It is necessary to understand the environment, inter-organizational relationships, and documents holistically to observe the rich history, pluralistic American societal issues, and relevant milestones between corporate America and higher education. Partnership Motives and Ethics in Corporate Investment in Higher Education provides comprehensive documentation of business and corporate entanglements with higher education. This work discusses the historic journey of funding from business and U.S. corporate engagement in American higher education. Covering topics such as academy-business relationships, philanthropic partnerships, and transactional partnerships, this work is essential for professors, executives, managers, faculty, fundraisers, leaders in higher education, researchers, students, and academicians with interests in CSR, business ethics, and

devoe school of business: *Christianity in India* Rebecca Samuel Shah, Joel Carpenter, 2018-11-08 Christianity has been present in India since at least the third century, but the faith remains a small minority. Even so, Christianity is growing rapidly in parts of the subcontinent, and has made an impact far beyond its numbers. Yet Indian Christianity remains highly controversial, and it has suffered growing discrimination and violence. This book shows how Christian converts and communities continue to make contributions to Indian society, even amid social pressure and violent persecution. In a time of controversy in India about the legitimacy of conversion and the value of religious diversity, Christianity in India addresses the complex issues of faith, identity, caste, and culture. It documents the outsized role of Christians in promoting human rights, providing education and healthcare, fighting injustice and exploitation, and stimulating economic uplift for the poor. Readers will come away surprised and sobered to learn how these active initiatives often invite persecution today. The essays draw on intimate and personal encounters with Christians in India, past and present, and address the challenges of religious freedom in contemporary India.

devoe school of business: Curveball Dr. Lonnie J Clinkscale, 2025-03-04 Life unfolds much like a baseball season—beginning with the spring of youthful exuberance, progressing through the summer grind marked by streaks and slumps, and concluding with an autumn of sober reflection. Today, author Dr. Lonnie Clinkscale stands as a successful, content man—a devoted husband and father, and a top administrator for a large urban hospital system in the southern United States. However, this present-day reality starkly contrasts with the author's beginnings. In baseball terms, Clinkscale was born with two strikes against him. He was the fifth of six children and a member of the Black urban poor in gritty Youngstown, Ohio, during the mid-1960s. His home life was fraught with challenges, including an abusive alcoholic father, and Lonnie struggled with learning disabilities that made him appear intellectually slow and uncommunicative. From his grandfather, Lonnie absorbed the wisdom of baseball, while a streetside ministry called the Needle's Eye instilled in him a deep love for God. Built on these foundations, Clinkscale embarked on a slow, arduous, and improbable journey toward personal and professional success. This journey was far from linear; like a baseball season, it twisted and turned, shaped by the unexpected challenges that every life encounters. A life devoid of surprises would be as unremarkable as baseball without its curveballs. The secret lies in managing these surprises in ways that foster growth and compassion, ultimately shaping one into a leader who serves others—a servant leader.
