dialogues argument rhetoric reader 7th edition: *(Re)presentations and Dialogue* François Cooren, Alain Létourneau, 2012 This edited volume proposes key contributions addressing the connections between two important themes: dialogue and representation. These connections were approached or interpreted in three possible ways: 1. Dialogue as representation, 2. Normative perspectives on dialogue/representation issues, and 3. Representations of dialogue. The first interpretation -- Dialogue as representation -- consists of exploring dialogue as an activity where many things, beings or voices can be made present, whether we think in terms of ideologies, cultures, situations, collectives, roles, etc. The second interpretation □ Normative perspectives on dialogue/representation issues □ leads scholars to explore questions of normativity, which are often associated with the notion of dialogue, when conceived as a morally stronger form of conversation. Finally, the third interpretation □ Representations of dialogue □ invites us to address methodological questions related to the representation of this type of conversation. Echoing Bakhtin, contributors were invited to explore the polyphonic, heteroglot, or dialogic character of any text, discourse or interaction.

dialogues argument rhetoric reader 7th edition: Debating Women Carly S. Woods, 2018-10-01 Spanning a historical period that begins with women's exclusion from university debates and continues through their participation in coeducational intercollegiate competitions, *Debating Women* highlights the crucial role that debating organizations played as women sought to access the fruits of higher education in the United States and United Kingdom. Despite various obstacles, women transformed forests, parlors, dining rooms, ocean liners, classrooms, auditoriums, and prisons into vibrant spaces for ritual argument. There, they not only learned to speak eloquently and argue persuasively but also used debate to establish a legacy, explore difference, engage in intercultural encounter, and articulate themselves as citizens. These debaters engaged with the issues of the day, often performing, questioning, and occasionally refining norms of gender, race, class, and nation. In tracing their involvement in an activity at the heart of civic culture, Woods demonstrates that debating women have much to teach us about the ongoing potential for debate to move arguments, ideas, and people to new spaces.
