leslie feinberg stone butch blues: The Search for Identity in Leslie Feinberg's Stone Butch Blues Ester Schoefberger, 2010-12 Seminar paper from the year 2009 in the subject English Language and Literature Studies - Literature, grade: 1,0, Dresden Technical University (Institut Anglistik), course: HS The Cultural Study of Masculinity, language: English, abstract: Before writing this paper, I didn't know what the term butch meant. I tried to find out through texts and on the Internet what it meant, and I soon found out that there were many different definitions. I lost myself in blogs of people who defined themselves as butch, and the conclusion was that the definition has to do both with femininity and masculinity. After reading Leslie Feinberg's novel Stone Butch Blues (1993), the meaning of the term was at least a little more clear. I decided to write the paper on this concept, mainly driven by curiosity. It was like looking into a room full of books and feeling the desire to read them all, with the conviction that every book had to tell a different story. I decided to call the paper The Search for Identity in Leslie Feinberg's Stone Butch Blues because I think that Jess's search goes beyond her self-definition as a butch. The story narrates the search for identity of an individual who has to choose between given categories. At the end, Jess chooses to refuse a stable definition, because no one fits properly. I chose to follow the main character through the search, annotating every stage and trying to find confirmation in the critique.

leslie feinberg stone butch blues: Female Masculinity Judith Halberstam, Jack Halberstam, 1998 Masculinity without men. In Female Masculinity Judith Halberstam takes aim at the protected status of male masculinity and shows that female masculinity has offered a distinct alternative to it for well over two hundred years. Providing the first full-length study on this subject, Halberstam catalogs the diversity of gender expressions among masculine women from nineteenth-century pre-lesbian practices to contemporary drag king performances. Through detailed textual readings as well as empirical research, Halberstam uncovers a hidden history of female masculinities while arguing for a more nuanced understanding of gender categories that would incorporate rather than pathologize them. She rereads Anne Lister's diaries and Radclyffe Hall's The Well of Loneliness as foundational assertions of female masculine identity. She considers the enigma of the stone butch and the politics surrounding butch/femme roles within lesbian communities. She also explores issues of transsexuality among transgender dykes--lesbians who pass as men--and female-to-male transsexuals who may find the label of lesbian a temporary refuge. Halberstam also tackles such topics as women and boxing, butches in Hollywood and independent cinema, and the phenomenon of male impersonators. Female Masculinity signals a new understanding of masculine behaviors and identities, and a new direction in interdisciplinary queer scholarship. Illustrated with nearly forty photographs, including portraits, film stills, and drag king performance shots, this book provides an extensive record of the wide range of female masculinities. And as Halberstam clearly demonstrates, female masculinity is not some bad imitation of virility, but a lively and dramatic staging of hybrid and minority genders.

leslie feinberg stone butch blues: Every Inch a Woman Carellin Brooks, 2011-11-01 What makes the textual image of a woman with a penis so compelling, malleable, and persistent? Although the figure of the phallic woman is in no sense unique to our age, Every Inch a Woman takes note of a proliferation of phallic feminine figures in disparate North American and European texts from the end of the nineteenth century onward. This multiplication, which continues today, admits of a corresponding multiplicity of motives. The phallic woman can be a ribald joke, a fantastical impossibility, a masculine usurper, an ultimately unthreatening sexual style, an interrogation into the I of the author, or an examination of female culpability. Carellin Brooks takes up the textual figure of the phallic woman where Freud locates it, in the imagined mother that the little boy, in fantasy, credits with a penis of her own. It traces this phallic-woman motif backward to the sexological case study, and forward to newspaper accounts of testosterone-taking third-sexers. Brooks examines both high and low literature, pornography, postmodern theory, and writing that would seem to answer Lacan's injunction to move beyond the phallus. Witty and engaging, Every Inch a Woman makes an innovative contribution to sexuality, gender, and women's studies, as well as psychoanalytic theory and criticism.

leslie feinberg stone butch blues: Dissenting Fictions Cathy Moses, 2014-01-14 This study elucidates the relationship between identity formation and resistance to racial and sexual oppression in a group of contemporary American novels the author terms dissenting fictions, narratives that assert the subjectivity and historicity of marginalized peoples at precisely the moment when postmodern critiques proclaim the death of the subject and the inaccessibility of historical truth. Of primary concern is the question of how narrative fictions conceive of strategies of resistance to oppression in an age in which the identity politics of the sixties and seventies have given way to positional subjectivities, fluid identities, and coalition politics. Through interpretive readings of the works of well-known authors Toni Morrison and Leslie Marmon Silko, critically acclaimed novelist David Bradley, the well-respected but little-studied novelist Russell Banks, and the relatively unknown Leslie Feinberg, whose fiction challenges accepted notions of gender, the author explores a range of practices that place notions of identity in crucial relationship to resistance praxis. Dissenting fictions emerge in this study as imaginative narratives that perform substantial cultural work, reworking classical liberal notions of subjectivity and agency. These novels address the failure of conventional individual agency and imagine an interactive agency grounded in an awareness of both a political economy and historic power relations.

leslie feinberg stone butch blues: Masculinities without Men? Jean Bobby Noble, 2010-10-01 Conventional ideas about gender and sexuality dictate that people born with male bodies naturally possess both a man's identity and a man's right to authority. Recent scholarship in the field of gender studies, however, exposes the complex political technologies that construct gender as a supposedly unchanging biological essence with self-evident links to physicality, identity, and power. In Masculinities without Men? Jean Bobby Noble explores how the construction of gender was thrown into crisis during the twentieth century, resulting in a permanent rupture in the sex/gender system, and how masculinity became an unstable category, altered across time, region, social class, and ethnicity. This groundbreaking study maps historical similarities in fictional, cultural, and representational practices between the periods of modernism and postmodernism. Noble examines nineteenth-century sexology, drama, and trial transcripts, and late twentieth-century counter-cultural fiction, popular film and documentaries, and theoretical texts. Among the works analyzed closely are texts that have been the focus of lesbian, queer, and feminist theory: Radclyffe Hall's *The Well of Loneliness*, Leslie Feinberg's *Stone Butch Blues*, and the film *Boys Don't Cry*. These, as Noble illustrates, make use of similar types of narratives, structures, and thematic techniques to articulate female masculinity. Also included is an exploration of Rose Tremain's

Sacred Country, which has never before been studied within this context. Through a critical examination of these texts, Noble demonstrates that trans-gendered and trans-sexual masculinity began to emerge as a unique category in late twentieth-century fiction, distinct from lesbian or female masculinity. Of interest to scholars and students with an interest in sexuality and gender studies, *Masculinities without Men?* also makes a vital contribution to literary criticism, as well as to cultural and film studies.

The second section analyzes the evolving political valences of key popular genres and literary forms in the twentieth-century American novel, focusing on crime fiction, science fiction, postmodern metafiction and immigrant fiction. The third section examines ten diverse politically-minded novels that serve as exemplary case studies across the century. Combining detailed literary analysis with innovative political theory, this Companion provides a groundbreaking study of the politics of twentieth-century American fiction.

In addition to more “serious” writing, lesbian comediennes offer their irreverent takes on femme/butch in this book. Their perspectives are almost never found in academic publications, but what Lea DeLaria, Vickie Shaw, Karen Williams, and other edgy comics have to say about femme/butch sexuality deserves to be heard. You’ll also find that Femme/Butch is essential for the global perspective it brings to lesbian gender. With chapters focused on lesbians in Chinese cultures and on the emerging lesbian community in Bulgaria, this book explores the role of femme/butch identification in cultures without recognizable lesbian institutions. Here are a few of the questions the contributors to Femme/Butch examine in this remarkable book: Can theory about femme/butch exist in the electric realm of sex and sexuality, or does theory necessarily neutralize sexuality? What role does popular culture play in helping us to theorize about lesbian gender? What are the relationships between history and femme/butch lesbian gender? Tracking the emergence of queer theory out of gay and lesbian studies, this book pays unique attention to how queer scholars have read some of the most well-known works in the English language. Organized thematically, this book explores queer theoretical treatments of sexual identity, gender and sexual norms and normativity, negativity and utopianism, economics and neoliberalism, and AIDS activism and disability. Each chapter expounds upon foundational works in queer theory by scholars including Michel Foucault, Eve Kosofsky Sedgwick, and Lee Edelman. Each chapter also offers readings of primary texts -ranging from the highly canonical, like John Milton’s Paradise Lost, to more contemporary works of popular fiction, like Stephen King’s Salem’s Lot. By modelling queer readings, this book invites literature students to develop queer readings of their own. It also suggests that reading queerly is not simply a matter of reading work written by queer people. Queer reading attunes us to the queerness of even the most straightforward text.
