But no one knows about the early life of the Son of God, the missing years - except Biff, the Messiah's best bud, who has been resurrected to tell the story in this divinely hilarious, yet heartfelt work 'reminiscent of Vonnegut and Douglas Adams' (Philadelphia Inquirer). Verily, the story Biff has to tell is a miraculous one, filled with remarkable journeys, magic, healings, kung fu, corpse reanimations, demons, and hot babes, Even the considerable wiles and devotion of the Saviour's pal may not be enough to divert Joshua from his tragic destiny. Through an examination of literary, cinematic, and popular texts and practices, this book investigates how twenty-first-century historical fictions use creative anachronisms as a way of understanding modern issues and anxieties. Drawing together a wide range of texts across all forms of historical fiction - novels, dramas, musicals, films and television - this book re-frames anachronism not as an error but as a deliberate strategy that emphasises the fictionalising tendencies of all forms of historical writing. The book achieves this by exploring three core themes: the developing trends in the twenty-first century for creators of historical fiction to include deliberate anachronisms, such as contemporary references, music and language; the ways in which the deliberate use of anachronism in historical fiction can allow us to rethink the relationship between past and present; and the way that contemporary historical fiction uses anachronism to better understand modern issues and anxieties. This book will appeal to students and scholars of historical fiction, contemporary historical film and television studies, and historical theatre studies.

lamb christopher moore: *Beyond Cadfael* Lucy C. Barnhouse, Winston Black, 2023-06-01 Medievalism and medieval medicine are vibrant subfields of medieval studies, enjoying sustained scholarly attention and popularity among undergraduates. Popular perceptions of medieval medicine, however, remain understudied. This book aims to fill that lacuna by providing a multifaceted study of medical medievalism, defined as modern representations of medieval medicine intended for popular audiences. The volume takes as its starting point the fictional medieval detective Brother Cadfael, whose observations on bodies, herbs, and death have shaped many

popular conceptions of medieval medicine in the Anglophone world. The ten contributing authors move beyond Cadfael by exploring global medical medievalisms in a range of genres and cultural contexts. Beyond Cadfael is organized into three sections, the first of which engages with how disease, injury, and the sick are imagined in fictitious medieval worlds. The second, on doctors at work, looks at medieval medical practice in novels, films and television, and public commemorative practice. These essays examine how practitioners are represented and imagined in medieval and pseudo-medieval worlds. The third section discusses medicine designed for and practiced by women in the Middle Ages and today, with a focus on East Asian medical traditions. These essays are guided by the recognition that medieval medical practices are often in dialogue with contemporary medical practices that fall outside the norms of Western biomedicine.

What would phrases like intended to deceive or true origins even mean in various historical and cultural contexts? lamb christopher moore: Scoffing at Scripture Frank Bolger Kelly, 2011-02 A former Roman Catholic, Frank Bolger Kelly has long wondered why thinking humans as a whole in the 21st century have not yet been able to disenthral themselves from the demonstrable falsehoods and sectarian nonsense of organized religion. A few years ago, Kelly decided to sit down with the sacred scriptures of several of the world's major religions, the alleged bedrocks of these various creeds, in a last-ditch effort to achieve holy inspiration. Instead, he became wholly disenchanted, and *Scoffing at Scripture: A Commoner Reads the World's Holy Writ and Rejects Traditional Religion* is the result. Far from representing that all-elusive Word of God, creedal scripture the world over, it seems to Kelly, merely cloaks the tribal agendas and cultural designs of the world's priestly (and virtually allmale) elites. With the general reader in mind, the author has grouped together a series of compact discussions of religion and scripture for cross-cultural comparative reference. Kelly's intent is to facilitate critical analysis of the world's holy writ and, in particular, to encourage younger, skeptical readers of a secular mind to confront the doctrinal, scriptural, and ritual absurdities of those faiths into which they were born and continue to be indoctrinated. Frank Bolger Kelly grew up in an Irish Catholic family in the Bronx, New York, matriculated to a noted Jesuit college in New England, and subsequently did time at a prestigious non-sectarian institution of higher learning in the Midwest. It was during his enlightening time at the latter that Kelly first began seriously to question not only his own religious upbringing but the scriptural bases of all the world's major religions. Kelly was quickly convinced that the vast majority of the faithful the world over, commoners like himself, just might reconsider their religious roots and motivations in a new light if they actually bothered to immerse themselves for a time in their own sacred scriptures, rather than merely fake familiarity with them. Actually to read scripture in all its antiquated, tendentious, sectarian absurdity, Kelly reasoned, is to take a first, giant step in renouncing irrational creeds of all kinds. Thus was born *Scoffing at Scripture: A Commoner Reads the World's Holy Writ and Rejects Traditional Religion*, a book from which the author hopes the open-minded reader will draw a secularly pure, spiritual sustenance.
