EXTRAIT: Il n'y a pas grand monde aujourd'hui : il fait gris. Les gens passent près de moi sans s'arrêter. La plupart m'ignorent ou prennent l'air effrayé en lisant « SÉANCE D'HYPNOSE GRATUITE ». Au bout d'un moment, à force de m'ennuyer, je me lance un nouveau défi : interagir avec chaque personne qui passe. Même s'ils m'ignorent dans un premier temps, l'étrangeté de mes actions attire leur attention. Il ne manque plus qu'à la retenir ! Pour ce faire, je les regarde droit dans les yeux, désigne ma pancarte du regard en ouvrant mes paupières en grand, puis je fais mine d'être hypnotisé et de m'endormir avant de claquer des doigts pour « me réveiller ». Les passants sont amusés par ce mime, mais ne s'arrêtent toujours pas. J'ai tout le même droit à des sourires maintenant, ce qui est toujours mieux que les expressions colériques que j'ai pu surprendre chez certain(e)s. On aurait pu croire que je les menaçais avec un panneau où serait inscrit « SÉANCE DE VIOLENCE GRATUITE ». Heureusement, un couple avec un enfant ralentit en voyant mon panneau. Ils se consultent un instant et reviennent bientôt vers moi. Dernier volet de la trilogie, ce livre est un journal de bord didactique destiné à tous ceux qui veulent en savoir plus sur la pratique concrète de l'hypnose. L'hypnotiseur Samy Boudeliou, alias « Samy Pnotease » a relevé le défi incroyable d'hypnotiser chaque jour une personne différente. Non pas dans le cadre sécurisant d'un cabinet, ni sur une scène, mais dans la rue. Une approche fine de l'hypnose dans les conditions extrêmes et imprévisibles de la rue. Ancien professeur de français, Samy Boudeliou découvre l'Hypnose en cherchant un moyen de capter l'attention des collégiens. Il découvre par la même occasion l'œuvre de Milton H. Erickson et « l'Hypnose conversationnelle ». Après avoir quitté son emploi pour se consacrer entièrement à sa passion, Samy Boudeliou cofonde le groupe Hypnose 2 rue Bordeaux en 2012. Depuis, il transmet son savoir-faire lors de soirées de découverte de l'Hypnose et de sorties hypnotiques dans les rues de Bordeaux. Cet autodidacte nous livre ici les fruits de ses recherches continues et de sa pratique quotidienne sur le terrain.

anthony jacquin hypnosis training: *MODERN HYPNOSIS TECHNIQUES. Advanced Hypnosis and Self Hypnosis* Tony Gaschler, 2018-06-25 Visualize how you are hypnotizing a person who then with great relish devours yummy apples although they are actually potatoes. Or your subject is convinced that the color YELLOW is actual called RED. You can be assured of an astonished audience admiring your new abilities and skills. As a byproduct, the hypnotizer slowly becomes aware of his or her private and professional success and the associated limitless confidence and self-efficacy that the new and powerful abilities generate. He or she is admired and held in high esteem - life is good. With the self-help method MODERN HYPNOSIS TECHNIQUE, Tony Gaschler has combined only tried and proven hypnosis techniques used in many highly interesting hypnosis

experiments into a method. You will learn about modern hypnosis techniques and methods as they are practiced around the globe today – no prior knowledge is required – you will learn everything you need to know to be able to hypnotize others successfully, and you will learn this in a systematic and gradual manner. After many years of research and based on the successes of numerous hypnosis techniques from the world over, the specialized author and hypnosis expert Tony Gaschler developed this unique easy method leading to quick success. You learn SELF-HYPNOSIS that can serve to improve your life in so many ways: to eliminate bothersome habits and characteristics such as nervousness, listlessness, lack of energy, lack of drive, smoking, excessive weight, tensions, etc. and even some emotional inhibitions. You will also learn ADVANCED SELF-HYPNOSIS techniques used, among others, to increase performance, eliminate pain, or influence others. These advanced techniques are practiced by athletes, politicians, traditional healers, and on radio, TV, at events, etc. Nonmedical practitioners and physicians can also benefit from the Modern Hypnosis Technique. Of course, you can also use your acquired skills to astonish and surprise your family, friends, and acquaintances as the excerpts from the following three experiments shows: An EXPERIMENT with FALSE MEMORY: Hand the test subject a piece of paper listing a very long number. For example, something similar to this: 164839244312673, 778241983711893. Tell the subject: Please read and memorize this number. Once I take the piece of paper away after a few seconds, you will have memorized the entire number and can write it down. Then take the piece of paper away from the test subject and say: And now you are able to write down the entire number without errors just from memory. Remember: Each suggestion must be canceled by a counter-suggestion. An EXPERIMENT with FALSE PERCEPTION: Tell the VP the following while handing him or her a peeled onion: I am giving you here a nice, juicy apple! Eat it, you will love its taste and it's good for you! The subject will think of the onion as an apple and actually eat it like an apple. A counter-suggestion is here not required since no effect continues after the action has been completed. An EXPERIMENT with POST-HYPNOSIS: You can also use a subject and post-hypnosis, an action that is to be carried out at a later time. Example: Call me at 8 in the evening to tell me that you cannot visit me tomorrow. When I ask you why you cannot come, you tell me you don't have time! Remember: All these experiments must have a clearly defined effective start and end of a suggestion. Never allow an effect to continue after the hypnosis without first canceling with a counter-suggestion. The listed experiments were just a small excerpt from the many possible hypnosis techniques. Moreover, you can also use your own creative ideas to develop and carry out new and interesting experiments. The number of fantastic possibilities is endless once you have learned the methods provided by the Modern Hypnosis Technique instructions.

His therapy skills are equal if not greater than the majority of therapists I have met to date and he teaches everything he knows in an open and honest manner. We need people like Royle to raise the profile of Hypnosis and I would recommend his courses to anyone who wants to become a better Hypnotist!" Dr. WILF ARCHER - PhD - www.mindskills.co.uk "A few years ago I attended a training run by Paul McKenna, Michael Breen and Richard Bandler, it was good and I learned a lot but Jonathan Royle 's training course make's them seem like old nannies! There is absolutely no time wasting or useless information and Royle's unique manner of teaching makes everything very easy to learn and remember. This course is without doubt money well spent!" FRANK LEA - www.hypnotherapycoventry.net "The course contains much unique material, which as far as I know is not taught anywhere else and will certainly make you a better Hypnotist and Therapist, especially when presenting any public demonstrations!" DAVID BOTSFORD - www.stopsmokingsolutions.co.uk "Having previously done a more conventional "approved" NLP course which took many days and cost lots of money, I would have said it was impossible to learn NLP in just two days! However after attending Royle's course I can honestly say that this is exactly what he does and he also teaches you what you need to know about clinical Hypnosis and his own approach of Complete Mind Therapy, in short this course is a worthwhile investment!" DEZ SELLARS - www.completemindtherapy.com Indeed many of Royle's Students have stated that this book teaches more of use in the real world of Hypnotherapy and Stage Hypnosis than all of the others on the market put together!
