Popular Song in Britain During the First World War* John Mullen, 2016-03-03 Using a collection of over one thousand popular songs from the war years, as well as around 150 soldiers' songs, John Mullen provides a fascinating insight into the world of popular entertainment during the First World War. Mullen considers the position of songs of this time within the history of popular music, and the needs, tastes and experiences of working-class audiences who loved this music. To do this, he dispels some of the nostalgic, rose-tinted myths about music hall. At a time when recording companies and record sales were marginal, the book shows the centrality of the live show and of the sale of sheet music to the economy of the entertainment industry. Mullen assesses the popularity and significance of the different genres of musical entertainment which were common in the war years and the previous decades, including music hall, revue, pantomime, musical comedy, blackface minstrelsy, army entertainment and amateur entertainment in prisoner of war camps. He also considers non-commercial songs, such as hymns, folk songs and soldiers' songs and weaves them into a subtle and nuanced approach to the nature of popular song, the ways in which audiences related to the music and the effects of the competing pressures of commerce, propaganda, patriotism, social attitudes and the progress of the war.

**the show must go on sheet music:** Music in World War II Pamela M. Potter, Christina L. Baade, Roberta Montemorra Marvin, 2020-10-06 A collection of essays examining the roles played by music in American and European society during the Second World War. Global conflicts of the twentieth century fundamentally transformed not only national boundaries, power relations, and global economies, but also the arts and culture of every nation involved. An important, unacknowledged aspect of these conflicts is that they have unique musical soundtracks. Music in World War II explores how music and sound took on radically different dimensions in the United States and Europe before, during, and after World War II. Additionally, the collection examines the impact of radio and film as the disseminators of the war's musical soundtrack. Contributors contend that the European and American soundtrack of World War II was largely one of escapism rather than the lofty, solemn, heroic, and celebratory mode of "war music" in the past. Furthermore, they explore the variety of experiences of populations forced from their homes and interned in civilian and POW camps in Europe and the United States, examining how music in these environments played a crucial role in maintaining ties to an idealized "home" and constructing politicized notions of national and ethnic identity. This fascinating, well-constructed volume of essays builds understanding of the role and importance of music during periods of conflict and highlights the unique aspects of music during World War II. "A collection that offers deeply informed, interdisciplinary, and original views on a myriad of musical practices in Europe, Great Britain, and the United States during the period." —Gayle Magee, co-editor of *Over Here, Over There*:

**the show must go on sheet music: *Eleanor's Pursuit*** H. Thomas Howell, 2014-12 When Eleanor Pendleton met Louis M. Ream in 1911, it was love at first sight. She was a Broadway actress known for her beauty and dancing ability in musical comedy productions during the early twentieth century. Louis was tall, dark, and handsome and, as she soon discovered, the youngest son and presumptive heir of Norman B. Ream, one of America's wealthiest men. The problem for Eleanor, as she learned after eloping with Louis, was her father-in-law's deep-seated aversion to the theatre; he regarded all actresses as disreputable. After an overnight trip to seek his father's forgiveness and understanding, Louis disappeared. A blend of history and melodrama, H. Thomas Howell's *Eleanor's Pursuit* offers the biographical legacy of Eleanor Pendleton. It looks beneath the sensational newspaper coverage of 1911 to explore the confrontation between father and son and Eleanor's anxious vigil while awaiting the return of her husband. When Ream's lawyer arrives at her apartment instead of Louis and informs her the marriage is over, Eleanor collapses in disbelief. The lawyers take center stage, displacing the lovers. Chronicling one of the biggest celebrity newspaper stories of its day, *Eleanor's Pursuit* follows the secret deal-making sessions, the stage-managed travesty of justice, and the ultimate courtroom battle. These events come to life as the witnesses and lawyers reveal the private details in their own words. Howell also tells how the public reacted to the story as it unfolded. With surprises at every turn, this biography explains the exceptional final stage of Eleanor's pursuit.

**the show must go on sheet music: *Uncage Eden: A Spiritual Philosophy Book about Food, Music, and the Rewilding of Society*** DJ Rankin, 2018-11-20 Our planet is in peril. Our species is in captivity. We alone hold the key. We have become disconnected from the love song of our living planet, and as a result, she has become severely out of balance as she spirals through her evolution. It is not beyond our power to regain a harmonious relationship with our plentiful Mother Earth, and as we reweave the web of symbiosis we were born with, humanity may once again experience a life without limitation. We are meant to be integral components of the wild, not slaves of the systematic destruction of it, and as the veil of our incarceration is lifted, we will rise to the

occasion of tearing down the walls that contain us. This is the story of one water protector's path to understanding, his struggle to find what it means to live in a good way, and the incredible world that his adventure reveals along the journey. From Rattlesnakes to frybread to space dust to space funk, the music of the universe has a most compelling story to share, and as we ride the wave of this fundamental vibration, we become enlightened to the astounding complexity of creation. We are the dreamers, we are the creators, we have the ability to manifest our own reality as we travel throughout this material existence, and it is up to us to believe in the abundance of tomorrow. We have become lost in a cloud of fear, as we insist on imagining the worst possible outcomes for our children's future. The powers-that-be are attempting to subdue our awakening, but we are emerging from this nightmare, and rediscovering the true nature of the spirit within. Life is meant to be lived, every moment is meant to be cherished, and you are meant to be you. The language of human supremacy has convinced us that we are powerless, but we alone hold the key to unlocking the cages of our planet, and as we shed this illusion of scarcity, the magic of the garden will once again be free to bloom. And we're gonna make the best late night snacks. Also available in print form at [lulu.com](http://lulu.com)

Ritzenhoff, 2015-05-06 Humor and entertainment were vital to the war effort during World War I. **the show must go on sheet music: Letters to a Best Friend** Richard Selzer, 2009-07-23 In 1988, when author and former surgeon Richard Selzer answered a letter from Peter Josyph, a New York artist he had met, he did not know that he was embarking on the most enduring correspondence of his life. In thousands of letters, written in longhand over the course of two decades, Selzer devoted himself to the epistolary art—an art that, even among writers, has become increasingly rare in an age of cell phones, e-mails, and text messaging. Letters are definitely a genre, Selzer says, and I think it's one of the best. As this lively and intimate collection demonstrates, Richard Selzer is one of its master practitioners. In spontaneous, conversational style, Selzer writes about his life and work with the unpredictable vision and sharpness of wit that, in his stories, memoirs, and personal essays, have made his reputation as one of the great prose stylists of his day. It is also the record of a friendship. As Peter Josyph remarks in his introduction, With a good correspondence, as with the blowing between horn players improvising off each other's riffs, it isn't easy to say whether it's art or society because it is both of them at once. This is a book about two men who value a friendship balanced upon words; men for whose friendship the phone is a thief; men who are comfortable with the U.S. mail.

**the show must go on sheet music: Movie Comedians of the 1950s** Wes D. Gehring, 2016-10-27 The 1950s were a transitional period for film comedians. The artistic suppression of the McCarthy era and the advent of television often resulted in a dumbing down of motion pictures. Cartoonist-turned-director Frank Tashlin contributed a funny but cartoonish effect through his work with comedians like Jerry Lewis and Bob Hope. A new vanguard of comedians appeared without stock comic garb or make-up--fresh faces not easily pigeonholed as merely comedians, such as Tony Randall, Jack Lemmon and Tony Curtis. Some traditional comedians, like Charlie Chaplin, Red Skelton and Danny Kaye, continued their shtick, though with some evident tweaking. This book provides insight into a misunderstood decade of film history with an examination of the personality comedians. The talents of Dean Martin and Bob Hope are reappraised and the dumb blonde stereotype, as applied to Judy Holliday and Marilyn Monroe, is deconstructed.

**the show must go on sheet music: Inventing Times Square** William R. Taylor, 1996-04 A unique volume, *Inventing Times Square* approaches the subject of twentieth-century American city culture through a multidimensional examination of one quintessential urban space: Times Square. Ranging in time from 1905, when the crossroad was given its present name, through to the current plans for redevelopment, the authors examine Times Square as economic hub, real estate bonanza, entertainment center, advertising medium, architectural experiment, and erotic netherworld. Though the volume centers on Times Square, the essays venture much further into urban history and American social history, revealing in the process how Times Square reflected—even epitomized—America as it became an urban consumer culture.

**the show must go on sheet music: God Bless America** Kathleen E.R. Smith, 2021-10-21 After Pearl Harbor, Tin Pan Alley songwriters rushed to write the Great American War Song—an Over There for World War II. The most popular songs, however, continued to be romantic ballads, escapist tunes, or novelty songs. To remedy the situation, the federal government created the National Wartime Music Committee, an advisory group of the Office of War Information (OWI), which outlined proper war songs, along with tips on how and what to write. The music business also formed its own Music War Committee to promote war songs. Neither group succeeded. The OWI hoped that Tin Pan Alley could be converted from manufacturing love songs to manufacturing war songs just as automobile plants had retooled to assemble planes and tanks. But the OWI failed to comprehend the large extent by which the war effort would be defined by advertisers and merchandisers. Selling merchandise was the first priority of Tin Pan Alley, and the OWI never swayed them from this course. Kathleen E.R. Smith concludes the government's fears of faltering morale did not materialize. Americans did not need such war songs as Goodbye, Mama, I'm Off To Yokohama, There Are No Wings On a Foxhole, or even The Sun Will Soon Be Setting On The Land Of The Rising Sun to convince them to support the war. The crusade for a proper war song was misguided from the beginning, and the music business, then and now, continues to make huge profits selling love—not war—songs.
