counties work answer key: Making Devolution Work for Service Delivery in Kenya Abdu Muwonge, Muratha Kinuthia, Timothy Stephen Williamson, Christine Owuor, 2022-02-23 Kenya adopted a new Constitution and began the process of devolution in 2010. The new Constitution was the institutional response to longstanding grievances over the centralization of state powers and public sector resources, and regional disparities in service delivery and development outcomes. This radical restructuring of the Kenyan state has three main objectives: decentralizing political power, public sector functions, and public finances; ensuring a more equitable spatial distribution of resources between regions; and promoting more accountable, participatory, and responsive government at all levels. The first elections under the new Constitution were held in 2013. Alongside the national government, 47 new county governments were established. Each county government is made up of a County Executive, headed by an elected Governor and works under the oversight of an elected County Assembly. Seven years after the devolution train left the station, this report takes stock of how devolution has affected the delivery of devolved basic services to Kenyan citizens. Whereas devolution was driven by political reform, the ensuing institutions and systems were

expected to deliver greater socioeconomic equity through devolved service delivery. The Making Devolution Work for Service Delivery (MDWSD) study is the first major assessment of Kenya's devolution reform. The study was a jointly coordinated effort by the Government of Kenya and the World Bank. The study provides key messages with respect to what is working, what is not working, and what could work better to enhance service delivery based on the currently available data. It provides an independent assessment of service delivery performance in five sectors, namely health, education, agriculture, urban, and water services and includes an in-depth review of the main pillars of devolved service delivery, namely public financial management, intergovernmental finance, human resource management, politics and accountability.
