history of may 18: History and Imagination Ronald V. Morris, 2012-03-08 In History and Imagination, elementary school social studies teachers will learn how to help their students break down the walls of their schools, more personally engage with history, and define democratic citizenship. By collaborating together in meaningful investigations into the past and reenacting history, students will become experts who interpret their findings, teach their peers, and relate their experiences to those of older students, neighbors, parents, and grandparents. The byproduct of this collaborative, intergenerational learning is that schools become community learning centers, just like museums and libraries, where families can go together in order to find out more about the topics that interest them. There is an incredible value in the shared and lived experiences of reenacting the past, of meeting people from different places and times: an authority and reality that textbooks cannot rival. By engaging elementary social studies students in living history, whether in the classroom, after school, or in partnership with local historical institutions, teachers are guaranteed to impress upon the students a special, desired understanding of place and time.

history of may 18: Competitive Arms Control John D. Maurer, 2022-01-01 The essential history of the Strategic Arms Limitation Talks (SALT) during the Nixon Administration How did Richard Nixon, a president so determined to compete for strategic nuclear advantage over the Soviet Union, become one of the most successful arms controllers of the Cold War? Drawing on newly opened Cold War archives, John D. Maurer argues that a central purpose of arms control talks for American leaders was to channel nuclear competition toward areas of American advantage and not just international cooperation. While previous accounts of the Strategic Arms Limitation Talks (SALT) have emphasized American cooperative motives, Maurer highlights how Nixon, National Security Advisor Henry Kissinger, and Secretary of Defense Melvin Laird shaped negotiations, balancing their own competitive interests with proponents of cooperation while still providing a coherent rationale to Congress. Within the arms control agreements, American leaders intended to continue deploying new weapons, and the arms control restrictions, as negotiated, allowed the United States to sustain its global power, contain communism, and ultimately prevail in the Cold War.

history of may 18: Rosebud, June 17, 1876 Paul L. Hedren, 2019-04-11 The Battle of the Rosebud may well be the largest Indian battle ever fought in the American West. The monumental clash on June 17, 1876, along Rosebud Creek in southeastern Montana pitted George Crook and his Shoshone and Crow allies against Sioux and Northern Cheyennes under Sitting Bull and Crazy Horse. It set the stage for the battle that occurred eight days later when, just twenty-five miles away, George Armstrong Custer blundered into the very same village that had outmatched Crook. Historian Paul L. Hedren presents the definitive account of this critical battle, from its antecedents in the Sioux campaign to its historic consequences. Rosebud, June 17, 1876 explores in unprecedented detail the events of the spring and early summer of 1876. Drawing on an extensive array of sources, including government reports, diaries, reminiscences, and a previously untapped trove of newspaper stories, the book traces the movements of both Indian forces and U.S. troops and their Indian allies as Brigadier General Crook commenced his second great campaign against the northern Indians for the year. Both Indian and army paths led to Rosebud Creek, where warriors surprised Crook and then parried with his soldiers for the better part of a day on an enormous field. Describing the battle from multiple viewpoints, Hedren narrates the action moment by moment, capturing the ebb and flow of the fighting. Throughout he weighs the decisions and events that contributed to Crook's tactical victory, and to his fateful decision thereafter not to pursue his adversary. The result is a uniquely comprehensive view of an engagement that made history and then changed its course. Rosebud was at once a battle won and a battle lost. With informed attention to the subtleties and significance of both outcomes, as well as to the fears and motivations on all sides, Hedren has given new meaning to this consequential fight, and new insight into its place in

the larger story of the Great Sioux War.

history of may 18: *Global Defense Procurement and the F-35 Joint Strike Fighter* Bert Chapman, 2018-12-27 This book analyzes the development and evolution of the F-35 Joint Strike Fighter, a multinational aircraft endeavor involving the U.S. and many of its allies. The author provides a historical overview of jet fighter aircraft, discussing the different generations of these planes and their technical characteristics, as well as an outline of emerging international

geopolitical and security trends the F-35 may see combat in. By examining the role of defense industries, domestic politics, and governmental oversight of the Joint Strike Fighter in various countries, the author concludes that this aircraft will be deployed in most of these countries to replace their aging jet fighter fleets and combat potential military aggression from China, Russia, and other revisionist international powers.
