

intoxicated by my illness

****Intoxicated by My Illness: Exploring the Depths of Chronic Struggle and Resilience****

intoxicated by my illness—these words evoke a powerful image of being overwhelmed, consumed, and deeply affected by a chronic condition. Living with a persistent illness can sometimes feel like an intoxicating experience, not in the celebratory sense, but in an all-encompassing way that affects every facet of life. This phrase captures the paradox of chronic illness: the way it can dominate your existence while simultaneously pushing you to discover resilience, strength, and sometimes even unexpected beauty.

In this article, we'll explore what it means to feel intoxicated by illness, how people cope with chronic conditions, and the psychological and emotional dimensions that often accompany such experiences. Whether you're someone living with a chronic illness or a loved one trying to better understand the journey, this discussion aims to provide insight and practical perspectives.

Understanding the Feeling of Being Intoxicated by Illness

The sensation of being intoxicated by illness is not about physical intoxication but rather a metaphorical state where the illness takes over one's mental, emotional, and physical landscape. When a chronic condition becomes the focal point of daily life, it can feel like it clouds your thoughts, impairs your sense of normalcy, and distorts your perception of self.

The Psychological Impact

Chronic illnesses such as autoimmune diseases, fibromyalgia, or chronic fatigue syndrome often bring about a significant psychological toll. The unpredictability of symptoms, persistent pain, or fatigue can lead to anxiety, depression, and a sense of isolation. Being "intoxicated" by illness in this context means that your mind is constantly preoccupied with managing symptoms and anticipating flare-ups, which can hinder mental clarity and emotional well-being.

Research shows that the brain's response to chronic pain or discomfort involves complex neurological pathways that can affect mood and cognition. It's not uncommon for individuals to describe their experience as a fog or haze that dulls their ability to think clearly—a mental intoxication that parallels the physical symptoms.

Social and Lifestyle Changes

Another dimension of being intoxicated by illness is the impact on social life and daily activities. Chronic illness often requires lifestyle adjustments, from diet and exercise to work and social interactions. The constant need to manage symptoms can feel overwhelming, leading to withdrawal from social circles and a loss of previous hobbies or passions.

This social isolation can deepen the emotional impact, making the illness a more dominant force in one's life. Understanding this dynamic is crucial for both patients and caregivers to foster empathy and develop supportive environments.

Living with the Intoxication: Coping Mechanisms and Strategies

While the phrase intoxicated by my illness suggests a loss of control, many find ways to regain agency and improve their quality of life despite chronic challenges. Coping strategies can be both practical and emotional and are essential for managing the ongoing impact of illness.

Mindfulness and Acceptance

One effective approach is practicing mindfulness and acceptance. Instead of fighting against the illness or feeling defeated by it, mindfulness encourages living in the present moment and acknowledging feelings without judgment. This can reduce the mental fog and emotional turmoil associated with being overwhelmed by illness.

Acceptance and Commitment Therapy (ACT) is a therapeutic method that helps individuals focus on values and meaningful activities while accepting the reality of their condition. This shift in mindset can lessen the feeling of being “intoxicated” by pain or discomfort and promote psychological flexibility.

Building a Support Network

Another key to navigating life while intoxicated by chronic illness is building a strong support network. This can include healthcare professionals, family, friends, and others who understand the unique challenges faced. Support groups—whether in person or online—offer a space to share experiences, advice, and encouragement.

Feeling connected helps combat isolation and provides practical tips for managing symptoms. It also reminds individuals that they are not alone in their journey, which can be a powerful antidote to the overwhelming nature of chronic illness.

Practical Lifestyle Adjustments

Adjusting daily routines to accommodate health needs is crucial. This might involve:

- Prioritizing rest and pacing activities to avoid flare-ups
- Adopting anti-inflammatory or specialized diets that reduce symptoms

- Incorporating gentle exercise like yoga or swimming to maintain mobility
- Using medication or alternative therapies as prescribed or advised
- Creating a comfortable living environment with tools to ease daily tasks

These practical steps can help reduce the sense of being overwhelmed by physical symptoms and improve overall well-being.

Expressing the Experience: The Role of Art and Writing

Many who feel intoxicated by their illness turn to creative outlets to express their complex emotions. Writing, painting, music, and other art forms can serve as therapeutic tools, helping to process pain, frustration, and hope.

Writing as Therapy

Journaling about the daily experiences of living with illness can clarify thoughts, provide emotional release, and track progress or setbacks. Some find comfort in poetry or storytelling that captures the nuanced reality of chronic illness, helping to communicate feelings that are hard to express otherwise.

Artistic Expression and Healing

Visual arts offer a non-verbal way to explore the impact of illness on identity and life. Art therapy has been shown to reduce stress and improve mood, providing a sense of accomplishment and self-understanding.

Engaging in creative activities can break the cycle of mental intoxication by illness, providing moments of joy and distraction that foster resilience.

Reframing the Narrative: Finding Strength Amidst Struggle

Though the phrase intoxicated by my illness might initially sound despairing, many people living with chronic conditions find ways to reframe their experience. Instead of seeing illness solely as a limitation, it becomes part of a broader narrative of survival, growth, and self-discovery.

This reframing doesn't minimize the difficulties but acknowledges the complexity of living with chronic health issues. Embracing vulnerability and seeking meaning can transform the intoxicating grip of

illness into a catalyst for deeper empathy and personal strength.

The Power of Storytelling

Sharing stories—whether through blogs, memoirs, or conversations—empowers individuals to reclaim their voice and advocate for awareness. This storytelling fosters community and educates others about the realities of chronic illness beyond stereotypes and misconceptions.

Personal Growth and Resilience

Many report that managing chronic illness teaches patience, adaptability, and a deeper appreciation for small victories. These qualities often extend into other areas of life, enriching relationships and personal fulfillment despite ongoing health challenges.

Living intoxicated by my illness is indeed a profound experience—one that encompasses hardship but also immense human spirit. Through understanding, support, and self-expression, it is possible to navigate this complex journey with courage and grace.

Frequently Asked Questions

What is the meaning behind the song 'Intoxicated by My Illness' by Kesha?

The song 'Intoxicated by My Illness' by Kesha explores themes of vulnerability, pain, and the complex emotions associated with personal struggles and mental health challenges.

Who wrote 'Intoxicated by My Illness' and what inspired it?

Kesha co-wrote 'Intoxicated by My Illness,' drawing inspiration from her own experiences with physical and emotional hardship, reflecting on how illness can affect one's identity and emotions.

What genre does 'Intoxicated by My Illness' belong to?

The song falls under the pop genre with elements of indie and alternative influences, showcasing a raw and introspective style.

How has 'Intoxicated by My Illness' been received by critics?

Critics have praised 'Intoxicated by My Illness' for its honest lyrics, emotional depth, and Kesha's vocal performance, highlighting it as a standout track for its candid exploration of personal pain.

Are there any notable live performances of 'Intoxicated by My Illness'?

Yes, Kesha has performed 'Intoxicated by My Illness' live at select concerts and events, where the raw emotion of the song resonates strongly with audiences.

How does 'Intoxicated by My Illness' relate to Kesha's overall musical journey?

This song represents a more vulnerable and mature side of Kesha's artistry, marking her evolution from upbeat pop anthems to deeper, more introspective songwriting that addresses real-life struggles.

Intoxicated by My Illness: A Deep Dive into the Poignant Narrative of Chronic Struggle

intoxicated by my illness is a phrase that poignantly captures the complex and often paradoxical relationship individuals develop with chronic disease. It conveys not only the overwhelming impact illness can have on one's life but also the intricate ways in which suffering can shape identity and perspective. This expression has permeated various forms of literary and artistic discourse, most notably in narratives surrounding chronic pain and debilitating conditions. Exploring the layers of meaning behind being "intoxicated" by illness offers valuable insight into patient experiences, psychological responses, and the broader cultural context of chronic health struggles.

Understanding the Concept of Being “Intoxicated by My Illness”

At first glance, the phrase may seem contradictory. Illness typically denotes discomfort, limitation, and distress, whereas intoxication suggests a state of euphoria or altered consciousness. However, when framed metaphorically, being “intoxicated by my illness” reflects the profound way chronic conditions can dominate an individual's mental and emotional landscape. The illness becomes more than a physical ailment; it is an all-encompassing presence that colors perception, influences behavior, and sometimes creates a paradoxical sense of dependency or identity.

This complex dynamic is often explored in memoirs, clinical psychology, and patient testimonies, revealing how chronic illness can lead to a psychological state where the sufferer is both victim and, in some ways, captive to their condition. The phrase captures the duality of pain and attachment, despair and acceptance, alienation and self-discovery.

The Psychological Landscape of Chronic Illness

Chronic illnesses, such as autoimmune diseases, fibromyalgia, or chronic fatigue syndrome, frequently entail persistent pain and fatigue that fluctuate unpredictably. This unpredictability can

foster a kind of psychological intoxication—where the patient’s thoughts and feelings are consumed by their symptoms. Research in health psychology reveals that this mental preoccupation can contribute to heightened symptom awareness, sometimes exacerbating perceived pain or discomfort.

Moreover, some patients report an almost hypnotic immersion into their illness, where the boundaries between self and sickness blur. This phenomenon can complicate recovery efforts because the illness becomes intertwined with personal identity. The "intoxication" here may also refer to the paradoxical comfort or familiarity that chronic symptoms provide, despite their negative impact.

Intoxicated by My Illness in Literature and Media

The phrase gained wider recognition through literary works and documentary films that delve into the lived experience of chronic illness. Memoirs such as those by authors who have battled chronic conditions often employ this expression to articulate the consuming nature of their health struggles.

In these narratives, the illness is portrayed not just as a medical condition but as a force shaping the individual’s worldview. Some authors describe moments where their pain and suffering evoke a surreal or altered mental state, akin to intoxication. This metaphor effectively communicates the disorienting and often isolating experience of chronic illness.

Comparative Analysis: Illness Narratives and Patient Identity

When comparing various illness narratives, it becomes evident that the notion of being “intoxicated by my illness” is a recurring theme. In some accounts, patients highlight the loss of autonomy and the pervasive influence of symptoms on daily functioning. In others, the illness is depicted as a catalyst for profound self-reflection and transformation.

In medical sociology, this duality is recognized as the biographical disruption caused by chronic illness, where the patient's life story is interrupted and reshaped. Being “intoxicated” by illness metaphorically describes this disruption’s intensity and the deep psychological engagement with one’s condition.

Implications for Healthcare and Patient Support

Understanding the metaphorical intoxication associated with chronic illness has practical implications for healthcare providers. Recognizing that patients may develop complex emotional and psychological relationships with their disease encourages a more empathetic and holistic approach to treatment.

Therapeutic Approaches Addressing Psychological Intoxication

Several therapeutic modalities aim to help patients navigate the psychological challenges of chronic

illness, including:

- **Cognitive Behavioral Therapy (CBT):** Assists patients in reframing negative thought patterns that contribute to symptom fixation.
- **Mindfulness-Based Stress Reduction (MBSR):** Encourages present-moment awareness, reducing rumination on pain and illness.
- **Acceptance and Commitment Therapy (ACT):** Focuses on accepting illness-related experiences without allowing them to dominate one's identity.

These interventions can diminish the sense of being overwhelmed or “intoxicated” by illness, fostering resilience and improved quality of life.

The Role of Patient Communities

Online forums and support groups provide platforms where individuals share their experiences of chronic illness, often articulating feelings akin to being intoxicated by their condition. These communities validate the emotional complexity of living with chronic disease and offer strategies for managing the psychological burden.

Broader Cultural Reflections on Illness and Identity

The metaphor of intoxication also resonates within societal perceptions of chronic illness. Cultural narratives sometimes romanticize suffering or alternatively stigmatize it, both of which can influence how patients internalize their experiences. Understanding these cultural dimensions helps explain why some individuals might embrace or resist the identity shaped by their illness.

Pros and Cons of Illness-Driven Identity

- **Pros:** Embracing illness as part of identity can lead to empowerment, advocacy, and a sense of community.
- **Cons:** Over-identification with illness may limit personal growth, foster dependency, and amplify psychological distress.

Striking a balance between acknowledging illness's impact and maintaining a broader self-concept is a nuanced challenge for many.

The exploration of being “intoxicated by my illness” reveals the depth and complexity of living with

chronic health conditions. Far from a simple descriptor, it encapsulates the interplay between physical suffering, mental engagement, and identity transformation. As medical understanding and patient-centered care evolve, appreciating this metaphor can enrich conversations about chronic illness and support more compassionate, effective interventions.

intoxicated by my illness: *Intoxicated by My Illness* Anatole Broyard, 2010-11-24 Anatole Broyard, long-time book critic, book review editor, and essayist for the New York Times, wants to be remembered. He will be, with this collection of irreverent, humorous essays he wrote concerning the ordeals of life and death—many of which were written during the battle with cancer that led to his death in 1990. A New York Times Notable Book of the Year “A heartbreakingly eloquent and unsentimental meditation on mortality . . . Some writing is so rich and well-spoken that commentary is superfluous, even presumptuous. . . . Read this book, and celebrate a cultured spirit made fine, it seems, by the coldest of touches.”—Los Angeles Times “Succeeds brilliantly . . . Anatole Broyard has joined his father but not before leaving behind a legacy rich in wisdom about the written word and the human condition. He has died. But he lives as a writer and we are the wealthier for it.”—The Washington Post Book World “A virtuoso performance . . . The central essays of *Intoxicated By My Illness* were written during the last fourteen months of Broyard’s life. They are held in a gracious setting of his previous writings on death in life and literature, including a fictionalized account of his own father’s dying of cancer. The title refers to his reaction to the knowledge that he had a life-threatening illness. His literary sensibility was ignited, his mind flooded with image and metaphor, and he decided to employ these intuitive gifts to light his way into the darkness of his disease and its treatment. . . . Many other people have chronicled their last months . . . Few are as vivid as Broyard, who brilliantly surveys a variety of books on illness and death along the way as he draws us into his writer’s imagination, set free now by what he describes as the deadline of life. . . . [A] remarkable book, a lively man of dense intelligence and flashing wit who lets go and yet at the same time contains himself in the style through which he remains alive.”—The New York Times Book Review “Despite much pain, Anatole Broyard continued to write until the final days of his life. He used his writing to rage, in the words of Dylan Thomas, against the dying of the light. . . . Shocking, no-holds-barred and utterly exquisite.”—The Baltimore Sun

intoxicated by my illness: *Intoxicated by My Illness* Anatole Broyard, 1994-04-30 Succeeds brilliantly....He lives as a writer and we are the wealthier for it. THE WASHINGTON POST BOOK WORLD Anatole Broyard, long-time book critic, book review editor, and essayist for THE NEW YORK TIMES wants to be remembered. He will be, with this collection of irreverent, humorous essays he wrote concerning the ordeals of life and death--many of which were written during the battle with cancer that led to his death in 1990. A NEW YORK TIMES NOTABLE BOOK OF THE YEAR From the Trade Paperback edition.

intoxicated by my illness: *The Broadview Anthology of Expository Prose: Second Edition* Tammy Roberts, Mical Moser, Don LePan, Julia Gaunce, Laura Buzzard, 2011-05-25 A substantial selection of classic essays allows readers to trace the history of the essay from Swift to Woolf and Orwell and beyond. A selection of the finest of contemporary essays—from Witold Rybcynski to

David Sedaris and Elizabeth Kolbert—provides a broad sample of the genre in the late twentieth and early twenty-first centuries. The academic essays begin with classic selections from such writers as Darwin and Charles Lyell, but the emphasis is on recent decades. Emphasized as well are academic papers or essays that have been especially influential or controversial, from Luis and Walter Alvarez's suggestion that an asteroid caused the extinction of the dinosaurs to Judith Rich Harris's argument that the influence of peers may be at least as influential in the formation of personality as that of parents. Works of different lengths, levels of difficulty and subject matter are all represented, as are narrative, descriptive and persuasive essays. Also included in the text is a range of questions and suggestions for discussion. The text selections are numbered by paragraph for ready reference. Added to the second edition are new selections by Malcolm Gladwell, Doris Lessing, Eric Schlosser, Binyavanga Wainaina, and over twenty others. This new edition also provides pairings of informal and academic articles that address the same topic, allowing readers to consider contrasting approaches.

intoxicated by my illness: Beyond Words Kathlyn Conway, 2013-05-15 Originally published as: *Illness and the limits of expression*. Ann Arbor: University of Michigan Press, c2007.

intoxicated by my illness: The Practice of Autonomy Carl Schneider, 1998 Exploring what patients do want gives direction to the author's inquiry into what they should want. What patients want, he believes, is properly more complex and ambiguous than being empowered. In this book he charts that ambiguity to take the autonomy principle past current pieties into the uncertain realities of the sick room and the hospital ward. *The Practice of Autonomy* is a sympathetic but trenchant study of the animating principle of modern bioethics. It speaks with freshness, insight, and even passion to bioethicists and moral philosophers (about their theories), to lawyers (about their methods), to medical sociologists (about their subject), to policy-makers (about their ambitions), to doctors (about their work), and to patients (about their lives).--BOOK JACKET.

intoxicated by my illness: *Textbook of Palliative Care Communication* Elaine Wittenberg, Betty R. Ferrell, Joy Goldsmith, Thomas Smith, Sandra L. Ragan, George Handzo, 2015-11-20 'The Textbook of Palliative Care Communication' is the authoritative text on communication in palliative care. Uniquely developed by an interdisciplinary editorial team to address an array of providers including physicians, nurses, social workers, and chaplains, it unites clinicians and academic researchers interested in the study of communication.

intoxicated by my illness: *Autotheories* Alex Brostoff, Vilashini Cooppan, 2025-02-18 A transdisciplinary array of authors offering a new frame of reference for autotheory and its genre-bending synthesis of autobiography and critical theory. *Autotheories* tells the story of a field in formation. Building on traditions that have long fused life writing, philosophical encounter, embodied theorizing, and cultural critique, autotheory constructs new practices of critical theory. Transgressing generic boundaries and bridging stylistic registers, it crafts language that is intimate, analytic, playful, and insurgent. Editors Alex Brostoff and Vilashini Cooppan underscore autotheory's multiple genealogies and genre-bending forms while situating it within the contemporary political field. In this collection, autotheory emerges as a strut (of style), a straddle (of disciplines), a proliferation (of selves), an axis (of identifications), an index (of attachments), and an archive (of loves). An assemblage and an experience, *Autotheories* surveys the field's iterations and permutations. Without settling for classification or bowing to ossification, *Autotheories* invites you to its discursive play. Contributors include: Alex Brostoff, Jessica Bush, Judith Butler, Vilashini Cooppan, Carla Freccero, rl Goldberg, Jan Grue, Emma Lieber, Megan Moodie, Lili Owen Rowlands, John Patterson, Paul B. Preciado, Erica Richardson, Migueltzinta C. Solís, Jamieson Webster, Damon Ross Young, Stacey Young, Arianne Zwartjes

intoxicated by my illness: *The Secret History of a Woman Patient* Janet Rhys Dent, 2016-07-06 When Janet Rhys Dent is diagnosed with a life-threatening illness, she decides to try to be a good patient. With any luck, this role will give her the best chance of recovery during the six months of medical testing and treatment that she faces. This book reveals her secret dilemmas and discoveries both inside and outside the hospital. It also records her successes and many failures as

she becomes seriously involved in the quest to find out what makes a good patient. Her experiences lead her to reflect on her life, to look further into the roles of patients, to join a support group and to seek information and enlightenment on internet sites and in philosophy and popular self-help methods. What she learns brings about a change in her attitudes, not only to being a patient but also to life and living. As to the essence of being a good patient, she discovers that the answer is simpler and more life-affirming than she had ever imagined. 'Though names and personal details have been changed for the sake of others' privacy, all the episodes in the book are true, real-life events. I portray the new world I am thrown into; the search for knowledge about it; the people I meet; my attempts to understand and trust the hospital staff, system and treatment; and my failures and successes in adapting to many other challenges both outside and inside the hospital.' - Janet Rhys Dent, in the Introduction.

intoxicated by my illness: The Critic's Daughter: A Memoir Priscilla Gilman, 2023-02-07
 "Beautiful: honest, raw, careful, soulful, brave, and incredibly readable." —Nick Hornby An exquisitely rendered portrait of a unique father-daughter relationship and a moving memoir of family and identity. Growing up on the Upper West Side of New York City in the 1970s, in an apartment filled with dazzling literary and artistic characters, Priscilla Gilman worshiped her brilliant, adoring, and mercurial father, the writer, theater critic, and Yale School of Drama professor Richard Gilman. But when Priscilla was ten years old, her mother, renowned literary agent Lynn Nesbit, abruptly announced that she was ending the marriage. The resulting cascade of disturbing revelations—about her parents' hollow marriage, her father's double life and tortured sexual identity—fundamentally changed Priscilla's perception of her father, as she attempted to protect him from the depression that had long shadowed him. A wrenching story about what it means to be the daughter of a demanding parent, a revelatory window into the impact of divorce, and a searching reflection on the nature of art and criticism, *The Critic's Daughter* is an unflinching account of loss and grief—and a radiant testament of forgiveness and love.

intoxicated by my illness: The Midnight Disease Alice W. Flaherty, 2015-04-28 "An original, fascinating, and beautifully written reckoning . . . of that great human passion: to write."—Kay Redfield Jamison, national bestselling author of *An Unquiet Mind* Why is it that some writers struggle for months to come up with the perfect sentence or phrase while others, hunched over a keyboard deep into the night, seem unable to stop writing? In *The Midnight Disease*, neurologist Alice W. Flaherty explores the mysteries of literary creativity: the drive to write, what sparks it, and what extinguishes it. She draws on intriguing examples from medical case studies and from the lives of writers, from Franz Kafka to Anne Lamott, from Sylvia Plath to Stephen King. Flaherty, who herself has grappled with episodes of compulsive writing and block, also offers a compelling personal account of her own experiences with these conditions. "[Flaherty] is the real thing . . . and her writing magically transforms her own tragedies into something strange and whimsical almost, almost funny."—The Washington Post "This is interesting, heated stuff."—San Francisco Chronicle "Brilliant . . . [a] precious jewel of a book . . . that sparkles with some fresh insight or intriguing fact on practically every page."—Seattle Post-Intelligencer "Flaherty mixes memoir, meditation, compendium and scholarly reportage in an odd but absorbing look at the neurological basis of writing and its pathologies . . . Writers will delight in the way information and lore are interspersed."—Publishers Weekly

intoxicated by my illness: Hearing the Hurt Eric King Watts, 2012-06-19
 Normal0falsefalsefalseMicrosoftInternetExplorer4 *Hearing the Hurt* is an examination of how the New Negro movement, also known as the Harlem Renaissance, provoked and sustained public discourse and deliberation about black culture and identity in the early twentieth century. Borrowing its title from a W. E. B. Du Bois essay, *Hearing the Hurt* explores the nature of rhetorical invention, performance, and mutation by focusing on the multifaceted issues brought forth in the New Negro movement, which Watts treats as a rhetorical struggle over what it means to be properly black and at the same time properly American. Who determines the meaning of blackness? How should African Americans fit in with American public culture? In what way should black communities

and families be structured? The New Negro movement animated dynamic tension among diverse characterizations of African American civil rights, intellectual life, and well-being, and thus it provides a fascinating and complex stage on which to study how ideologies clash with each other to become accepted universally. Watts, conceptualizing the artistic culture of the time as directly affected by the New Negro public discourse, maps this rhetorical struggle onto the realm of aesthetics and discusses some key incarnations of New Negro rhetoric in select speeches, essays, and novels.

intoxicated by my illness: The Use and Abuse of Stories Hanna Meretoja, Mark Freeman, 2023 We live in a world that is increasingly defined by a contest of incommensurable narratives. This situation has emerged over a period of time shaped by the rise of populism, the increasing polarization of societies, what has been dubbed as post-truth politics, and most recently Russia's war in Ukraine. The internet is replete with narratives that contest basic facts about climate change, the Covid-19 pandemic, and the atrocities that Russia is currently committing in Ukraine--

intoxicated by my illness: Life of the Clinician Michael J. Lepore, 2002 The autobiography of one of America's most important gastroenterologists. Michael Lepore [1910-2000] was a pioneer in the field of gastroenterology. He was a member of one of the first graduating classes of the University of Rochester Medical School, and went on to a distinguished career at Columbia University, New York University, and St. Vincent's Hospital and Medical Center of New York. This autobiography tells of his experiences as an Italian-American who overcame prejudices to become the personal physician to such notables as Greta Garbo and President Herbert Hoover. His story is witty and cleverly written, and details the way the medical profession changed from the Great Depression to the late 1990s. Michael Lepore was an alumnus of Duke University Medical School and the University of Rochester School of Medicine, and was the Director, Gastroenterology Section, Departments of Medicine and Surgery Emeritus, St. Vincent's Hospital and Medical Center of New York.

intoxicated by my illness: Body in Medical Culture, The Elizabeth Klaver, 2009-04-16 2010 CHOICE Outstanding Academic Title How do concepts and constructions of the body shape people's experiences of agency and objectification within medical culture? As an object of scrutiny, the medicalized body occupies center stage in the work of doctors, nurses, medical examiners, and other medical professionals who mediate broader cultural understandings of pathology, illness, and the various physical transformations associated with life and death. *The Body in Medical Culture* explores how the body functions within medical culture and examines the metaphors and models of the body used to understand medical phenomena, including disease, diagnostic practices, wellness, anatomy, surgery, and medical research. Scholars from a wide range of disciplines engage representations of bodies, including polio and masculinity, sex reassignment surgery, drug marketing, endography, designer vaginas, and hospital humor in order to challenge the normalcy of the passively objectified medicalized body.

intoxicated by my illness: Body & Soul Allison Crawford, 2011-01-01 *Body & Soul* features inspiring and award-winning fiction, essays, memoirs, poetry, photography, and visual art on the universal themes of wellness, treatment, and healing.

intoxicated by my illness: The Call of Conscience Michael J. Hyde, 2001 This study considers the relationship between the phenomenon of conscience and the practice of rhetoric as it relates to one of the most controversial issues of our time - euthanasia. The author offers an extensive treatment of Heidegger's and Levinas' philosophical investigations of conscience.

intoxicated by my illness: Medicine in Quotations Edward J. Huth, T. J. Murray, 2006 Who was the first to write about a certain disease, diagnose it, and treat it? This book answers those questions for a wide range of diseases, from Abetalipoproteinemia to Zollinger-Ellison syndrome. What were the medical practitioners of previous generations hoping to achieve? What were their patients expecting of them? The answers are found in these quotations. Containing over 3,000 entries, and now updated with more than 450 new quotations, this new edition of *Medicine in Quotations* is the most comprehensive collection of its type published in over 30 years. It is much more than a random

collection of famous sayings relating to sickness and health, disease and treatment; it is a portrait of medicine throughout recorded history. You will discover how medical concepts and practices have developed and shifted through the millennia, and how many illnesses recognized today were first identified a thousand or more years ago. Quotations are organized by topic, and each is fully referenced, allowing curious readers to return to the original source. Subject and author indices make it easy to find quotations of interest. Medicine in Quotations is an invaluable resource for writers, speakers, and all those interested in the history of medicine.

intoxicated by my illness: Fever of Unknown Origin Judith M. Ford, 2022-06-08 Judith Ford was a successful psychotherapist with a relatively new second marriage, a full-time clinical practice, and three children. She was also a runner, a yoga-practitioner, a dancer, and a writer when she came down with a mysterious illness that landed her in the hospital for a full summer and nearly ended her life. She recovered through a combination of Western medicine and shamanic journeys. A few years later she helped her parents through their final illnesses. This book is both her story and theirs, about how each of them maintained hope or sometimes despaired. It's about how they each suffered and rallied, laughed, loved, forgave, and let go. And it's about how all of us live in the shadows of the unknown and the unanswerable.

intoxicated by my illness: Post-Experimentalism Nathaniel Tower, Rick Taliaferro, Bartleby Snopes, 2012-10-21 The first-ever collection of Post-Experimental fiction presented by Bartleby Snopes and featuring stories and artwork from Jacob M Appel, Andrew Battershill, Justin Bostian, CS DeWildt, Barbara Westwood Diehl, Jacqueline Doyle, Joachim Frank, Jamie Leigh Haden, Christopher James, Hall Jameson, Len Kuntz, Andrea Mason, Leland Neville, Uzodinma Okehi, Stephen V Ramey, Lauren Stone, Edward Trefts, and Sandra Yagi.
