

the first of baritone bass solos

The Evolution and Significance of the First of Baritone Bass Solos

the first of baritone bass solos marks a fascinating chapter in the world of vocal music, blending the deep resonance of bass tones with the flexibility and warmth of the baritone range. This unique vocal category has carved a niche for itself, captivating audiences and challenging performers to explore a rich spectrum of expression. Whether you're a budding singer, a music historian, or simply an enthusiast of classical and operatic traditions, understanding the origins and development of baritone bass solos offers a window into the artistry and technique behind these compelling performances.

The Origins of Baritone Bass Solos

Baritone bass as a vocal classification emerged during the 19th century when composers and vocalists began to recognize the need for voices that could bridge the gap between the traditional bass and baritone roles. Historically, bass voices were assigned the deepest, most sonorous parts, often embodying authority figures or villains in opera. Baritones, meanwhile, typically handled roles that required a warmer, more lyrical quality. But there was a growing demand for a vocal range that could combine the low depth of a bass with the agility and mid-range warmth of a baritone – giving birth to the baritone bass voice.

The first of baritone bass solos appeared in operas and art songs as composers experimented with vocal timbres, seeking to add emotional complexity and dramatic nuance to their works. This hybrid voice type allowed for a wider range of expression, capable of moving seamlessly between powerful low notes and expressive middle registers.

Historical Context and Early Examples

One of the earliest notable instances of baritone bass solos can be traced to the works of composers like Giuseppe Verdi and Richard Wagner. Verdi's operas, for example, often featured characters whose vocal lines demanded both the depth of bass and the flexibility of baritone, exemplified in arias that showcased this duality. Wagner's complex characters, too, often required singers to possess a wide vocal range and dynamic expression, qualities perfectly suited to the baritone bass voice.

An example is the role of Wotan in Wagner's "Ring Cycle," which demands a vocal range and power that sits comfortably within the baritone bass classification. This role, among others, helped define and popularize the use of baritone bass solos on the operatic stage.

Understanding the Vocal Range and Characteristics

To truly appreciate the first of baritone bass solos, it's important to grasp the vocal characteristics that define this category. The baritone bass voice typically spans from the low E2 (the second E below middle C) to the G4 (the G above middle C), though individual singers may vary slightly in range.

Key Vocal Features

- **Rich Low Register:** The baritone bass voice boasts a deep, resonant quality in its lower register, borrowing the sonority of the traditional bass.
- **Smooth Middle Range:** It maintains a warm, lyrical quality in the mid-range, allowing for expressive phrasing and emotional subtlety.
- **Vocal Agility:** Unlike the heavier bass, the baritone bass can navigate complex melodic lines with greater flexibility.
- **Dynamic Versatility:** This voice can shift from powerful, commanding passages to softer, introspective moments with ease.

These features make the baritone bass ideal for solos that require both strength and tenderness, making the singer a versatile storyteller.

The Role of the First Baritone Bass Solos in Opera and Beyond

Baritone bass solos have long played a pivotal role in opera, setting the emotional tone and advancing the narrative. Unlike typical bass roles that might emphasize authority or menace, baritone bass solos often reveal the inner conflicts and vulnerabilities of characters, adding layers to the story.

Iconic Baritone Bass Arias

Several baritone bass solos have become staples in the operatic repertoire, celebrated for their depth and emotional intensity. Some of the most famous examples include:

- **"Di Provenza il mar, il suol"** from Verdi's *La Traviata*: A heartfelt aria that showcases the singer's ability to convey nostalgia and longing through a smooth, expressive line.
- **"O du mein holder Abendstern"** from Wagner's *Tannhäuser*: This solo highlights the lyrical and tender aspects of the baritone bass voice.

- **“Ella giammai m’amò”** from Verdi’s *Don Carlo*: A powerful expression of despair and isolation, requiring both vocal power and subtlety.

These solos demonstrate how the first of baritone bass solos set a precedent for roles requiring complex emotional expression, blending vocal richness with dramatic intensity.

Techniques for Mastering Baritone Bass Solos

For singers interested in baritone bass solos, developing the right technique is crucial. This vocal classification demands a balance of strength and finesse, as well as careful attention to breath control and resonance.

Tips for Singers

1. **Develop a Strong Breath Support:** Deep, controlled breathing is essential for sustaining long phrases and reaching low notes with clarity.
2. **Work on Resonance:** Focus on placing the voice to maximize natural resonance, especially in the chest voice, to achieve a rich tone without strain.
3. **Expand Vocal Range Gradually:** Use vocal exercises to safely extend the upper and lower limits of your range.
4. **Practice Dynamic Control:** Experiment with volume and subtle changes in timbre to bring emotional depth to your solos.
5. **Interpret the Text:** Understanding the story and emotions behind the solo will help you deliver a more convincing and heartfelt performance.

Why the First of Baritone Bass Solos Still Matter Today

In modern classical music and opera, baritone bass solos continue to be a vital part of the repertoire. They challenge singers to merge power with artistry and invite audiences to experience a wide emotional palette. Beyond the stage, these solos are also popular in concert performances and recordings, where the unique timbre of the baritone bass voice can be fully appreciated.

Moreover, contemporary composers have expanded the possibilities for baritone bass solos, incorporating them into new works that explore diverse musical styles and themes. This ongoing evolution keeps the tradition alive and relevant, inspiring new generations of vocalists and listeners alike.

Whether you are drawn to the historical roots or the technical artistry of baritone bass solos, exploring these pieces offers a deeper appreciation of

the human voice's expressive power. The first of baritone bass solos not only opened doors for a distinctive vocal range but also enriched the storytelling potential of music, making them an enduring treasure in the vocal arts.

Frequently Asked Questions

What is considered the first notable baritone bass solo in classical music?

One of the first notable baritone bass solos is often attributed to operatic roles composed by Mozart, such as Sarastro's arias in 'The Magic Flute,' which prominently feature bass-baritone solos.

Which composer is known for pioneering baritone bass solos in operatic music?

Wolfgang Amadeus Mozart is known for pioneering significant baritone bass solos, particularly through characters like Sarastro and Don Giovanni, which showcased the depth and range of bass-baritone voices.

When did baritone bass solos first become prominent in classical performances?

Baritone bass solos first became prominent in the 18th century, especially during the Classical period, as composers like Mozart and later Verdi wrote more substantial and expressive solos for this vocal range.

What distinguishes a baritone bass solo from other vocal solos?

A baritone bass solo is distinguished by its vocal range, which lies between the bass and baritone registers, offering a rich, deep tone that can convey both power and subtlety, making it unique compared to higher tenor or soprano solos.

Are there any famous early recordings of baritone bass solos?

Early recordings of baritone bass solos date back to the early 20th century, with singers like Feodor Chaliapin and Mattia Battistini popularizing these solos through recordings of operatic arias and traditional bass-baritone repertoire.

Additional Resources

The First of Baritone Bass Solos: A Historical and Musical Exploration

the first of baritone bass solos marks a pivotal moment in the evolution of vocal performance, blending the rich timbre of the bass voice with the lyrical qualities often attributed to the baritone range. This unique vocal niche, occupying a sonic space between baritone and bass, has captured the attention of composers, performers, and audiences alike. Tracing the origins and development of the first baritone bass solos reveals not only the technical demands of this vocal category but also its cultural significance within classical and operatic traditions.

The Emergence of the Baritone Bass Voice

The baritone bass voice, often described as a hybrid vocal classification, emerged as composers sought to exploit the full spectrum of male vocal ranges. Traditionally, voice types were categorized as bass, baritone, tenor, and their subtypes, but the nuanced distinction of baritone bass offers a richer palette for musical expression. The first of baritone bass solos appeared in the late 18th and early 19th centuries, a period of vocal experimentation and expansion in operatic literature.

This era coincided with the rise of Romantic opera, where composers like Mozart, Rossini, and later Verdi began crafting roles that demanded versatility beyond the conventional bass or baritone. The baritone bass solo provided a middle ground, allowing for dramatic depth with the sonorous gravity of the bass and the melodic agility of the baritone.

Defining Characteristics of Baritone Bass Solos

Understanding the first of baritone bass solos requires an appreciation of their defining musical features. Unlike pure bass solos, which emphasize the lowest vocal registers, baritone bass pieces often navigate an extended range. This includes:

- **Lower tessitura:** The solo explores resonant low notes typical of bass voices, adding weight and dramatic effect.
- **Mid-range flexibility:** It incorporates the lyrical and expressive qualities found in baritone singing.
- **Dynamic contrast:** Shifts between powerful, resonant passages and lighter, more melodic lines.
- **Articulation and phrasing:** Requires precise control to balance depth

with clarity.

These elements collectively make baritone bass solos technically demanding yet emotionally compelling, appealing to singers capable of mastering both vocal power and finesse.

Historical Context and Key Examples

The first significant baritone bass solos are often attributed to early operatic works that expanded male vocal roles beyond traditional boundaries. Mozart's operas, for example, include roles that flirt with this vocal territory, but it was in the works of Giuseppe Verdi and Richard Wagner that the baritone bass voice found a more defined and celebrated presence.

Verdi's Influence on Baritone Bass Repertoire

Verdi's operas stand out as some of the earliest and most influential sources featuring baritone bass solos. Characters such as Iago in *Otello* and the title role in *Rigoletto* showcase the depth and complexity required of this voice type. The solos in these operas demand not only vocal range but also emotional nuance, with Verdi's compositions pushing singers into new expressive territories.

For example, Iago's "Credo" in *Otello* is a baritone bass solo that illustrates the blend of sinister low tones and agile melodic lines. This piece exemplifies the dramatic potential of the baritone bass voice, combining storytelling with intricate vocal demands.

Wagner and the Expansion of Vocal Range

Richard Wagner's operas further expanded the role of the baritone bass, integrating the voice into his dense, leitmotif-rich musical textures. The role of Wotan in *The Ring Cycle* is a quintessential baritone bass part, requiring a singer to deliver both power and lyrical subtlety over Wagner's orchestral complexity.

Wotan's solos are characterized by their length and emotional depth, demanding stamina and technical mastery. The baritone bass voice here serves as both narrator and protagonist, integral to the unfolding drama.

The Technical and Artistic Demands of the First Baritone Bass Solos

Performing the first of baritone bass solos is a formidable challenge. Singers must possess a rare combination of vocal attributes and interpretive skills. Key demands include:

- **Range:** Ability to comfortably transition between low bass notes and higher baritone passages.
- **Resonance:** Maintaining richness and fullness throughout the vocal spectrum without strain.
- **Breath control:** Managing long phrases and dynamic shifts seamlessly.
- **Expressivity:** Conveying complex emotions through vocal color and phrasing.

These requirements often influence casting decisions in opera companies, with baritone bass roles reserved for singers who can convincingly embody the voice's dual nature.

Comparisons with Pure Bass and Baritone Solos

Comparing baritone bass solos to pure bass or baritone solos reveals distinct artistic considerations. Pure bass solos typically emphasize depth and gravity, often portraying characters such as kings, priests, or villains. Baritone solos tend to focus on lyrical agility and emotional complexity, suitable for romantic leads or conflicted protagonists.

In contrast, baritone bass solos straddle these qualities. They carry the authority and solemnity of bass voices while retaining the expressive versatility of baritones. This duality allows for more nuanced character portrayals and musical interpretations, enriching performances and expanding repertoire possibilities.

The Legacy and Modern Interpretation

The significance of the first of baritone bass solos extends into contemporary vocal performance and pedagogy. Modern composers continue to write for this voice type, inspired by its historical roots and unique expressive capacity. Singers and teachers now recognize the baritone bass as a distinct category, developing specialized techniques to master its

challenges.

Contemporary Composers and Baritone Bass Works

In recent decades, composers have embraced the baritone bass voice in new operas, art songs, and concert works. This ongoing evolution reflects the vocal category's versatility and enduring appeal. Contemporary pieces often push the boundaries further, incorporating extended techniques and exploring diverse musical styles.

Training and Vocal Health Considerations

Given the vocal demands of baritone bass solos, specialized training is crucial. Techniques focus on:

- Strengthening lower register resonance without compromising higher range flexibility.
- Developing breath support for sustained phrases and dynamic control.
- Enhancing articulation to maintain clarity in complex musical passages.

Vocal health is paramount, as the extensive range and power required can lead to strain if not managed properly. Teachers emphasize gradual development and repertoire selection tailored to individual capabilities.

The first of baritone bass solos remains a landmark in vocal music history, embodying a rich synthesis of range, power, and expressiveness. Its influence persists, inspiring performers and composers to explore the depths and heights of the human voice in ever more compelling ways.

the first of baritone bass solos: The First Book of Baritone/bass Solos , 1991

the first of baritone bass solos: The First Book of Bariton/Bass Solos: Complete, Parts 1-3 Joan Frey Boytim, 2013-04 (Vocal Collection). We proudly present these convenient new value

packages! Each package includes over 90 songs, all at the same level of difficulty, conveniently and affordably priced for teacher reference. Each complete pack would retail for \$44.97 if components were purchased separately.

the first of baritone bass solos: The First Book of Baritone/bass Solos: L'amour de moi : 15th century. Blow, blow, thou winter wind , 1994

the first of baritone bass solos: The Second Book of Baritone/bass Solos Joan Frey Boytim, 2004 (Vocal Collection). More great classical material for progressing vocal students, from the leading American expert in teaching the young voice. The series started with The First Book of Solos , and then, at the same difficulty level, came The First Book of Solos Part II . The Second Book of Solos , originally released in 1993, is for singers who have taken voice a little longer and are capable of more challenges, but is still decidedly student-level material, and music that can be sung by good high school students. The new The Second Book of Solos Part II set is at exactly the same level as The Second Book of Solos . It shares the same features: a deliberate variety of music in different styles and languages, including a few sacred selections, with over 30 songs per book. Available as books only, or in packs with two CDs of piano accompaniments recorded by Laura Ward. Contents: All'Acquisto di Gloria (A Scarlatti) * An Chloe (Mozart) * Art Thou the Christ? (O'Hara) * Auf Dem Kirchhofe (Brahms) * Ave Maria (Luzzi) * Die Beiden Grenadiere (Schumann) * The Bird and the Beast (Dougherty) * La Chanson du Pecheur (Faure) * Le Cor (Flegier) * Heavenly Grass (Bowles) * Honor and Arms (Handel) * If You Give Me Your Attention (Sullivan) * Madrigal (Sandoval) * My Boy, You May Take It from Me (Sullivan) * My Soul is Athirst for God (Stickles) * Nel Riposo e Nel Contento (Handel) * Nocturne (Faure) * Non e Ver! (Mattei) * Obstinatation (Fontenailles) * Revenge, Timotheus Cries (Handel) * Silver (Duke) * Sleep (Gurney) * Son Tutta Duolo (A Scarlatti) * Take, o Take Those Lips Away (Quilter) * Three for Jack (Squire) * The Topsails Shiver in the Wind (Arne) * Traum Durch die Dammerung (Strauss) * Va per lo Mare (A Scarlatti) * Zueignung (Strauss)

the first of baritone bass solos: Easy Songs for the Beginning Baritone/Bass Hal Leonard Corp., 2000-08-01 (Vocal Collection). This series was designed to supplement traditional vocal instruction and works perfectly as preparatory literature for The First Book of Solos and The First Book of Solos Part II . Each piece is in English and has a limited vocal range as well as a piano accompaniment that is playable by a student pianist. The pieces include art songs, folksongs, humorous songs, and suitable vintage popular songs and are all appropriate for contest solos. The audio includes professionally-recorded accompaniments. Baritone/Bass Contents: Aura Lee (Poulton) * Beautiful Dreamer (Foster) * The Erie Canal (Folksong) * Foolish Questions (Folksong) * Funiculi, Funicula (Denza) * Go Down, Moses * I Wish I Was Single Again (Beckel) * If You Were the Only Girl in the World (Ayer) * The Jolly Miller (arr. Manney) * Joshua Fit the Battle of Jericho * The Lark in the Morn (arr. Sharp) * The Lost Chord (Sullivan) * The Minstrel Boy (arr. Weckerlin) * Mrs. Murphy's Chowder (arr. Culli) * Out of My Soul's Great Sadness (Franz) * Request (Franz) * Simple Gifts (Shaker song) * Smick, Smack, Smuck (Sousa) * Sometimes I Feel Like a Motherless Child (arr. Burleigh) * The Story of a Tack (Parks) * Swing Low, Sweet Chariot * Where Did You Get That Hat? (Sullivan) * While Strolling Through the Park One Day * You'll Miss Lots of Fun When You're Married (Sousa).

the first of baritone bass solos: *Songs for Beginning Bass Voice* Alan J. Ord, 2001-11-08 The beginning bass singer, with his range and tessitura at the bottom end of the scale of voices, has unique difficulties finding suitable vocal music, which is often very frustrating for him and his teacher. As the young or beginning bass works and waits patiently for his voice to develop, appropriate vocal literature needs to be found which is within his present range and tessitura. To address this problem, this new book lists selected songs carefully chosen from the repertoire, with annotations. Some songs, given as an illustration or example of what is appropriate, are presented in their entirety. Each of these has its own background material complete with interesting biographical information and tips on interpretation. If the song is originally in a foreign language a suitable English version is given as well. In addition, the selected entries provide full access to suitable material; annotations include composer, title, range, tessitura, tempo, meter, difficulty, source,

publisher, and pertinent comments. Also includes indexes by composer, title, and publisher.

the first of baritone bass solos: The Private Voice Studio Handbook, 2003 A nationally recognized expert in teaching private voice, Joan Boytim has compiled some of the most widely used vocal collections in the US. Her clinics about various aspects of teaching voice, literature, and running a voice studio have been attended by thousands of teachers. Now that professional wisdom has been put into a new book indispensable for independent instructors, *The Private Voice Studio Handbook*. Its chapters address, in practical detail, topics such as - starting a private voice studio; equipment and space; recruiting and accepting students; ideas for the very first lesson with a student; studio policies, guidelines and ethics; teaching music reading; recommended syllable drills and vocalises; lesson plans; practice procedures; choosing repertoire suitable to students' abilities; finding appropriate sacred solos; accounting and record-keeping; tax, insurance and retirement advice; techniques for teaching voice to children and adults; planning studio recitals; and many more. An excellent resource for college and university voice faculty.

the first of baritone bass solos: *Catalogue of Vocal Solos and Duets Arranged in Biblical Order* James Laster, Diana Reed Strommen, 2003 The second edition of *A Catalogue of Vocal Solos and Duets Arranged in Biblical Order* serves as a companion volume to *A Catalogue of Choral Music Arranged in Biblical Order* (Second edition, 1996, and supplement, 2001, both published by Scarecrow Press). It is a necessary tool for the church musician to coordinate music with the scripture readings and/or the sermon topic and a valuable aid to the vocal soloist seeking a work using a particular biblical text. The work serves as a working document for the church musician, soloist, or voice teacher. Titles are arranged in the same order as found in the Bible. Each entry contains title, composer, voice range/type, and publisher information. Two indexes are also included: a title index and a composer index.

the first of baritone bass solos: *Recorded Solo Concert Spirituals, 1916-2022*, 2023-05-08 This work catalogs commercially produced recordings of Negro spirituals composed for solo concert vocalists. More than 5,000 tracks are listed, with entries sourced from a variety of recording formats. The featured recordings enhance the study of concert spiritual performance in studio, concert, worship service or competition settings. Arranged alphabetically, entries variously identify the accompaniment--including chorus, piano, orchestra, guitar, flute, and violin--in concert spiritual recordings. The voice types of soloists are included, as is the level of dialect used by various performers. The composers, publishers and format information are also listed when available. While structured like a discography, this guide extends beyond solely providing historical context and encourages the use of the recordings themselves.

the first of baritone bass solos: *Songs for Young Singers* Arden J. Hopkin, 2001-12-20 Each year as high school solo and ensemble festivals approach, choir directors and voice teachers search for the right songs for their students to sing. There is so much music available for young developing voices, but how can an overworked teacher keep track of it all? *Songs for Young Singers*, a careful review of more than 2,000 songs printed in over 70 anthologies, has been written to address the needs of choir directors and voice teachers of junior high and high school age students. Section I lists songs by title as well as the anthologies in which they are found. Teachers wishing to explore the works of a particular composer will turn to section II, where songs are listed by composer. In section III, IV, and V, the songs are categorized by Beginning, Intermediate, and Advanced levels for Quick reference. Section VI lists the anthologies reviewed with a detailed description of the vocal demand of each song in the anthology. The songs have been evaluated on seven criteria: melodic contour (including range), phrase length, language, rhythm, accompaniment, harmonic language, and dynamics, and are listed by title, composer, and level of difficulty.

the first of baritone bass solos: *Art Song in the United States, 1759-1999* Judith E. Carman, William K. Gaeddert, Rita M. Resch, 2001-12-04 Originally created as a teaching tool, this bibliography has taken on a second life as a research tool for various facets of American art song, including, in this edition, both current and historical discography.

the first of baritone bass solos: *The Second Book of Soprano Solos*, 1994

the first of baritone bass solos: From Studio to Stage Barbara M. Doscher, 2002 The late Doscher was a singing teacher at the U. of Colorado-Boulder. This volume compiles the note cards on songs and arias that she composed in order to aid her teaching. The entries are broadly organized by type of piece, with notes on difficulty, author, keys available, ranges, tessitura, voice types, and other comments included. Five indexes allow readers to find compositions by composer, lyricist, title, range, and difficulty level. Annotation copyrighted by Book News, Inc., Portland, OR

the first of baritone bass solos: The Band Leader's Guide William H. Mackie-Beyer, 1916

the first of baritone bass solos: The Second Book of Soprano Solos Joan Frey Boytim, 2004 (Vocal Collection). More great classical material for progressing vocal students, from the leading American expert in teaching the young voice. The series started with The First Book of Solos , and then, at the same difficulty level, came The First Book of Solos Part II . The Second Book of Solos , originally released in 1993, is for singers who have taken voice a little longer and are capable of more challenges, but is still decidedly student-level material, and music that can be sung by good high school students. The new The Second Book of Solos Part II set is at exactly the same level as The Second Book of Solos . It shares the same features: a deliberate variety of music in different styles and languages, including a few sacred selections, with over 30 songs per book. Available as books only, or in packs with two CDs of piano accompaniments recorded by Laura Ward. Contents: Alleluja (Mozart) * Als Luise die Briefe Ihres Ungetreuen (Mozart) * Apres un Reve (Faure) * La Belle au Bois Dormant (Fourdrain) * The Bird (Duke) * Care Selve (Handel) * Chanson Norvegienne (Fourdrain) * Clavelitos (Valverde) * Crabbed age and Youth (Parry) * Domine Deus (Vivaldi) * The Fields are Full (Gibbs) * I Mourn as a Dove (Benedict) * Il Mio ben Quando Verra (Paisiello) * J'ai Pleure en Reve (Hue) * The Lord's Name is Praised (Greene) * Love is a Plaintive Song (Sullivan) * Mandoline (Faure) * Mausfallen-Spruchlein (Wolf) * Mondnacht (Schumann) * My Sweetheart and I (Beach) * Niemand Hat's Geseh'n (J.K.G. Loewe) * Non ti Fidar (Handel) * Quel Ruscelletto (Paradies) * Le Rossignol des Lilas (Hahn) * Sorry Her Lot Who Loves Too Well (Sullivan) * Spring (Gurney) * Standchen (Brahms) * Sure on This Shining Night (Barber) * That's Life (Sacco) * Think on These Things (Kirlin) * To ONE Who Passed Whistling Through the Night (Gibbs) * The White Peace (Bax) * Wind (Chanler)

the first of baritone bass solos: *General Catalog* Louisiana State University (Baton Rouge, La.), 1899

the first of baritone bass solos: The Second Book of Tenor Solos Hal Leonard Corp. Staff, 1994 (Vocal). Step up to the next level with more student repertoire, continuing from The First Book of Solos and The First Book of Solos Part II . The more than 30 songs in each book require a little more vocal range and musical sophistication, but are still decidedly student material.

the first of baritone bass solos: **Song Sheets to Software** Elizabeth C. Axford, 2009-03-26 The third edition of Song Sheets to Software: A Guide to Print Music, Software, Instructional Media, and Web Sites for Musicians includes information on the history of printed music and publishing and copyright laws, as well as completely revised and updated listings of music software and other instructional media, web sites for musicians, and technical terms. In addition, Elizabeth C. Axford provides new information on instructional DVDs, book and audio CD sets, and music software programs for teaching everything from children's music to high-end professional recording. The book is divided into 16 chapters by subject matter, such as Music Appreciation; Guitar and Bass; Country, Folk, and Traditional; and Vocal, Choral, Opera, and Musical Theater, offering both related software titles and web sites for each topic. New to the third edition is a CD-ROM supplying Live Links to the sites discussed, as well as an expanded and easily searchable Tech Talk and sample print music scores. The third edition also includes sections on digital sheet music, digital online collections of historical sheet music, video game music, and an updated bibliography. These updates and revisions make this the most complete resource of its kind available.
