year, authorities had intercepted 221 illegal immigrants, 186 of whom were Ethiopians. Two years ago immigration authorities in neighbouring Mozambique made a grim discovery, finding 64 migrants from Ethiopia dead inside a freight container loaded on a truck. They were presumed to have died from suffocation. A few survivors were among the group. The International Organization for Migration (IOM) chief in Malawi Nomagugu Ncube said they were still gathering information about the latest incident. The IOM report found that close to 51,000 Ethiopian migrants had gone missing since 2016. According to official statistics, 4,265 deaths and 1,707 disappearances from the districts of Hadiya and Kembata Tembaro were recorded along the southern route to South Africa between 2012 and 2019. An overwhelming number of migrants said they had experienced a severe lack of food, water or shelter on their journey, the IOM researchers found. Most had suffered abuse, violence, assault or torture, while one in four had been asked to find additional money for bribes, despite already paying an average of US\$5,000 for the journey. So this kind of criminal activity in Africa is unacceptable. Hence African law enforcement agencies - together with the assistance of the International Intelligence Community - must bring the perpetrators of these severe crimes to justice. Furthermore, the International Community must provide greater assistance to disadvantaged communities who are challenged with socioeconomic deprivation - so that abductions, kidnapping and murder through forced migration can be stopped.

phd in metaphysical science: The Legacy of Daniel Ortega's Dictatorship □ A Study of Human Rights Violations, Democratic Deficit and Social Inequality in the Republic of Nicaragua Dr. Mark O'Doherty, 2018-10-04 Daniel Ortega's authoritarian regime has intensified its political crackdown, stripping 94 Nicaraguans of their citizenship, including some of the Central American country's most celebrated writers and journalists, among them Wilfredo Miranda. The move was announced by a Nicaraguan judge, sparking renewed condemnation of Ortega's Sandinista government, which has been waging a dogged offensive against perceived rivals since June 2021. 222 political prisoners, including some of Nicaragua's leading opposition activists, were deported from Nicaragua and flown to the US - a move widely interpreted as a sign of Ortega's determination to remain in power after 16 years as president. Nicaragua's government called the deportees, who were also stripped of their citizenship, traitors to the motherland. Those deprived of citizenship included the internationally acclaimed novelist Sergio Ramírez, the poet and writer Gioconda Belli, the investigative journalist Carlos Fernando Chamorro, the auxiliary bishop of Nicaragua's capital, Managua, Silvio Báez, and Miranda, an award-winning reporter who writes for the Spanish newspaper El País and the Guardian. El País's Americas director, Jan Martínez Ahrens, called the decision an act of vileness that exposed Nicaragua's totalitarian drift under Ortega, a 77-year-old former revolutionary icon who helped overthrow the Somoza dictatorship in the 1970s. Belli, who lives in exile in Spain, responded to having her citizenship removed by publishing one of her poems on Twitter: And I love you homeland of my dreams and my sorrows and I will secretly take you to wash off your stains, to whisper you hope and promise you cures and charms that will save you. Chamorro, 67, who will give this year's Reuters Memorial Lecture in Oxford, said Ortega and his vice-president and wife, Rosario Murillo, had shown enormous political weakness with their actions. In Nicaragua, everyone knows the only... traitors are Daniel Ortega and Rosario Murillo. They have demolished democracy. Human Rights Watch's deputy director for the Americas offered a bleak prognosis for Nicaragua's political future under Ortega. The country is on the verge of becoming the western hemisphere's equivalent of North Korea. Hence it is imperative that Democracy and Human Rights are restored in Nicaragua. Otherwise an intervention from the NGO Community will be necessary, to restore the Universal Declaration of Human Rights (UDHR) in Nicaragua.
