

how to start a secret society

How to Start a Secret Society: A Step-by-Step Guide to Creating Your Own Exclusive Group

how to start a secret society is a question that sparks curiosity and intrigue. The idea of forming a private group bound by shared values, clandestine rituals, or common goals has fascinated people for centuries. Whether inspired by historical orders, fictional tales, or the desire to create a unique community, starting a secret society involves more than just secrecy—it requires careful planning, purpose, and commitment. If you're intrigued by the concept and want to learn how to start a secret society, this guide will walk you through the essential steps, blending practical advice with creative inspiration.

Understanding the Essence of a Secret Society

Before diving into the mechanics of forming your own group, it's important to understand what a secret society truly is. Unlike regular clubs or organizations, secret societies often emphasize confidentiality, symbolism, and a sense of exclusivity. They might have hidden rituals, codes of conduct, and a structured hierarchy. The secrecy isn't just about hiding information; it's about fostering trust, loyalty, and identity among members.

The Purpose Behind the Secrecy

Every secret society needs a clear purpose. This could be anything from intellectual discussion, mutual support, social or political influence, spiritual exploration, or even just a fun, exclusive community. The purpose will shape your society's culture and attract like-minded individuals who share your vision.

Step 1: Define Your Mission and Values

The foundation of any successful secret society is a well-defined mission and a set of core values. Ask yourself: What do I want this society to achieve? What principles will members uphold?

- **Clarify your mission:** Is it to promote a cause, foster creativity, or simply build a tight-knit community?
- **Establish values:** Integrity, loyalty, discretion, knowledge—these will guide member behavior and decision-making.
- **Decide the scope:** Will your society be local, global, or online?

Having these elements in place will help maintain focus and consistency as your society grows.

Step 2: Create a Unique Identity

A secret society thrives on symbolism and mystique. Developing a distinctive identity can help foster a sense of belonging and exclusivity.

Choosing a Name and Symbols

Your society's name should evoke curiosity and reflect your mission. It might be cryptic or straightforward, but it should resonate with your values. Alongside the name, create symbols such as logos, emblems, or secret handshakes that members can recognize.

Designing Rituals and Traditions

Rituals, whether simple or elaborate, reinforce bonds and add to the allure of secrecy. Consider ceremonies for initiation, meetings, or milestones. These can be adapted to fit your society's tone—serious, playful, or somewhere in between.

Step 3: Recruit Your Founding Members

No secret society exists in isolation. The people you choose to invite initially will influence the group's culture and longevity.

Identifying Like-Minded Individuals

Look for individuals who share your passion and values. These could be friends, colleagues, or acquaintances who you trust and who understand the importance of discretion.

Setting Membership Criteria

Decide whether membership is open or selective. Will new members be vetted through interviews, recommendations, or demonstrations of commitment? Clear criteria help maintain the society's integrity.

Step 4: Establish Rules and Governance

To keep your secret society organized and functional, set up a governance structure and rules.

- **Create a hierarchy:** Define roles such as leader, secretary, or guardians of secrets.
- **Draft a code of conduct:** Outline acceptable behavior and consequences for breaches of secrecy.
- **Plan regular meetings:** Decide how often and where members will convene, whether physically or virtually.

A balanced structure ensures the society remains cohesive without feeling overly rigid.

Step 5: Use Technology Wisely to Maintain Secrecy

In the digital age, managing a secret society requires savvy use of communication tools without compromising privacy.

Choosing Secure Communication Channels

Utilize encrypted messaging apps or private forums to discuss society matters. Avoid public social media for sensitive topics.

Protecting Member Identities

Consider assigning pseudonyms or codenames to members if anonymity is important. Be mindful of digital footprints and data security.

Step 6: Plan Activities and Engagement

A thriving secret society is active and engaging. Plan events, projects, or challenges that align with your mission.

Types of Activities

- Workshops or intellectual debates
- Community service or activism
- Creative collaborations like art, writing, or performances
- Social gatherings that strengthen bonds

Regular engagement keeps members invested and the society dynamic.

Step 7: Cultivate the Culture and Legacy

Over time, your secret society will develop its own culture and traditions. Encourage storytelling, document key moments (discreetly), and evolve rituals to keep the group vibrant.

Passing Down Knowledge

Consider creating secret manuscripts, archives, or coded messages that preserve the society's history and values for future members. This sense of legacy adds depth and meaning.

Final Thoughts on How to Start a Secret Society

Learning how to start a secret society is as much about fostering meaningful connections as it is about maintaining discretion and mystery. By carefully defining your mission, building a strong identity, recruiting committed members, and nurturing your society's culture, you can create an exclusive community that stands the test of time. Remember, the true power of a secret society lies not just in secrecy, but in the shared trust and purpose that bind its members together. Whether your goal is to spark intellectual growth, creative expression, or simply build a private circle of friends, the journey of forming your own secret society is both exciting and rewarding.

Frequently Asked Questions

What are the first steps to starting a secret society?

Begin by defining the purpose and core values of your secret society, then recruit a small group of trusted individuals who share your vision.

How can I ensure the secrecy of my society?

Use encrypted communication methods, hold meetings in private locations, and establish strict confidentiality rules for members to maintain secrecy.

What are some common symbols or codes used in secret societies?

Many secret societies use unique symbols, handshakes, or coded language to identify members and communicate discreetly.

How do I recruit members without revealing too much?

Vet potential members carefully, share limited information initially, and gauge their trustworthiness before fully inducting them.

What legal considerations should I be aware of when forming a secret society?

Ensure that your society's activities comply with local laws and regulations, and avoid any illegal or harmful conduct to prevent legal issues.

How can I create rituals or traditions for my secret society?

Develop meaningful ceremonies or rites that reflect your society's values and history, and involve members in creating these to foster a sense of belonging.

****How to Start a Secret Society: An In-Depth Exploration****

how to start a secret society is a question that has intrigued historians, sociologists, and curious minds alike for centuries. Secret societies have played pivotal roles throughout history, from shaping political movements to influencing cultural trends. Understanding the steps and considerations involved in founding such an organization requires a nuanced approach that balances discretion with structure. This article aims to provide a comprehensive, professional analysis of how to start a secret society, highlighting key elements such as purpose, membership, rituals, and secrecy protocols while weaving in relevant insights on the dynamics that govern clandestine groups.

Defining the Purpose and Vision

The foundation of any secret society lies in a clear and compelling purpose. Whether the intent is to foster intellectual exchange, promote mutual aid, or pursue specific ideological goals, clarity of vision is paramount. A secret society thrives on shared values and objectives that bind members together beyond superficial interactions.

Identifying Core Objectives

Before establishing structural elements, prospective founders must delineate what their secret society aims to achieve. This could range from promoting esoteric knowledge, influencing social change, protecting certain traditions, or simply creating a private network of trust. The purpose not only guides membership criteria but also informs the society's rituals and operational secrecy.

Historical Context and Modern Relevance

Many secret societies, such as the Freemasons or the Illuminati, originated with philosophical or political motives. Today, secret societies might focus on niche interests, professional networking, or cultural preservation. Understanding this evolution helps in defining a purpose that resonates with contemporary members while maintaining an aura of exclusivity.

Structuring Membership and Recruitment

One of the most critical aspects when learning how to start a secret society is deciding who becomes a member and how they are admitted. Membership policies impact the society's cohesion, secrecy, and longevity.

Selection Criteria

Membership should be selective to maintain the group's exclusivity and trustworthiness. Criteria might include shared beliefs, professional backgrounds, or specific skills. Additionally, founders must consider the balance between inclusivity and secrecy, ensuring the society does not become too large or unwieldy.

Recruitment Strategies

Recruitment in secret societies often occurs through personal referrals, covert invitations, or initiations that test candidates' commitment. Unlike open organizations, secret societies

emphasize discretion during recruitment to prevent exposure.

- **Referral-based invitations:** Trusted members recommend potential recruits.
- **Trial periods:** Prospective members undergo a probationary phase to prove loyalty.
- **Ritualistic initiation:** Ceremonies that symbolize acceptance and commitment.

Cultivating Rituals and Symbolism

Rituals and symbols are the lifeblood of secret societies, providing a shared language and identity that reinforces allegiance and secrecy.

Designing Meaningful Rituals

Rituals may include oaths, secret handshakes, coded language, or ceremonial meetings. These practices create a sense of belonging and differentiate members from outsiders. While designing rituals, it is essential to ensure they align with the society's values and do not alienate potential members.

Symbolic Representation

Symbols—whether logos, emblems, or coded signs—serve as discreet identifiers of the society. They often draw from mysticism, history, or the group's core philosophy. Effective symbolism supports branding within the secretive context and can enhance internal cohesion.

Maintaining Secrecy and Security

A defining characteristic of secret societies is their ability to operate discreetly, which necessitates robust security measures.

Communication Protocols

Members must adhere to strict communication guidelines to prevent leaks. This might include encrypted messaging, face-to-face meetings in secure locations, or the use of code words.

Physical and Digital Security

The preservation of secrecy extends to both physical venues and digital data. Secret meeting places should be discreet and secure, while digital communications require encryption and cybersecurity protocols.

Managing Risks and Exposure

Understanding potential vulnerabilities—such as insider betrayal or external surveillance—is vital. Implementing tiered knowledge access, where members only know what is necessary, can mitigate risks. Transparency about security protocols within the group fosters trust without compromising secrecy.

Legal and Ethical Considerations

While secret societies carry an aura of mystery, founders must navigate legal frameworks to avoid infringing on laws or ethical boundaries.

Compliance with Local Laws

Depending on the jurisdiction, forming a private organization may require registration or adherence to specific regulations. Ensuring that the society's activities are lawful helps prevent legal challenges that could expose the group.

Ethical Implications

The secretive nature of these societies can raise concerns regarding transparency and accountability. Leaders should weigh the ethical implications of their actions and maintain a moral compass to avoid fostering harmful behaviors.

Technology's Role in Modern Secret Societies

In the digital age, technology offers both opportunities and challenges for secret societies.

Utilizing Secure Platforms

Encrypted communication tools like Signal or ProtonMail enable confidential exchanges. Virtual private networks (VPNs) and anonymizing browsers can protect members' identities.

during online interactions.

Balancing Accessibility and Secrecy

While technology facilitates remote participation, it also increases the risk of digital footprints. Founders must balance the convenience of digital tools with stringent security measures tailored to their society's secrecy requirements.

Case Studies: Lessons from Historical and Contemporary Secret Societies

Analyzing established secret societies provides valuable insights into best practices and pitfalls.

The Freemasons

One of the oldest and most well-known secret societies, the Freemasons, emphasize rituals, symbolism, and a hierarchical structure. Their longevity is attributed to adaptability and an emphasis on moral values.

The Skull and Bones Society

Known for its exclusivity and secrecy, this society's model highlights the importance of selective recruitment and maintaining confidentiality among influential members.

Modern Online Communities

Some contemporary secret societies operate primarily online, utilizing anonymity and encryption. Their experiences underscore the need for robust digital security and flexible organizational structures.

Final Thoughts on Starting a Secret Society

Embarking on the journey of how to start a secret society involves careful planning, a clear sense of purpose, and a commitment to discretion. The interplay between structure, secrecy, and shared identity is complex but essential for the society's success. Whether driven by philosophical ideals, social networking, or cultural preservation, the foundational elements discussed here offer a blueprint for those intrigued by the clandestine world of

secret societies. As with any private organization, the balance between exclusivity and ethical responsibility remains a delicate but vital consideration.

how to start a secret society: How to Start a Secret Society Oliver Wolf, 2015-04-06 The concept of secret societies has not only infatuated the wild imagination of children, but of adults as well. The mystique, the thrill that it provides, of being a part of something that no one else knows about, the sense of circumventing the establishment and the 'normal' world around you - who could pass up that kind of rush?!? Every secret society started somewhere - with a group of unknowns who eventually managed famous deeds, or were made famous by the deeds of their successors, which escalated the total brand value of their society. The point is, you don't need to be another George Washington to head your own secret society. Ever heard of John Heath? No? Well, he's the fellow who started the American Greek student system in 1776, because he failed admission into the two existing Latin fraternities at his college. Today, the result is not only a thriving and flourishing system, but it counts as the pinnacle of US collegiate social life for most students, and provides a valuable network of alumni, including ex-Presidents, Senators, Fortune-500 CEOs, and many other notables among its ranks. But beyond their potential future impacts, secret societies are fun! And they're so incredibly easy to start, it's a surprise there aren't hundreds of them. Oh wait, maybe there are? I guess we'll never know, since we can't count them if they're secret. Are you eager to create your own secret society or club? This book has all the information you'll need to get started. The first rule you need to know is: Respect the 'secret' part of secret society, and don't discuss any details with your boyfriend's best friend's uncle's girlfriend's cousin just to show off how clever you are. Now that we've got that out of the way, continue reading and you'll have your secret society up and running in no time!

how to start a secret society: How to Start Your Own Secret Society Nick Harding, 2015-07-24 Rejected by the Freemasons? Not bright enough for the Illuminati? Burnt by the Hell Fire Club? No friends in high places to get you into the Bilderberg or the Bohemian Grove? Feeling isolated and powerless? Fear not. There is an answer... Why not start your own secret society to add an air of mystery to your life and instantly alter the way you are perceived by family, friends and society at large. Learn the secrets of how to really influence people in business and politics by creating your own elitist fraternity. Discover the basic requirements for creating a clandestine sister or brotherhood with the ability to control, govern and influence events at the local or global level. Develop your own secret knowledge and hidden agenda while you plot to overthrow the powers that be through revolution and political or religious intrigue. Pierre Plantard and the Priory of Sion failed but you can avoid making the same mistakes they did by understanding what it really takes to maintain and develop a secret society. This book will show you all the requirements needed from choosing regalia to setting up a lodge, from electing a grand master to illustrating basic initiation ceremonies. It will also guide you on how to take historical events, great works of art and famous names to mould them into your desires for global domination.

how to start a secret society: Conspiracy Theories and Secret Societies For Dummies Christopher Hodapp, Alice Von Kannon, 2011-02-04 Entering the world of conspiracy theories and

secret societies is like stepping into a distant, parallel universe where the laws of physics have completely changed: black means white, up is down, and if you want to understand what's really going on, you need a good reference book. That's where *Conspiracy Theories & Secret Societies For Dummies* comes in. Whether you're a skeptic or a true believer, this fascinating guide, packed with the latest information, walks you through some of the most infamous conspiracy theories — such as Area 51 and the assassination of JFK — and introduces you to such mysterious organizations as the Freemasons, the Ninjas, the Mafia, and Rosicrucians. This behind-the-curtain guide helps you separate fact from fiction and helps you the global impact of these mysterious events and groups on our modern world. Discover how to: Test a conspiracy theory Spot a sinister secret society Assess the Internet's role in fueling conspiracy theories Explore world domination schemes Evaluate 9/11 conspiracy theories Figure out who "they" are Grasp the model on which conspiracy theories are built Figure out whether what "everybody knows" is true Distinguish on assassination brotherhood from another Understand why there's no such thing as a "lone assassin" Why do hot dogs come in packages of ten, while buns come in eight-packs? Everybody knows its a conspiracy, right? Find out in *Conspiracy Theories & Secret Societies For Dummies*.

how to start a secret society: *The Secret Society of Moses* Flavio Barbiero, 2010-01-19 A radical reexamination of Western history that suggests the descendants of Moses were the architects of the rise of the Roman Church and the ancestors of European aristocracy • Answers the inexplicable disappearance of all mention of Moses's descendants from the Bible • Reveals the key role played by Josephus Flavius in shaping early Christianity • Explains the connection of this secret priesthood to modern secret societies like the Freemasons After the book of Exodus, Moses's two sons and numerous descendants all vanish from the Bible. Flavio Barbiero's investigation of this strange absence and his study of the centuries-long power struggle between the priestly families fighting for control of the Temple of Jerusalem starts with the rebellion against Rome--and the emergence of Josephus Flavius, one of Moses's descendants, on the world stage. In AD 70 when the Temple in Jerusalem was destroyed by Titus Flavius and thousands of Jewish priests were exterminated, Josephus, now bearing his sponsor's last name, followed Titus Flavius to Rome with at least 250 relatives and friends. Here they were made Roman citizens but then subsequently disappeared from recorded history. Barbiero's careful study of early Christianity shows, however, that these surviving members of Moses's high-priest lineage succeeded in taking control of the nascent Roman Church and masterminded its extraordinary success. Using a wide range of evidence drawn from fields as disparate as archaeology, heraldry, and genetics, Barbiero shows how these descendants of Moses used the cult of Mithras to eventually seize control of the secular Roman authority as well. He then follows, step by step, the spread of the members of this secret priestly elite into what was to become the aristocracy of medieval Europe and how their influence continues to be felt in modern secret societies like Freemasonry.

how to start a secret society: *Secret Societies (EasyRead Super Large 24pt Edition)* ,

how to start a secret society: *How to Start Your Own Secret Society* Nick Harding, Helps you understand what it really takes to develop a secret society. This book covers topics ranging from choosing regalia to setting up a lodge, electing a grand master and basic initiation ceremonies. It also guides you on how to take historical events, great works of art and famous names to mould them into your desires for global domination.

how to start a secret society: *Secret Societies* Philip Gardiner, 2025-09-12 With his recent best-selling books and hundreds of articles, as well as radio and TV appearances, Philip Gardiner has started a crusade for uncovering the truth, and nothing could be more indicative of that search than his latest foray into the dark and often sinister world of secret societies. Yet again, Gardiner finds himself on a journey across the world to uncover the ancient secrets of the world's most powerful men. In one dramatic episode he finds himself driven out of Berlin in a black Mercedes by a secret organization that was believed to have disappeared after the second World War and eventually arrives in a modern Nazi watering hole. Gardiner, however, survives this incredible journey and brings us the secrets of the Order held sacred for so long. Gardiner delves into a world that is often

hidden from our eyes and finds himself in situations that seem to mirror the fictional world of the Da Vinci Code. Throughout *Secret Societies*, Gardiner: •—Uncovers an ancient secret society thought to have died out many years ago. •—Gets to the core of the secret societies' belief systems. •—Explores the secret origins of Freemasonry and the links to secret Serpent Cults. •—Investigates the secret hidden meaning of King Arthur and Robin Hood. •—Examines the claimants to the name of Illuminati, and analyzes the history of the group in Europe and America. •—Reveals the secret links within the Vatican and the Nazi Party. •—Looks in-depth at the white-powdered gold theory supposedly kept secret by orders throughout time and radically re-appraises it. •—Shows the link between the so-called enlightenment experience and the control of our minds. Nobody in the genre involves themselves in the tale in the same way that Gardiner does, and here he shows that the search for ultimate truth can often be a terrifying one.

how to start a secret society: *Unruly People* Robert J. Antony, 2016-08-01

how to start a secret society: THE TRUTH ABOUT FREEMASONS, ILLUMINATI, AND NEW WORLD ORDER S.D.S C.M.W, 2012-03-19 Two Books In One The New World Order's Letter to Every Citizen of the World warning Resistance is Futile. According to this letter addressed to everybody in America, it's useless to resist a one world takeover, as the program is in its final stages. The Very word secrecy is repugnant in a free and open society, and we are as people inherently and historically opposed to secret societies, to secret oaths and to secret proceedings. We decided long ago that the dangers of excessive and unwarranted concealment of pertinent facts far outweighed the dangers which are cited to justify. If you have the privilege to know, you have the duty to act

how to start a secret society: Our haunted world, Spiritual attacks, and God's protection Dr. Anthony B. Atwam (PhD), 2025-09-22 The struggle for personal success, justice, freedom, righteousness, and well-being is a concern of every human being. Some liberation movements have rightly located these problems in unjust societal structures such as capitalism, colonisation, hierarchy, human greediness, disobedience to God, and so on. These observations often overlook the impact of the spiritual realm on human life. At the global level, it leads the world and humanity astray from God-ordained place in the universe. We are wrestling against spiritual powers in all seven gates of society: government, education, arts and entertainment, economy, media, family, and religion. At the personal level, many people do not have peace, good health, righteousness, material prosperity, justice, and eternal life. Most people pay attention to the subject only when they experience it. Others, dismiss it as myth or unscientific. Science does not deal with spiritual issues; these belong to the realm of the supernatural, which comes under theology or, more broadly, religion and spirituality. The ultimate spiritual protection is from God, and He gives it to the righteous. People should not be afraid of spiritual attacks. One can easily overcome spiritual problems if one faithfully loves God and lives in obedience to God. Thus, this book examines and contributes to the kind of help people need to understand spiritual attacks, how they happen, why they happen, how God rescues us, and what people should do. This book is a contribution to a theology of redemption.

how to start a secret society: The Family Herald , 1871

how to start a secret society: A New Planet Corey Marques, 2011-12-21 The characters and plot of this story are fictitious , and although some are derived from mythical, historical, symbolic and religious means, the story itself is fictitious. As such, the story is not intended to be taken seriously, judgmentally, nor religiously; but absorbed and discarded playfully with an open mind. Take in what you need; take what you feel, discard the rest. In no way does this book claim to know the right way to grow, because everyone must walk their own path, everyone must find their own centerpoint of view . This story comes from one perspective, one eye, one voice, one soul expressing various elements of human emotion, expression and opinion. This is a story, with a plot I believe to be of central proportions. It is up to you to find connections to your own Archetype. May you always Love your Creator and aim to shine bright like the greatest role model in the universe. Within creative bright light*Shines great insight. Aim to be the Author and Master your own world. *Everyone, every soul has a character, a story that can and does change the World. Ask yourself,

who is your character?

how to start a secret society: *Intelligence Practices in High-Trust Societies* Kira Vrist Rønn, Adam Diderichsen, Mia Hartmann, Melanie Hartvigsen, 2024-09-13 This book examines the dynamics of intelligence practices in the Scandinavian culture of high social cohesion and high trust. Situated within the new body of scholarly literature, the book emphasizes critical empirical investigations of intelligence practices, highlighting the specific cultural settings of such practices. By providing Scandinavian perspectives on intelligence studies, the work distinguishes Scandinavian intelligence studies from the predominant Anglo-American perspectives. Throughout the Western world, the past two decades have generated a rapid expansion of the legal mandate, funding, and capabilities of intelligence agencies which, simultaneously, have been pushed to renegotiate and renew their legitimacy and democratic mandate in response to a recurrent pattern of scandals, leaks, and failures. While these tendencies are also evident in Scandinavia, the book argues that it is important to emphasize the unique context of cohesion and trust in state agencies that differentiates Scandinavian welfare states from the American (and to a lesser extent British) contexts. This book brings together scholars from Norway, Sweden, and Denmark to address the continuous renegotiation of the legitimacy of state intelligence as it plays out in a Scandinavian setting. This book will be of interest to students of intelligence studies, Nordic politics, security studies, and International Relations.

how to start a secret society: *Open Verdict* Ken Bridgewater, 2014-04 When John MacLennan invaded the life of Aileen, a radio talk show host, in 1980 he was already dead. He was on a dissecting table with a pathologist cutting out his heart. Police Inspector MacLennan was found dead in his locked Hong Kong flat. At first glance, his death appeared to be suicide; there was a note. But there were also five bullet wounds in his chest-seemingly too many to be self-inflicted. Rumours swirl about his suspicious death. Maybe MacLennan had upset the gangsters by hounding them. Perhaps he had angered the police by digging too deeply into their culture. He may have offended the Hong Kong government by straying from the party line. The Inspector's death was discussed daily on Aileen's show, debating the question of whether it was suicide or murder. Aileen was threatened with a criminal libel suit for broadcasting and causing open discussion on such a sensitive issue. Based on actual events, *Open Verdict* offers a fictionalized account of MacLennan's case written by Ken Bridgewater, who lived in Hong Kong at the time. In this real-life mystery, Bridgewater seeks to reveal the facts of this mysterious case.

how to start a secret society: *Tiger, Tyrant, Bandit, Businessman* Brian DeMare, 2022-08-16 The rural county of Poyang, lying in northern Jiangxi Province, goes largely unmentioned in the annals of modern Chinese history. Yet records from the Public Security Bureau archive hold a treasure trove of data on the every day interactions between locals and the law. Drawing on these largely overlooked resources, *Tiger, Tyrant, Bandit, Businessman* follows four criminal cases that together uniquely illuminate the dawning years of the People's Republic. Using a unique casefile approach, Brian DeMare recounts stories of a Confucian scholar who found himself allied with bandits and secret society members; a farmer who murdered a cadre; an evil tyrant who exploited religious traditions to avoid prosecution; and a merchant accused of a crime he did not commit. Each case is a tremendous tale, complete with memorable characters, plot twists, and drama. And while all depict the enemies of New China, each also reveals details of village life during this most pivotal moment of recent Chinese history. Together, the narratives bring rural regime change to life, illustrating how the Chinese Communist Party cemented its authority through mass political campaigns, careful legal investigations, and sheer patience. Balancing storytelling with historical inquiry, this book is at once a grassroots view of rural China's legal system and its application to apparent counterrevolutionaries, and a lesson in archival research itself.

how to start a secret society: *Peasants without the Party* Lucien Bianco, 2015-03-04 Exploring one of the most dynamic and contested regions of the world, this series includes works on political, economic, cultural, and social changes in modern and contemporary Asia and the Pacific. The leading specialist on China's twentieth century peasant resistance reexamines, in bold and
