tyler james williams history of the world: History Of The Third Infantry Division In World War II Lt. Donald G. Taggart, 2016-03-28 Few units in the U.S. Army can boast as proud a unit history as the Third Infantry Division; it fought on all of the Europe and North African fronts that American soldiers were engaged against the Axis forces during World War II. The 3rd Infantry Division saw combat in North Africa, Sicily, Italy, France, Germany and Austria for 531 consecutive days. In this official division history written by the officers who served with the unit at the time serves as a fascinating memorial and a detailed history of the "Marne Division" during World War II. The 3rd Inf. Division made landfall in Fedala on the 8th November 1942 as part of Operation Torch during the Allied invasion of North Africa and was engaged in heavy fighting before the German and Italian troops were finally levered out of the continent. The division was back in the thick of the fighting in Sicily under the command of such famous leaders as Generals Lucien Truscott, Omar Bradley and George S. Patton. As part of General Mark Clark's U.S. Fifth army it engaged in some of the bloodiest engagements of the Italian campaign at Salerno beaches, Volturno river, Monte Cassino and Anzio. Under their old division commander General Truscott they formed part of the force that landed in Southern France and battled into the heart of Germany before the eventual capitulation of the Nazi High command in 1945. Richly illustrated with maps and pictures throughout.

tyler james williams history of the world: Black Social Television Sherri M. Williams, 2024-12-15 In this book, Sherri Williams explores the digital activism of the Black social TV audience, a subset of Black Twitter. In addition to demands for social equality and shifts in social justice, Williams argues, the Black social TV audience advocated for a representation revolution in television, leading to some shows being blocked from airing, some being taken off the air, and others even being revived. Williams positions this activism as an extension of Black people's historic advocacy related to the use of their image, dating back a century to when the NAACP attempted to block screenings of the notoriously racist 1915 film *The Birth of a Nation*. This book details how Black audiences' use of social media impacted the way television is watched, developed, and produced through digital discourse and activism, primarily on Twitter (now known as X). Williams also demonstrates how Black content directors, like Justin Simien and Quinta Brunson, used social networks to develop their content and loyalty among audiences to ultimately bypass Hollywood's traditional gatekeepers. Finally, the book touches on contemporary events, such as the COVID pandemic and Elon Musk's acquisition of Twitter, have affected the ways in which Black content creators engage with their content and audience and vice versa. Scholars of television studies, social media studies, cultural studies, and sociology will find this book particularly useful.
