Obviously, the summaries have been documented on my blog since 2016, and seemingly, in my opinion, it is better bundled in a book form since the statistic views show that the classic fictions are those among most read, so I rose to comply with that demand. The purpose for which I devote myself to compose 85 summaries is to provide quick reading for novel readers and students. Numerous genres are presented because I am quite conscious those will bequeath you an imaginative horizon. As a work of art, many of them transcend their expiatory aspects. And still more important to us than scientific significance and literary worth is the inspirational impact those novels have on serious readers. Finally, happy reading and I hope you will find this book useful.

the city of mirrors cronin: Anti/Vax Bernice L. Hausman, 2019-04-15 In Anti/Vax, Bernice Hausman challenges the widespread perception of vaccine skepticism shaped by media, celebrities, and internet misinformation. She explores other motivations behind vaccine hesitancy, including distrust of pharmaceutical companies and the belief that illness plays a role in good health. Seeking to reframe the conversation, she shows that when resistance to vaccination is portrayed as scientific

illiteracy, denial of scientific facts, or simply as irrational, we lose opportunities to understand many people's real concerns. Anti/Vax reveals that resistance to vaccination consolidates a number of cultural issues—from critiques of medicalization to concerns about government overreach—and raises questions about public health norms. Researched and published before the Covid-19 pandemic, Hausman's rich exploration of the cultural themes animating vaccine skepticism continues to illuminate controversies over vaccination today.

the city of mirrors cronin: Make a Scene Revised and Expanded Edition Jordan Rosenfeld, 2017-07-19 The definitive guide to writing scenes--now revised and expanded! Scenes are the building blocks for any work of fiction--the DNA sequence that makes a novel un-put-downable and unforgettable. When writers are able to craft effective, engaging scenes, they can develop a complete, cohesive story--and a mesmerizing experience for readers. *Make a Scene Revised and Expanded Edition* takes you step-by-step through the elements of strong scene construction and demonstrates how the essential aspects of a compelling story--including character, plot and dramatic tension--function within the framework of individual scenes to give momentum to the whole narrative. You'll learn how to:

- Craft an opening scene that hooks readers and foreshadows conflict.
- Develop various scene types--from contemplative to suspenseful to flashback--that are distinct and purposeful.
- Establish characters' intentions within a scene that drive the plot.
- Transition into new scenes by clearly establishing details of setting, character, and point of view.
- Create resonating climactic and final scenes that stay with readers long after they've finished your story.

The revised and expanded edition includes brand-new examples, an increased focus on advancing plot and character development, and the same knowledge and clarity that writers have come to expect from Jordan Rosenfeld. *Make a Scene* is an essential part of any novelist's library--make sure it's in yours.
