The Allure of Herb Gardens: More Than Just Plants

Herb gardens have long been cherished for their versatility and accessibility. Unlike sprawling vegetable patches, herb gardens can flourish in small spaces – from kitchen windowsills to backyard plots. What makes herb gardens particularly captivating is their multifaceted nature: they are sources of flavor, medicine, and cultural heritage.

Why Cultivate an Herb Garden?

Growing your own herb garden offers numerous benefits. Fresh herbs like basil, rosemary, thyme, and mint enhance cooking with vibrant flavors and aromas. Additionally, many herbs possess medicinal properties that have been harnessed for centuries. Lavender, chamomile, and echinacea, for example, are staples in natural remedies.

Incorporating herbs into daily life also fosters mindfulness and a deeper connection with the environment. Caring for plants encourages patience, observation, and an appreciation for seasonal cycles – themes often highlighted in herbal folklore.

of Art, Recipes, and Folklore

The 2017 herb gardens wall calendar was more than a date tracker. Each month featured stunning botanical illustrations, detailed growing tips, and carefully curated herbal recipes. But what truly set it apart was the inclusion of herbal folklore – stories and traditions passed down through generations that explain the cultural significance of each herb.

Monthly Themes and Seasonal Guidance

The calendar was thoughtfully divided by seasons, aligning planting advice and recipes with the natural growth cycles of herbs. For example:

- **Spring:** Focus on sowing seeds for basil, parsley, and cilantro, accompanied by light, fresh recipes such as herb-infused vinaigrettes.
- **Summer:** Tips on harvesting and drying herbs like oregano and thyme, along with recipes for refreshing herbal iced teas.
- **Autumn:** Guidance on preserving herbs for winter use, plus hearty dishes incorporating sage and rosemary.
- **Winter:** Insights into indoor herb gardening and warming recipes featuring cinnamon and ginger.

This cyclical approach mirrored the traditional wisdom found in herbal folklore, which often emphasizes harmony with nature's rhythms.

Recipes Rooted in Tradition

The recipes included in the 2017 wall calendar were carefully selected to showcase herbs in authentic and innovative ways. From simple herbal teas to complex spice blends, these recipes encourage experimenting with flavors while honoring cultural origins.

For example, the use of elderflower in cordial recipes reflects European folk traditions, where it was believed to bring protection and health. Similarly, the inclusion of mint in Middle Eastern dishes connects culinary practice with centuries-old herbal uses.

Unveiling Herbal Folklore

Herbal folklore is a treasure trove of stories that explain why certain herbs were considered magical, medicinal, or symbolic. The calendar featured tales such as:

- *Lavender's association with calm and protection:* Ancient Egyptians used lavender in mummification and as a perfume to ward off evil spirits.
- *Rosemary as a symbol of remembrance:* In Shakespeare's plays and traditional weddings, rosemary was used to encourage fidelity and memory.
- *Dill's protective qualities:* In some cultures, dill was hung in homes to keep away witches and bring prosperity.

herb gardens 2017 wall calendar recipes herbal folklore: A Garden of Herbs Eleanour Sinclair Rohde, 2008-11 A Garden of Herbs by Eleanour Sinclair Rohde. This book is primarily intended for those who are going to create an old fashioned herb garden, and who want to know how to use these herbs as our great grandmothers did: but even if you buy your herbs at the store, this practical handbook will show you how to make hundreds of teas, syrups, conserves, pies, candied flowers and leaves, wines, sweet waters and perfumes from well known wild and garden herbs that are readily available. Most of the recipes are taken from old English herbals (Gerard's herbal, John Evelyn's *Acetaria*, Coles *Art of Simpling* and many others) and the author one of the two or three most outstanding herbalists of this century adds many more of her own. Miss Rohde first provides a brief historical description of the herb garden, discussing some of the major books on herbs that have been written in England since the Anglo-Saxon Bald's leech book. Then in a long chapter entitled *Sundry of herbs* she lists the common herbs in alphabetical order, giving descriptions, recipes, hints on preservation, etc, for each one. There are recipes in this chapter for such dishes as artichoke pie, chervil broth, pickled cow slips, dill pickles, marigold pudding, nettle spinach, sauce

eglantine (from roses), tarragon vinegar, violet cakes and wormwood brandy. There is an entire chapter on salads made with all kinds of herbs, which includes recipes for vinegar and mustard. The chapters cover herb pottages and puddings, drinks and homemade wines (from mint, currants, lemons, dandelions, blackberries, sage, apples, gooseberries, apricots, turnips, etc) and some additional recipes- almond milk, beet-root biscuits, parsnip cakes, potato pie, and many more unusual herb foods. A practical chapter on the picking and drying of herbs and a final chapter on the use of herbs for scents (in pomanders, ointments, bath waters, eau de cologne and other perfumes) complete the volume. Miss Rohde's charming presentation and the ease with which her herbal lends itself to hours of browsing, will make this book a source of delight for anyone interested in plants or their lore.

herb gardens 2017 wall calendar recipes herbal folklore: Early American Herb Recipes Alice Cooke Brown, 2012-03-08 For early American households, the herb garden was an all-purpose medicine chest. Herbs were used to treat apoplexy (lily of the valley), asthma (burdock, horehound), boils (onion), tuberculosis (chickweed, coltsfoot), palpitations (saffron, valerian), jaundice (speedwell, nettles, toad flax), toothache (dittander), hemorrhage (yarrow), hypochondria (mustard, viper grass), wrinkles (cowslip juice), cancers (bean-leaf juice), and various other ailments. But herbs were used for a host of other purposes as well — and in this fascinating book, readers will find a wealth of information on the uses of herbs by homemakers of the past, including more than 500 authentic recipes, given exactly as they appeared in their original sources. Selected from such early American cookbook classics as Miss Leslie's Directions for Cookery, Mary Randolph's The Virginia Housewife, Lydia Child's The American Frugal Housewife, and other rare publications, the recipes cover the use of herbs for medicinal, culinary, cosmetic, and other purposes. Readers will discover not only how herbs were used in making vegetable and meat dishes, gravies and sauces, cakes, pies, soups, and beverages, but also how our ancestors employed them in making dyes, furniture polish, insecticides, spot removers, perfumes, hair tonics, soaps, tooth powders, and numerous other products. While some formulas are completely fantastic, others (such as a sunburn ointment made from hog's lard and elder flowers) were based on long experience and produced excellent results. More than 100 fine nineteenth-century engravings of herbs add to the charm of this enchanting

volume — an invaluable reference and guide for plant lovers and herb enthusiasts that will delight and astound the twentieth-century reader. (Library Journal).
