tell me no lies john pilger: Tell Me No Lies John Pilger, 2011-02-15 *Tell Me No Lies* is a celebration of the very best investigative journalism, and includes writing by some of the greatest practitioners of the craft: Seymour Hersh on the My Lai massacre; Paul Foot on the Lockerbie cover-up; Wilfred Burchett, the first Westerner to enter Hiroshima following the atomic bombing; Israeli journalist Amira Hass, reporting from the Gaza Strip in the 1990s; Gunter Wallraff, the great German undercover reporter; Jessica Mitford on 'The American Way of Death'; Martha Gelhorn on the liberation of the death camp at Dachau. The book - a selection of articles, broadcasts and books extracts that revealed important and disturbing truths - ranges from across many of the critical events, scandals and struggles of the past fifty years. Along the way it bears witness to epic injustices committed against the peoples of Vietnam, Cambodia, East Timor and Palestine. John Pilger sets each piece of reporting in its context and introduces the collection with a passionate essay arguing that the kind of journalism he celebrates here is being subverted by the very forces that ought to be its enemy. Taken as a whole, the book tells an extraordinary 'secret history' of the modern era. It is also a call to arms to journalists everywhere - before it is too late.

tell me no lies john pilger: Hiding in Plain Sight Eric Stover, Victor Peskin, Alexa Koenig, 2016 *Hiding in Plain Sight* tells the story of the global effort to apprehend the world's most wanted fugitives. Beginning with the flight of tens of thousands of Nazi war criminals and their collaborators after World War II, then moving on to the question of justice following the recent Balkan wars and the Rwandan genocide, and ending with the establishment of the International Criminal Court and America's pursuit of suspected terrorists in the aftermath of 9/11, the book explores the range of diplomatic and military strategies--both successful and unsuccessful--that states and international courts have adopted to pursue and capture war crimes suspects. It is a story fraught with broken promises, backroom politics, ethical dilemmas, and daring escapades--all in the name of international justice and human rights. *Hiding in Plain Sight* is a companion book to the public television documentary *Dead Reckoning: Postwar Justice from World War II to The War on Terror*. tell me no lies john pilger: Hard Interests, Soft Illusions Natasha Hamilton-Hart, 2012-02-17 In *Hard Interests, Soft Illusions*, Natasha Hamilton-Hart explores the belief held by foreign policy elites in much of Southeast Asia-Indonesia, Malaysia, the Philippines, Thailand, Singapore, and Vietnam-that the United States is a relatively benign power. She argues that this belief is an important factor underpinning U.S. preeminence in the region, because beliefs inform specific foreign policy decisions and form the basis for broad orientations of alignment, opposition, or nonalignment. Such foundational beliefs, however, do not simply reflect objective facts and reasoning processes. Hamilton-Hart argues that they are driven by both interests-in this case the political and economic interests of ruling groups in Southeast Asia-and illusions. Hamilton-Hart shows how the information landscape and standards of professional expertise within the foreign policy communities of Southeast Asia shape beliefs about the United States. These opinions frequently rest on deeply biased understandings of national history that dominate perceptions of the past and underlie strategic assessments of the present and future. Members of the foreign policy community rarely engage in probabilistic reasoning or effortful knowledge-testing strategies. This does not mean, she emphasizes, that the beliefs are insincere or merely instrumental rationalizations. Rather, cognitive and affective biases in the ways humans access and use information mean that interests influence beliefs; how they do so depends on available information, the social organization and practices of a professional sphere, and prevailing standards for generating knowledge.

tell me no lies john pilger: Shooting the Messenger Paul L. Moorcraft, Philip M. Taylor, 2008

As the literature on military-media relations grows, it is informed by antagonism either from journalists who report on wars or from ex-soldiers in their memoirs. Academics who attempt more judicious accounts rarely have any professional military or media experience. A working knowledge of the operational constraints of both professions underscores *Shooting the Messenger*. A veteran war correspondent and think tank director, Paul L. Moorcraft has served in the British Ministry of Defence, while historian-by-training Philip M. Taylor is a professor of international communications who has lectured widely to the U.S. military and at NATO institutions. Some of the topics they examine in this wide-ranging history of military-media relations are: - the interface between soldiers and civilian reporters covering conflicts - the sometimes grey area between reporters' right or need to know and the operational security constraints imposed by the military - the military's manipulation of journalists who accept it as a trade-off for safer battlefield access - the resultant gap between images of war and their reality - the evolving nature of media technology and the difficulties--and opportunities--this poses to the military - journalistic performance in reporting conflict as an observer or a participant Moorcraft and Taylor provide a bridge over which each side can pass and a path to mutual understanding.

tell me no lies john pilger: Undercover Reporting Brooke Kroeger, 2012-08-31 In her provocative book, Brooke Kroeger argues for a reconsideration of the place of oft-maligned journalistic practices. While it may seem paradoxical, much of the valuable journalism in the past century and a half has emerged from undercover investigations that employed subterfuge or deception to expose wrong. Kroeger asserts that undercover work is not a separate world, but rather it embodies a central discipline of good reporting—the ability to extract significant information or to create indelible, real-time descriptions of hard-to-penetrate institutions or social situations that deserve the public's attention. Together with a companion website that gathers some of the best investigative work of the past century, *Undercover Reporting* serves as a rallying call for an endangered aspect of the journalistic endeavor.

tell me no lies john pilger: Dying for the Truth Paul L. Moorcraft, 2016-11-30 A history and analysis of journalists reporting from the frontlines of war, from the mid-nineteenth century to the early twenty-first century. War correspondents are crucial to democracy and the public's discovery of the truth. Without the media, the temptation to manipulate events with propaganda could be irresistible to politicians of all hues. *Dying for The Truth* examines how journalists have plied their trade from the Crimean War to the present. Paul Moorcraft, a veteran journalist, discusses how correspondents' considerable influence has shaped the actions of politicians and military commanders as well as public opinion, and reveals how authority figures now view the media as potentially valuable tools. Technical developments and the "twenty-four-hour news cycle" have inevitably changed the nature of war reporting. Today news bureaus are apt to learn of developments before the higher chains of command. The author comments on key milestones that have contributed to this evolution. Using his own and others' experiences in recent conflicts, including Korea, the Falklands, the Balkans, Iraq, and Afghanistan, Moorcraft shares an aspect of warfare that is all too often overlooked but can be crucial to the outcome. The public's attitude toward the day-to-day conduct of war is becoming ever more significant and this fascinating book examines why. "This is a brilliant history of war reporting from the mid-nineteenth century's "scribblers and snappers" (reporters and photographers) to today's digital technology and instant communications." —Military Officer

tell me no lies john pilger: Theory of World Security Ken Booth, 2007-12-20 What is real? What can we know? How might we act? This book sets out to answer these fundamental philosophical questions in a radical and original theory of security for our times. Arguing that the concept of security in world politics has long been imprisoned by conservative thinking, Ken Booth explores security as a precious instrumental value which gives individuals and groups the opportunity to pursue the invention of humanity rather than live determined and diminished lives. Booth suggests that human society globally is facing a set of converging historical crises. He looks to

critical social theory and radical international theory to develop a comprehensive framework for understanding the historical challenges facing global business-as-usual and for planning to reconstruct a more cosmopolitan future. Theory of World Security is a challenge both to well-established ways of thinking about security and alternative approaches within critical security studies.

tell me no lies john pilger: Manipulating the Message Cecil Rosner, 2023-10-31 Journalists hate the term fake news, but there's a troubling reality: spin doctors routinely try to dupe them into reporting misleading and distorted stories. Check the news on any given day and here's what you'll find: Governments routinely lie. Companies inflate claims about their products and practices. Institutions release studies with misleading data meant to deceive. Police departments, infected by systemic racism, downplay crimes against Indigenous and racialized people. The public depends on the media to help them understand the world, but are journalists catching all the daily lies, omissions, and distortions? Shrinking newsrooms and an army of spin doctors mean journalists can get duped. Despite valiant efforts by a handful of investigative journalists, the truth is routinely left behind. Award-winning journalist Cecil Rosner insists there is something we can do about this. We can pressure news organizations to stop blindly regurgitating the firehose of press releases and focus instead on determining what is actually true. Rosner empowers readers by sharing his techniques for detecting misinformation and disinformation.

tell me no lies john pilger: Dark Side of the Tune: Popular Music and Violence Professor Bruce Johnson, Professor Martin Cloonan, 2013-01-28 Written against the academically dominant but simplistic romanticization of popular music as a positive force, this book focuses on the 'dark side' of the subject. It is a pioneering examination of the ways in which popular music has been deployed in association with violence, ranging from what appears to be an incidental relationship, to one in which music is explicitly applied as an instrument of violence. A preliminary overview of the physiological and cognitive foundations of sounding/hearing which are distinctive within the sensorium, discloses in particular their potential for organic and psychic violence. The study then elaborates working definitions of key terms (including the vexed idea of the 'popular') for the purposes of this investigation, and provides a historical survey of examples of the nexus between music and violence, from (pre)Biblical times to the late nineteenth century. The second half of the book concentrates on the modern era, marked in this case by the emergence of technologies by which music can be electronically augmented, generated, and disseminated, beginning with the advent of sound recording from the 1870s, and proceeding to audio-internet and other contemporary audio-technologies. Johnson and Cloonan argue that these technologies have transformed the potential of music to mediate cultural confrontations from the local to the global, particularly through violence. The authors present a taxonomy of case histories in the connection between popular music and violence, through increasingly intense forms of that relationship, culminating in the topical examples of music and torture, including those in Bosnia, Darfur, and by US forces in Iraq and Guantánamo Bay. This, however, is not simply a succession of data, but an argumentative synthesis. Thus, the final section debates the implications of this nexus both for popular music studies itself, and also in cultural policy and regulation, the ethics of citizenship, and arguments

about human rights.

tell me no lies john pilger: Muslim Perspectives on Islamophobia Zouhir Gabsi, 2024-08-06 The Islamic positioning of Islamophobia is presented in this book. Through 'Islamic' or 'Muslim' perspectives, the book engages with various Islamic texts and discourses (spoken and written) emanating from preachers and scholars of Islam to discuss the points of convergence and divergence with the Western interpretation of the phenomenon. The book aims to look at Islamophobia from a hitherto unexplored angle by first analyzing the points of convergence and divergence between the internal (Muslim) and external (Western) perspectives, and then by providing new approaches to curbing Islamophobia through a holistic spiritual dimension of Islam and cultural memory. The book contends that the bridges of understanding between the 'East' and the 'West' can only be built if some of Islam's theological concepts, such as the place of reason in Islam, are reinterpreted by considering the Islamic perspectives. While the book acknowledges previous work on Islamophobia, it contributes to a deeper understanding of Islamophobia in its internal and external manifestations by considering the theoretical frameworks of racism and xenophobia. Readers interested in Islamic studies and anti-racism narratives would find this book's eclectic approach and balanced perspective of the phenomenon informative and enlightening.

tell me no lies john pilger: The End of Tolerance Arun Kundnani, 2007-07-20 Is Britain becoming a more racist society? Arun Kundnani looks behind the media hysteria to show how multicultural Britain is under attack by government policies and vitriolic press campaigns that play upon fear and encourage racism. Exacerbated by the attacks of 9/11 and 7/7, Kundnani argues that a new form of racism is emerging that is based on a systematic failure to understand the causes of forced migration, global terrorism and social segregation. The result is a climate of hatred, especially against Muslims and asylum seekers. Yet the government presses ahead with flawed policies and anti-terrorist legislation that creates further resentment, alienation and criminalisation. What can be done? This timely and precise analysis is a useful account of why racism is now thriving - and what we can do to stop it.

tell me no lies john pilger: Eyewitness to the Past Joan Schur, 2023-10-10 Throughout history, people have often expressed controversial and conflicting interpretations of current events. Teachers will find interactive strategies to help students analyze the unique properties of each, and apply to them their own written work and oral argument. Students learn to express opposing viewpoints in documents, classroom interactions, and simulations such as staging congressional hearings, elections, or protests. They build crucial analytical thinking and presentation skills. Used together, the six strategies offer a varied and cohesive structure for studying the American past that reinforces material in the textbook, encourages creativity, activates different learning styles, and strengthens cognitive skills. Each chapter provides detailed instructions for implementing an eyewitness strategy set in a specific era of American history, and includes extensions for adapting the strategy to other time periods. In

addition to the primary sources included in the book, examples of student work are presented throughout to aid teachers in evaluating the work of their own students. Rubrics and a list of resources are offered for each eyewitness strategy.
