essentials of business communication 9th edition guffey: Analyzing Multimodality in Specialized Discourse Settings Veronica Bonsignori, Belinda Crawford Camiciottoli, Denise Filmer, 2022-03-01 Contemporary society has witnessed radical changes in the field of communications in terms of how messages and meanings are disseminated. Digitalization and the Internet have signalled an exponential rise in the circulation of multimodal texts in which different semiotic resources are orchestrated together to construct meaning in all areas of social life, across languages and cultures, and in diverse specialized discourse domains. This has foregrounded the need to examine the semiotic functions, affordances, and issues at stake in a range of multimodal discourse forms, while simultaneously highlighting the importance of critical multimodal literacy in audiences and learners. This volume develops and extends pioneering research on the intersection between multimodality and specialized discourse. Eight newly commissioned studies offer innovative perspectives on multimodal research methodologies and applications in a variety of ESP (English for Specific Purposes) contexts for practitioners and scholars alike. The volume offers a glimpse at future directions in this dynamic and ever-evolving area of investigation focusing on the synergy between verbal and non-verbal modes of communication in the digital age. Each chapter explores an original area of application: academic, economic, scientific, marketing, legal, medical, political, and tourism. The contributors approach multimodality from a range of theoretical and methodological viewpoints including synchronic and diachronic corpus-based and corpus-aided studies, critical discourse analysis, and systemic functional linguistics. Analytical tools such as multimodal (critical) discourse analysis, multimodal transcription, and multimodal annotation software capable of representing the interplay of different semiotic modes - speech, intonation, direction of gaze, facial expressions, gesturing, and spatial positioning of interlocutors - are employed. The diversity of research strands contained in the volume illustrates just some of the vast areas of multimodal knowledge dissemination that are still unmapped. As a cornerstone of communication, multimodality needs exploring in all its facets. These contributions aim to further that cause.

essentials of business communication 9th edition guffey: Leading While Black Torrance J. R. Jones, 2023-06-27 The American workplace exhibits a growing imbalance when it comes to human identity. Leaders are frequently defined in the absence of their critical social identifiers, but the exclusion of these identifiers is a mistake and ignores essential physical, cultural, and spiritual realities. Their exclusion is especially problematic for leaders of the Black identity and the Christian faith. Color-blind ideology harms people of color, while religion-blind systems damage people of faith, and both are especially problematic for individuals who reckon with both realities. Rather than abandoning an individual's social identities, the ones we choose and the ones we do not, Leading

While Black draws on the lived experiences of executive-level leaders of the Christian faith and Black identity, and offers a testament to the power of a living God in the social fabric of public life. Instead of ignoring the narrative arc of social identities and the weight they carry when considering an individual's conception of leadership, Torrance Jones leans into the value of those identities and asserts their integral importance for Black leaders and for those who work with and for Black voices. The reality of those who live with the experience of being Black and Christian in the workplace matters for the grand narrative of leadership in the United States. Through conversations and deep attention to the lived experience of leaders, Torrance Jones explores the intersectionality of these two worlds--Black and Christian--and inspires readers to lead from the context of all that they are.
