going to meet the man baldwin: **James Baldwin and the Short Story** Benedict Ushedo, 2018-03-21 This book examines the range of issues that echo in James Baldwin's short stories. It articulates and defends the claim that the stories in the collection *Going to Meet the Man* are driven by the autobiographical memory of the author. To support this line of thought and the related proposition that the stories feed into themes relevant to self-knowledge, vicarious suffering, love, and forgiveness, their effectiveness as transformative and revelatory texts is highlighted. By drawing on contemporary studies and challenging the view that short stories are no more than miniature pieces merely echoing major works of their authors, this book demonstrates that the short story genre can be profoundly forceful and effective in the articulation of complex human issues. This study shows also that the humanistic import of the Baldwin stories is amplified by their ability to accumulate moral tension as they elicit the participation of the reader in an imaginative quest for a better world.

going to meet the man baldwin: The Cambridge Companion to James Baldwin Michele Elam, 2015-04-20 This Companion offers fresh insight into the art and politics of James Baldwin, one of the most important writers and provocative cultural critics of the twentieth century. Black, gay, and gifted, he was hailed as a spokesman for the race, although he personally, and controversially, eschewed titles and classifications of all kinds. Individual essays examine his classic novels and nonfiction as well as his work across lesser-examined domains: poetry, music, theatre, sermon, photo-text, children's literature, public media, comedy, and artistic collaboration. In doing so, *The Cambridge Companion to James Baldwin* captures the power and influence of his work during the civil rights era as well as his relevance in the post-race transnational twenty-first century, when his prescient questioning of the boundaries of race, sex, love, leadership, and country assume new urgency.

going to meet the man baldwin: Brutes in Suits John Pettegrew, 2007-07-16 Publisher description

going to meet the man baldwin: James Baldwin A. Scott Henderson, Paul Lee Thomas, 2014-05-05 The recognition and study of African American (AA) artists and public intellectuals often include Martin Luther King, Jr., and occasionally Booker T. Washington, W.E.B. DuBois, and Malcolm X. The literary canon also adds Ralph Ellison, Richard White, Langston Hughes, and others such as female writers Zora Neale Hurston, Maya Angelou, and Alice Walker. Yet, the acknowledgement of AA artists and public intellectuals tends to skew the voices and works of those included toward normalized portrayals that fit well within foundational aspects of the American myths reflected in and perpetuated by traditional schooling. Further, while many AA artists and public intellectuals are distorted by mainstream media, public and political characterizations, and the curriculum, several powerful AA voices are simply omitted, ignored, including James Baldwin. This edited volume gathers a collection of essays from a wide range of perspectives that confront Baldwin's impressive and challenging canon as well as his role as a public intellectual. Contributors also explore Baldwin as a confrontational voice during his life and as an enduring call for justice.

going to meet the man baldwin: James Baldwin and the Queer Imagination Matt Brim, 2023-06-20 The central figure in black gay literary history, James Baldwin has become a familiar touchstone for queer scholarship in the academy. Matt Brim's *James Baldwin and the Queer Imagination* draws on the contributions of queer theory and black queer studies to critically engage with and complicate the project of queering Baldwin and his work. Brim argues that Baldwin animates and, in contrast, disrupts both the black gay literary tradition and the queer theoretical enterprise that have claimed him. More paradoxically, even as Baldwin's fiction brilliantly succeeds in imagining queer intersections of race and sexuality, it simultaneously exhibits striking queer failures, whether exploiting gay love or erasing black lesbian desire. Brim thus argues that Baldwin's work is deeply marked by ruptures of the "unqueer" into transcendent queer thought—and that readers must sustain rather than override this paradoxical dynamic within acts of queer imagination.

going to meet the man baldwin: Unburied Bodies James R. Martel, 2018-11-16 The human body is the locus of meaning, personhood, and our sense of the possibility of sanctity. The desecration of the human corpse is a matter of universal revulsion, taboo in virtually all human cultures. Not least for this reason, the unburied corpse quickly becomes a focal point of political salience, on the one hand seeming to express the contempt of state power toward the basic claims of human dignity—while on the other hand simultaneously bringing into question the very legitimacy of that power. In *Unburied Bodies: Subversive Corpses and the Authority of the Dead*, James Martel surveys the power of the body left unburied to motivate resistance, to bring forth a radically new form of agency, and to undercut the authority claims made by state power. Ranging across time and space from the battlefields of ancient Thebes to the streets of Ferguson, Missouri, and taking in perspectives from such writers as Sophocles, Machiavelli, Walter Benjamin, Hannah Arendt, James Baldwin, Judith Butler, Thomas Lacqueur, and Bonnie Honig, Martel asks why the presence of the abandoned corpse can be seen by both authorities and protesters as a source of power, and how those who have been abandoned or marginalized by structures of authority can find in a lifeless body fellow accomplices in their aspirations for dignity and humanity.

Focusing on Baldwin's critically undervalued early works and the virtually neglected later ones, the contributors illuminate little-known aspects of this daring author's work and highlight his accomplishments as an experimental writer. Attentive to his innovations in style and form, *Things Not Seen* reveals an author who continually challenged cultural norms and tackled matters of social justice, sexuality, and racial identity. As volume editor D. Quentin Miller notes, what has been lost is a complete portrait of [Baldwin's] tremendously rich intellectual journey that illustrates the direction of African-American thought and culture in the late twentieth century. This is an important book for anyone interested in Baldwin's work. It will engage readers interested in literature and African-American Studies. Author note: D. going to meet the man baldwin: Lockstep and Dance Linda G. Tucker, 2009-09-18 *Lockstep and Dance: Images of Black Men in Popular Culture* examines popular culture's reliance on long-standing stereotypes of black men as animalistic, hypersexual, dangerous criminals, whose bodies, dress, actions, attitudes, and language both repel and attract white audiences. Author Linda G. Tucker studies this trope in the images of well-known African American men in four cultural venues: contemporary literature, black-focused films, sports commentary, and rap music. Through rigorous analysis, the book argues that American popular culture's representations of black men preserve racial hierarchies that imprison blacks both intellectually and physically. Of equal importance are the ways in which black men battle against, respond to, and become implicated in the production and circulation of these images. Tucker cites examples ranging from Michael Jordan's underwear commercials and the popular Barbershop movies to the career of rapper Tupac Shakur and John Edgar Wideman's memoir *Brothers and Keepers*. *Lockstep and Dance* tracks the continuity

between historical images of African American men, the peculiar constitution of whites' anxieties about black men, and black men's tolerance of and resistance to the reproduction of such images. The legacy of these stereotypes is still apparent in contemporary advertising, film, music, and professional basketball. Lockstep and Dance argues persuasively that these cultural images reinforce the idea of black men as prisoners of American justice and of their own minds but also shows how black men struggle against this imprisonment.

going to meet the man baldwin: *Leading with the Chin* Brad Congdon, 2018-01-01 *Leading with the Chin* focuses on the Esquire writings of James Baldwin, Truman Capote, Raymond Carver, Don DeLillo, Norman Mailer, and Tim O'Brien to examine how these authors negotiated important shifts in American masculinity. Using the works of these six authors as case studies, *Leading with the Chin* argues that Esquire permitted writers to confront national fantasies of American masculinity as they were impacted by the rise of neoliberalism, civil rights and gay rights, and the cultural dominance of the professional-managerial class. Applying the methodologies of periodical studies and the theoretical concerns of masculinity studies, this book recontextualizes the prose and fiction of these authors by analyzing them in the material context of the magazine. Relating each author's articulation of masculinity to the advertisements, editorials, and articles published in each issue, *Leading with the Chin* shows that Esquire reflected and helped to shape the forces that structured American masculinity in the twentieth century.

going to meet the man baldwin: *James Baldwin's Turkish Decade* Magdalena J. Zaborowska, 2009-01-16 Between 1961 and 1971 James Baldwin spent extended periods of time in Turkey, where he worked on some of his most important books. In this first in-depth exploration of Baldwin's "Turkish decade," Magdalena J. Zaborowska reveals the significant role that Turkish locales, cultures, and friends played in Baldwin's life and thought. Turkey was a nurturing space for the author, who by 1961 had spent nearly ten years in France and Western Europe and failed to reestablish permanent residency in the United States. Zaborowska demonstrates how Baldwin's Turkish sojourns enabled him to re-imagine himself as a black queer writer and to revise his views of American identity and U.S. race relations as the 1960s drew to a close. Following Baldwin's footsteps through Istanbul, Ankara, and Bodrum, Zaborowska presents many never published photographs, new information from Turkish archives, and original interviews with Turkish artists and intellectuals who knew Baldwin and collaborated with him on a play that he directed in 1969. She analyzes the effect of his experiences on his novel *Another Country* (1962) and on two volumes of his essays, *The Fire Next Time* (1963) and *No Name in the Street* (1972), and she explains how Baldwin's time in Turkey informed his ambivalent relationship to New York, his responses to the American South, and his decision to settle in southern France. *James Baldwin's Turkish Decade* expands the knowledge of Baldwin's role as a transnational African American intellectual, casts new light on his later works, and suggests ways of reassessing his earlier writing in relation to ideas of exile and migration.
